

Early-mid April
1946: at Camp Ritchie

My dear Chong-lui know that you did enjoy the candies
I am very glad to receive your nice letter concerning
and especially glad to hear that you have received the Chinese
passport. ~~May I congratulate upon your great success.~~
I can imagine that you must be quite happy because you can
plan to go back to our native land in ^{the} near future.

What route are you planning to take for going back to the
country? Is there any way that you can plan to come to
this country on your way home? so that we can make
~~the plan~~ take the same boat for China?

I am very glad to learn that our missionary schools
~~are carrying~~ ^{have started} its mission except ~~that~~ the seminary.

I am very interested in ~~education~~ ^{seminary} the training field for
the ministers. I hope that a good seminary ^{can} be
established in the island ~~with the~~ with the help from
foreign missionaries. ~~The pioneer age of missionary~~

~~is~~ Our church now entered into the constructive
age instead of pioneer age and to produce a good
minister is the most urgent for the future development
of ~~church expansion of~~ ^{and propagation of} the Christian message
~~the church~~.

I expected that the missionary work in the post war period
will be very hard and require a great effort for the person who
will engage in that field. I will try to make a good collection
of the ~~books~~ ^{literature on} the New Testament field and if my economic
situation will allow me I shall purchase books of church history

Personally I would like to see that our church in Taiwan ~~will~~
have close relation with the church of Christ in China.
