## TO PARENTS:

Regular reports of the pupil's work will be made at the end of each quarter. Special reports will be made at such other times as it may appear best to acquaint the parent with the pupil's progress.

Parents are requested to sign and return this card within three days. Signature shows simply that the report has been inspected and indicates neither approval nor disapproval. Parents are cordially invited to visit the schools at any time and observe the type of work being done. They are urged to confer with principals at any time concerning the progress of their children. Conferences with teachers, however, should be deferred until after the close of school when they can be held without interrupting the regular work of a class.
