Dear Mom and Pop,

We moved up yesterday to Lecco. It's right next to Lake Lecco. You may find it on the Map. We're about 35 mi up from Milan. We're camping by the lake and the town is about 4 blocks away. I just came back from swimming.

I got a package today from you. It was the mouthpiece. Thanks very much. It's just the kind I wanted. The band is still in Milan. We're going back to band in about one month (I hope). All we do here is loaf around. We were supposed to play for a dance tonight but it's too early to get started. You know how it is. Guys who don't know anything about music think we can play just any old time.

If I'm not doing anything tomorrow, I'm going hunting. There's high mountains all around us and it's a nice place to shoot. We're at the beginning of the Alps.

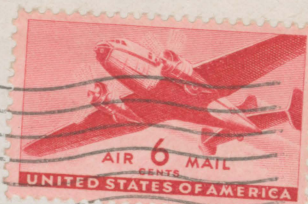

Well, this is about all for today so
more tomorrow
