I am at this moment the ~~#~~ prophet of God -  
~~#~~ This revelation came to me while bathing - I am  
not half the equal of Christ or Buddha or Mohammed  
or Confucius - but at this moment I am perhaps the  
only one in the world who has the answer to ~~the~~  
many things - troubling the world -

~~In my new philosophy there can be no see~~ My  
new philosophy is ~~spiritualism~~ soulism - It is rooted  
in the existence of the soul - This cannot be  
doubted because of the impermanence of material things.  
Only God and the soul is immortal. - I don't know what  
God looks like but He acts because of a process far  
beyond mental processes - we are not capable of exercising  
this but we will when free of the limitations of our  
physical bodies + the cell <sup>(brain)</sup> which is the brain + mind.  
It will enable us to perceive ~~immortality~~ God + Space +  
time (those things which we call by those names) - We  
will be able to conceive of immortality which is beyond  
our conception now and only able to be accepted on faith.

The physical body is only ~~a~~ the instrument through  
which individual on the race will be able to become  
conscious of this soulism - It is material and will not  
last but the soul which is housed therein will  
endure - ~~that~~ It is the soul of Jesus -

There is no such thing as a moral code ~~at~~  
because ~~the~~ any injury to an individual ~~is~~ is only an

Injury to his physical self and not to his soul —  
But it's a dirty trick to injure his physical self  
because it may hamper him from developing this  
Consciousness of soulism (which may take place  
generations later by the process of evolution) —

This is not meant to supplant any religion —  
I am a Christian myself, but believe that anyone  
can perceive soulism

~~Perhaps I am approaching insanity that I~~  
~~am not of narrow temperament~~
