

Dear Mr. Hatano, very reasonable price, I desire

I hope this letter finds you in the best of health with your young family. It has been many years since you were so kind to us by getting for our company, the silk samples and quotations from your father's company, while you were a student at Stanford University.

At the time you left, you said that if there was ever anything further you could do, for us to contact you in Japan.

At this time, we would like to make connections with an exporter of silk made-up goods:

- 16 momme kimono style robe
- Pongee 16 momme kimono style robe
- 16 momme kimono style robe
- 30 momme kimono style robe
- 30 momme coat
- 30 momme banker's coat
- 30 momme hanten with pockets and belt

- Jacquard weave silk and rayon kimono style robe
- all silk kimono style robe
- quilted hanten
- quilted robe
- piece goods in our own designs

If these are possible for connections, we are happy to give good orders all throughout the year for many years to come. We already distribute these above-mentioned items in the States at wholesale, and volume is too large for present shipper, to satisfactorily continue service as exporter.

Please connect us with best, most sincere shipper who has good connection with silk supplier and good makers of made-up goods, with high quality and standards of workmanship, and low price.

two

If you will please favor me with a good shipper who will give me a very reasonable price, I desire: Dear Mr. Nakano,

I hope this letter finds you in the best of health. I have been very busy since your last letter. I have many samples of colors, samples of fabric, and samples of workmanship. I will place an order for the delivery dates, price on each fabric, design, etc. and other facts, and I will place an order for the volume production.

delivery to arrive in the States commencing early Spring of 1959.

I thank you sincerely for the kind attention you personally can pay to my request and await an early reply from your introduction.

If you can introduce me to two or more shippers depending upon their ability to quote me lower prices on different kinds of silk, I would be most grateful for your frank thoughts upon this subject.

I close this letter with kind thoughts for you, your graceful wife, and your father. Do you now have a family? Your father was very kind in sending silk worm eggs to a large private school in our city, where they hatched, and subsequently produced some real cocoons.

Warmest regards,

Sincerely yours,

Tomoye Takahashi (Mrs. Henri H.)  
P.S. We see Mr. Nao often. He is indeed 'o-genki'. They moved to a new house on Tenth Avenue recently. We send customers for his prints all the time, and also use them for our own shop. Please connect with silk supplier and good makers of goods, with high quality and standards of workmanship, and low price.
