Dear Rev. Sai:

It was proposed at the close of the Committee meeting yesterday that something be done to express the deep appreciation we all feel toward you for your untiring service and sacrificial devotion you had shown to the Church and the congregation.

It was then decided and I was chosen and instructed to forward to you a small token in the name of the Church of Christ.

I would like, at the same time, express fully our feeling and sentiments for there is so much to say. And yet when the time comes to say it the words seem to fail and find I cannot say one hundredth part of what must be said.

However there is one thing we all feel and can say and that is you and all you have done for us in the past will never be forgotten.

We thank God for sending you to us in those crucial days and guiding you and us in establishing a church where we gather and praise His glory.
