START WITH A HAT! Not just any hat, but a renegade chapeau from TAKAHASHI; the ones with mountain-high crowns and potato-chip brims (with the snap left in!); the colorful ones. Colorful? TAKAHASHI Colorful! (Oh . . .) Now vent your aggressions and creativity: Pinch it. Twist it. Maul it into a stylish, comfortable mode (Don't worry. It can take it. The lanky vegetable fibers are loom-woven by hand. They're flexible and versatile — change shape entirely with lukewarm steam iron.)

NOW ADD FEATHERS! TAKAHASHI Feather Flowers. Of course these are splendid decorations by themselves. But just plant a few on that millinery masterpiece you just draped into shape . . . and watch it grow. TAKAHASHI Feather Flowers are plumage from the African Ostrich and other fowl. The feathers are dyed by hand in brilliant TAKAHASHI colors: Red, orange, cerise, plum, yellow, white, olive, lime, emerald green, teal, purple! But we got sidetracked . . . we're not done with the hat . . . turn the page!
