

Thank you for the letters forwarded
to Okada's. NY is crowded, noisy
& dirty - anyone could go crazy or
have a nervous breakdown. After
an afternoon in town you can scrape
the black off your neck & throat
with your nails. You go everywhere
by subway & live in crowded houses
like ants - come out of a hole, go
into a hole to go places & live in a
hole. It is very busy & relocated
nisei live a pretty dull & unin-
teresting life, trying to work all
day & doing housework at night &
washing on Sunday. Henri is not in a
union so he can't take the \$60⁰⁰ week
job as printer which he was offered. He
is still talking about doing dish washing
because it is a soft job & good money
and plenty of free time to enjoy
the sights. The food is not much
good because it comes in to town
cold storage. Eiichi Sato is doing OK
& New Haven seems a much better place
to live. So glad & relieved Pinky is
doing all right. We miss her so much
