

Mr. Scott.

P.O. Box 518
Smithfield, Utah
Nov. 1943.

Mr. G. W. Scott,
90 Associated Seed Grower
Milpitas, Calif.

Dear Mr. Scott:-

Like I wrote in the last letter I need my implements as soon as possible, so I made a list mail to Mr. Peckham and Mr. Monahan the person who is to help load for me. Also I include a list for your memory. I am very sorry to bother you, but please when Mr. Monahan calls you I wish you would show him as much as you can.

In meantime if you can help to spare your boys when loading, I will surely appreciate it. I will gladly pay for that expense.

Thank you, we received from your Company New Haven, Conn. a check for the rent payment.

The letter was transferred from Milpitas to Smithfield, I mail the check to Mr. Peckham's office.

Sincerely yours:

List of house hold goods.

(From in my home) some which are ours, some belong to the boys but we need almost all of them, except the following things

We do not need, davenport, tables, chairs, desks, bookcases, books, gas stove, kerosene stoves, beds, springs, mattresses, all other big furnitures,

We need all the trunks, wooden boxes, cardboard boxes, in cloth sacks, all in my closet things like 2 overcoats and all paper boxes thing,

One singer sewing machine, one washing machine,

First thing I ordered Mr. Monohom to do for us something for one person who worked at our place, He wishes to have these things sent by collect express the following things, ~~on the 1st of June~~ from my house. I told Mr. Monohom to let a storage house take care for that so when they come to my house I wish to have door open and give those things and get a receipt from him please.

One very new singer sewing machine covered with cloth of orange, brown, white, printed material with orange bias for cover.

One Vanity table like in picture except it is a little more simpler and has no chair, dark brown, the mirror is covered with a rice sack cloth.

one Refrigerator, is Norge Co., 6 cubic ft. It is also covered with a rice cloth.

List of house hold goods

2

We have one more new Vanity and chest (a set) without a chair which belong to some other person who worked at our place.

The Vanity is just like the other one which is to be sent by collect express; probably this other person wants the Vanity and chest sent some other time so in case you have to move all our furniture, I wish to have the Vanity and chest left separate from the other things so that they are easy to get next time, also there are two kerosene stoves which belong to him.

I told Mr. Monohom in case there is no room to load the washing machine and the little older ~~single~~ sewing machine which is not to be sent by express, to leave it together with the Vanity and chest.

List of implement

D2 Caterpillar ^{like} I wrote ^{like} last time if you can, I wish to have my D2 repaired or overhauled under the your Company's name please. I wrote to Mr. Peckham about that so I wish ^{you} to talk to Mr. Peckham please. at last if it needs painting have it painted because we have leave it out side. Like I wrote last time there ^{are} ~~so~~ very hard to no Caterpillar agents ~~so~~ In case trouble happens, very hard to take care for D2 so I wish ^{you} to tell Ry tractor Co, to do the best job. After ^{the} job is done, I wish to have D2 left in the shop until loading begins then have the D2 loaded directly on the car please.

(Things with D2) - Track roller grease pump, High pressure grease gun, Transmission grease gun, one 2 qt oil measure cup (copper coated), spring operated oil cup, penetrating oil cup copper coated, all the wrenches which are included D2, endless red belt, D2 power take off pulley, one bar fit on the draw bar to ~~set~~ pull small implement.

Farmall F12 four wheels & one single rubber tire for front.
one draw bar, one 3 row lister attachment, including 3 large ditchers & stands,
one bar fit on the draw bar to ~~set~~ pull 3 working cultivators,
one grease gun handle is little broken, one wrench for wheel adjustment,
one long wrench like a crank use for draw bar, and all kind of attachment.

Killefer offset disc harrow

Winsor tractor cultivator with complet. stand and 3 knives with stands.

2-14 - John Deere plow including 3 pair of shears.

Dyer subsoiler

Show-bronze dumping scrapper

John Deere 3 row lister (at Mr. Watson's Zanker Road)

Tractor cultivator spring stands used to belong to Ojama's.

Low Crop Bean Spray rig including one 12 nozzles, 4 row outfit stand,
two row special made 6 nozzle hand spray gun, 3 single nozzle guns,
two ~~lines~~ - two hundred fifty feet ^{long} spray hoses.

Ring roller (mash harrows) this roller we have contract including with
our Ranch but please let us use it again like when we farmed at Graddy.

Wooden roller - special made single horse

One John Deere two wheel riding cultivator including stands, clamps & a pair discs.

One planted junior two wheel riding cultivator including stands, clamps, & a pair discs.

John Deere four wheel top bed cultivator used for lettuce, spinach, cultivator
including all kind of stands.

John Deere 3 wheel beets cultivator.

550 gal. diesel fuel tank complete with pump & rubber hose, redwood blocks ^{for} foundations.

Planted junior one bed planter including steel roller, inside seeders Box propellers
they should have both propellers with same style.

300 gal wooden water supply tank including two kinds of pipes & faucets and
2 pieces 1 1/4 inches rubber hoses about 25 ft long.

John Deere hammer machine

Japanese scraper including a 2 wheel trailer to ride on.

1930 model A Ford two door (black sedan) 1942 license on

We left another Ford two door sedan 1928 blue color (without license) which has 5 tires, we would like to have the tires with the rims on.

I asked around here and Grand Junction about the price of 1940 or 1941 used car, ~~driven~~ over 25,000 miles and they said it cost \$1,150⁰⁰ and up so I think it would be cheaper to get our car, cause when we left it at home the engine and the tires were in good condition.

Mr. Scott
Single working cultivators except the ^{me} written contract paper

- 1 Oliver heavy cultivator red paint on, 2 McCormick teeth cultivators, one John Deere teeth cult,
- 4 McCormick working cultivators all exactly of the same type including two quite new ones we borrowed from Oyama's at Gridley, 1 planted Junior special stand on
- 1 John Deere 10 in working plow, 1 wooden V use for main ditches
- 1 Harely-hand spray pump 15 gal tank include red rubber spray hose.
- 1 pressure spray pump 3 gal chrome coated include 2 rubber hoses & 2 guns.
- 5 Niagara hand duster spray gun
- 3 pumping systems, are shoulder type dusters.
- 400 pieces of $1\frac{1}{4}$ in. ^{diam.} 18 in long irrigation steel pipes.
- 10 pieces large size main ditch water shutters.

Small ditch water shutters, we made over 900 pieces but I am letting Mr. Scott use 200 pieces, so we wish to have the rest of all them.

One team horse spring harrow

Two Crab harrows, one is all steel made and the other has a wooden frame

all kind of double single and some other kind of trees.

one wooden wheelbarrow with side racks.

One all steel wheel barrow

One all steel pick up truck bed (Ford) left on the south side of new shed.

Extra team horse and single horse lines

2 large size manila hemp ropes have been used for hoist

1 one ton and a half ($1\frac{1}{2}$ ton) hoist, (chain)

4 steel bars 2 are round, 2 are square

4 pieces medium size chains 5 to 6 feet long use for connect to the implements
We have here ^{from} last time 3 long ones already

Wooden derrick. We have it all separate and send back from Gridly.

All small things in the new shed storage rooms Top & bottom
except empty crates, shooks, and anything else that is not so important.

all small implement parts - clamps, ditchers, knives, teeth, plow shears,

hoes, shovels, forks, post hole digger, chain wrench for use on large pipes,

baskets, Fire buckets about 8, use fertilizer buckets about 10; 2 ^{hand} loam planters

Screen for strain dirt (only good one) spray material Cases #10 & #20 ~~oil~~

some scrap iron when we want to repair the implement we need to

take some scrap iron to the black smith ^{out} there.

One barrel of D2 crank case oil, 1 barrel of S.A.E. 90 oil, 2 barrels of 55 gal. empty gas,

1) 15 gal. empty oil barrel, 1.5 gal can use for gas, fueling tractor & large funnel with

1 ^{in barrel} track roller grease if ~~none~~ left in the barrel, we do not need ^{on}

one special made, two rubber tires wheel compost spreader.

Mr. Scott
