November 9th, 1943

Dear Waka-chan & Yuri-chan,

As requested, am mailing 3 1# pkgs and 1 2# pkg of Chocolate Chews and Crisps. No bridge assortment is available at the moment.

Prospects of seeing Frisco arent so hot. Its hard enough trying to get reservations to the coast but I understand its much harder coming back because soldiers on furlough receive priority. Please tell Toichi, if chances are better getting reservations for just two, to omit me.

I rather question my chances of getting anything done out there, so it might be just as well to omit me.

When I applied for space here, they told me that perhaps my only chance would be a timely cancellation but 'space for 3' presents a problem.

^{Rafe}
I sincerely hope everyone in your family is facing your father's departure with courage and with determination towards the future.

Yours sincerely,
