TO PARENTS OR GUARDIANS

- 1. Report cards are issued three times each term to inform the parent or guardian regarding the progress of the child.
2. Parents are urged to visit the schools regarding the child's progress or difficulties.
3. Irregular attendance lessens the educational opportunity of the child and endangers promotion.
4. The state school law requires prompt and regular attendance.
5. State financial support for our schools depends upon the total days attendance. Absence, even for a part of a day, decreases the financial aid from the state, and increases the amount to be contributed by the city and county.

J. M. Gwinn Superintendent of Schools

## CITIZENSHIP

Education for good citizenship must be the chief aim and end of schools which derive their support from public funds raised through taxes. The training of boys and girls to be good citizens is not so much a matter of teaching them facts as it is a matter of bringing forth in them the right spirit. The teachers desire to cooperate with the parents in fostering right attitudes. The ratings are the same as those used for scholastic subjects.
