

**SHE'LL HELP GREET . . .** Secretary of the Point Loma school senior class, RYO MORIKAWA, tonight, with other class officers, will form a receiving line to greet classmates and guests attending the school's traditional Senior A Prom in Hotel del Coronado. A dinner party in the San Diego Hotel will precede the ball.

reports that this survivor "was sentenced to serve one to two years in prison after he pleaded guilty to possession of burglary tools. He had been arrested March 19 in connection with an attempted burglary of a Quincy office."

And so the riddle grows. Are we to say: "No bad man is a free agent," "Once a criminal always a criminal,"—or "The will of man is free. By greed he writes his destiny?" Are we to shrug that Providence weaves strange fabrics in lives, or to echo Whittier, "God's ways seem dark, but soon or late, they touch the shining hills of day?"

## Congress Helps Itself

ECONOMY, LIKE charity, might be expected to begin at home. But when it came to voting themselves another secretary apiece at \$1500 a year, congressmen fell over each other to vote "yes." By the time the Senate does the same, the extra cost will be a mere million dollars a year.

Now this may be entirely necessary. But it remains true that the same congressmen who abused Roosevelt as a prodigal with the nation's money, have cut down his relief estimates and raised his budget on practically every other count. Now they are helping themselves to an extra clerk to help those already available through a clerk-hire allowance of \$5000 a year.

When you find (if you ever do find) a congressman who will vote against an appropriation affecting his home district or his own office, then you will find a congressman genuinely and sincerely devoted to the economy he preaches.

And not before, and not unless.

Isn't it peculiar how many women claim to be masters of culinary art always flock to these cooking schools?
