Gentlemen-

I have been informed that your company presents for women's clubs a showing of interesting articles which you handle and that you give a program which describes such articles and gives art information.

Would it be possible for you to present such a program for our Lakeview Women's Club on Monday afternoon, January 13, 1958? I realize that this is a long while in advance, but thought that perhaps you have many other demands and I am arranging my schedule of speakers for the next club year.

We will be meeting in a new place, not at the above address, but I will notify of the change of address later when I know if you will be able to arrange the program for us. My personal address is above, under the letter head.

I have not seen your program but have been told that the members of the Twentieth Century Club were

JUN 11 1957

delighted. I would greatly appreciate an early reply so that I may know if you will consider putting on the meeting program for us.

What is your charge? I have been quoted a figure which may or may not be authentic, and as I must keep within a very modest budget for my Allied Arts section of the club, your charge has much to do with the possibility of having a speaker from your company. If the fee is not too high, and if you at this time think it possible that some one from your company can give the demonstration and talk, I will be more explicit as to time and place. This is just to inquire as to whether you might consider putting on the program and as to the cost.

The date, again:

Monday, January 13th, 1958--1:30 p.m.

Place--Lakeview Club, meeting at the 1318 Glenfield Ave, Oakland,--off of Park Blvd.

Please reply to me, at 365 Hillside Avenue, Piedmont 11 at your earliest convenience.

Thanking you in advance and hoping for a favorable reply, I am

Sincerely yours

(Mrs.) Louise T. Lawson
