Dear Mom and Pop,

Nothing much today. I did the usual thing.

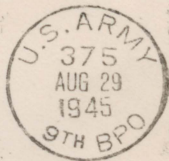

It's pretty hot these days. Most of the time I feel like sleeping. It's cool in the mornings but at noon the temperature goes up.

I have a cartoon here from today's GI Gank magazine that I thought was very funny because it's so true in Italy. In case you don't know, the last two pictures are supposed to be at a open latrine.

This is a font all for today so
more tomorrow
