Dec 10, 1945

Dear Mom and Pop,

I received your photograph this morning. You both look swell. Thanks very, very much. I had it developed with celluloid so it won't get dirty. It came out pretty good even though you said it didn't. Thanks again. Lately, I've been asking for a lot of things. I hope you're not rushing me too much.

Not much to do today. I caught up on all my work so I'm not busy (for awhile, anyway). The captain came back a few days ago so I can't wander around on his jeep too much unless on business.

We went to a movie in Leforn last night. Boy, was it cold coming back on the truck. I don't think I'll go out again at night until it gets warmer.

I should be getting my cop pretty soon. I hope I get it right away.

It must be nice to see your old friends back in San Francisco. Things should be more settled by the time I get back.

I heard that the 442nd is getting around 1,000 men for replacements pretty soon. I hope so. All the companies are short of men.

2

When are you going to see John Gatake? Say hello
to him for me when you do see him.

A couple of the boys and I are planning to
go down to Rome a day before Christmas so we
can see St Peters on Christmas eve. I hope we
can go.

I'm going over to see John this afternoon when I
go for the movie for tonight.

Well, that is about all for now - so
good tomorrow -

Jack
