SINCERE CONGRATULATIONS - KIMMI!

- among all the papers on my desk I found a little publication from A.C. Transit - and I just glanced through it ... Here she is - dear Kimi - remember when we were studying Spanish together in Dr. Borroto's class? Needless to say, that I was more than pleased to see a picture of you - what fine accomplishment! More power to you - you deserve it! Just Hope you are happy (and don't overwork). Just remember that the "Jug" needs refilling once in a while, i.e., you must not forget vacation; otherwise you can't give out kindness, laughter and encouraging words, so much needed today everywhere! I'm still working here on Campus, taking night classes and always "superbusy" with my beloved husband who keeps me on my toes and makes me happy. My family from Vienna was here last summer and next year we'll be visiting there again...

- have to take care of my desk again and say "bye" for now. Take care!

Sincerely,

Fride

P.S. had to take a few minutes to write you this note - some people are never forgotten...
