Dear Mom and Pop,

Boy, I'm running around in circles. I have about three men's jobs all at once. You see, most of the high printers are going home so most of the low printers are taking their place. I'm working in the office, when the telephone operator is not here, I'm a phone operator and in the morning, I go after the newspapers. I got the captain's jeep and drive down to Leghorn around 5:30 AM so we can see the papers at breakfast.

Last night the captain told me he wasn't using the jeep so we drove down to Leghorn and saw a movie. I hope the captain always stays home at nights.

I might go to Florence this afternoon to see a foot ball game. I don't know yet. It's kind of cloudy today.

Packages and letters are late
because of Christmas. You ought to
see all the letters and packages
at the post office. It looks like a
mad house.

Well, I guess that's about all
for now so see tomorrow
dad
