

F-23-5 SAAC. 9/19/42.

Dear Joe:

This morning after you had left, an airmail letter, a transcript of which I've enclosed, arrived here. Fuji left it on the table, and Dickie opened it, so I read it. Since it is very important to you, I airtailed it together with a letter, a copy of which is enclosed, to the Project Manager at Granada. If the letter has not already been forwarded to you, you'd better contact him immediately. Good luck.

By the way, Chiyo sent a package to pop, but I think I'll keep it and bring it up when I go there.

Regards,

  
Hank.
