Dear Miss Sell,

Thank you ever so much for all the trouble you had gone through for us. All the packages reached us safely.

We were all simply crazy about the materials you sent us. You certainly know the colors for her! Mother is tickled with the nice colors you had picked for her; she shows them to ladies who come to visit us and recites to them the long history of our acquaintance with you.

I received the coat and suit. I like them both very much, but much as I hate to say so I'm afraid I will have to send the coat back since its a little large for me and also because of my ~~not~~ being very fond of box coats. I have my sport coat and what I wanted was a dressy coat. I like the material of the coat very much; the feel of it is like a million dollars, but I believe it will be best to send it back. Mother tells me that I should buy my wardrobe after I have gone out and there "do as the Romans do" so the old saying goes. Because I like the suit very much I will keep the suit.

I do hope you won't feel hurt for my being so frank. What shall I do with the coats, shall I send it back to Farmers Dept. Store and have them refund the money to you? How shall I go about doing this refund business? I shall await your answer.

I really did appreciate all your ~~have~~ done for me.

Please thank Mrs. Murray for all she had done.

Thank you ever so much.

Always,
Inditha
