Dear ~~Miss Fujii~~ ^{Kimiko}

Thank you very much for helping me to make the "49th Birthday Party" a success.

The most serious flaw in our democratic election process is the rapidly rising cost of campaigning. Until we adopt a strict system of public financing, accountability, and shorter campaign periods, our best protection will continue to be the broadest based maximum number of private contributions. I thank you for participating.

Serving as a State Senator is a great honor. It is challenging. It is exciting. It is an opportunity to help close the performance gap in our country and to bring Americans of all kinds together.

Sincerely,

NICHOLAS C. PETRIS
