Dear Miss Fujii:

May we extend to you a belated New Year's greeting and thanks to you for your past involvement in the Chairman's Advisory Committee. Our previous activities in the County Central Committee and the Advisory Committee have alerted us to the essential role the Advisory Committee has played in the successes of local Democratic Party politics, for which we are most thankful.

Today, just one month after the inauguration of Mr. Reagan, we are sure you will join with us in resolving that Democrats in Alameda County must regroup and redouble their efforts to effect a change in four years, and to maintain our present position two years from now.

To this end we are soliciting your maximum co-operation in the formulation of a new program, and your financial support to facilitate that program. It is the warning of our State Chairman, Assemblyman Charles Warren, that preparations for the 1968 campaign should be well underway by September 1967 --- seven months away. We must begin to move, now.

Very truly,

Ray Rinehart
