Dear Mom and Pop,

Well, another day. I went to class this morning again. No classes this afternoon.

I'm going into Milano tomorrow. I don't have anything to do, the classes are coming along OK so I thought I'd take a day off. I asked the sergeant and he said it was OK so I'm going with Art.

I hope you liked the pictures I sent the other day. I'll try to send you something every now and then. I'm sure you got my bracelet by now. I hope so.

It's getting hotter every day now. Of course, I don't work so it's OK but I pity the guys that work.

My jeep was being repaired this morning so Major White brought me to and from classes. For a major, he's a nice guy.

I went swimming at Lake Kecco yesterday afternoon. We had a lot of fun.

I brought my watch to the shop the other day to get it cleaned. I'm going over and get it today.

How's things back home. Is Hana getting along a.k.?

I guess Kanji's son and the family is coming out pretty soon. I hope everything goes along all right.

If I see some thing nice I'll send Fuji & Hiro something. Boy, do you know anyone who wears 8 1/2 silk stockings. I got two pairs that John took from the Germans and gave them to me.

It's a dark shade and good stuff. I know it's too big for you but some one back home may be able to wear it.

Well, nose tomorrow
