Dear Miss Sell,

Surprised to hear from me again? Yes - it's concerning the library that is to be started very soon we hope. At the present we're busy contacting people for books and really have no books at all.

Sis suggested that we write you and have you contact Mrs. Brewitt for books. We're confused about who we really should ask. Whether the churches directly or people we know personally. Do you suppose you can talk to her about it?

We would like to have books for both the recreational and educational benefit of the American Japanese here. Do you suppose it would be possible for you and Mrs. Brewitt to find people with books that they can kindly donate? Just a few books at least would get us started and the people here would have something worthwhile to do.

I do hope I'm not imposing upon you too much. We realize it's a long process to get a library started, but we are so anxious to get into action and see some results. Sounds like me, doesn't it?

We shall sincerely appreciate any help you can render us in getting a little library started. If you can help us can let us know?

Very sincerely yours,

Maula Morooka
