Gentlemen:

We have the pleasure of writing you again in this opportunity according to the promise with Miss Takahashi in order to offer you our service along with the special and unique requirements of your firm for Japanese goods and to request for your continuous patronage in the future.

So much impressed by the opinion of Miss Takahashi told to the writer in Nagoya, we feel pleasure to cooperate you as possible as we can to find our splendid articles in Japan for your firm to sell them out in U.S.A.

According to the suggestion given to us in her stay in this city, we wish to offer you now the following items:

Iron Teakettle (Nanbu-Tetsubin): We could not find out a manufacturer of Imitation Nanbu-Tetsubin in Osaka District, so we sent you two samples of another manufacturer in Hokuriku district. These are made by an artist who got a prize in the National Exhibition, so the products are ranking at the first class. The monthly production of Art.No.7341 is 100 pcs. and that of Art.No.7342 is 300 pcs. We hope that these will meet with your requirement and we shall be able to receive good news.

#7318:Bancho Set: Miss Takahashi inquired for White Porcelain Bancho Set, consisting of one round shape tea pot and 6 cups, so we are glad to offer you the same of our connected factory of porcelain wares. One sample was sent you under separate cover. Any kind of design will be put on according to your sketch.

Banko Tea Pot: We suppose that these Banko Tea Pots will interest you perhaps. The samples and price list are for rather cheap ones and if you want better quality ones we shall be pleased to hear it and offer them. Please try and let us hear the result.

We shall be pleased to hear anything more of your requirements in detail for Japanese goods, as we are willing to serve you in any way.

Trusting to hear your reply in return mail and hoping to enter into good business relation with your firm,

Yours very truly,

YAKUMO TRADING CO., LTD.
