Dear Wak; With this cold weather and not too busy, I couldn't resist making a birthday card. In case you don't recognize the scenery, it is the S.F. Bay from your balcony,... I think this is a momentous occasion in that I always called you on the telephone because I almost missed the date. But here I am writing a letter a few days ahead so that you would get it be your birthday/?? That remains to be seen. Some times the Post Office is slow. And sometimes I am slow. Well anyhow I hope your friends there will remember you. aasthey always has. What are you working on now. You manage to keep busy . I have a remodeling job on the Allen house. This of course is the third owner now. Converting the basement to a Gym. Well it keeps me just busy enough to get out of the house and brave the cold. Yuri is still busy with her work. I eat supper about twice a week with her . We try to keep up with the relatives and such. Ricci is there most of the time. Well anyways is your house in good shape? Hech are you in good shape. We seem to be allright here.
