ASIAN/PACIFIC HERITAGE DAY, unite one, unite all! For centuries and centuries we have had a long history of struggle here in the U.S., yet still unrecognized. Through performances, foods, talks, games and more, we want to share/learn the history and culture of the ASIAN/PACIFIC people. As students, it important that we play an active role in our own education.

For instance, Ethnic Studies, Affirmative Action, Education Opportunity Program and more were fought for and won for our use. "LEARN FROM OUR HISTORY TO MAKE HISTORY" our forefathers strived to keep our culture surviving, so now, we not only want to continue what our forefathers strived for but also widen community awareness. This program has helped all nationalities of ASIAN/PACIFIC students at State in working together. In this way we have learned to continue in the tradition of our long history as ASIANS and PACIFIC ISLANDERS in this country.
