Dear Mom and Pop,

Today's paper had a big write up about the 442d's history and about the third year of service. I'll send the clipping home to you.

No letters today so I'll just have to wait. I hope I get some soon. The plane service seems to be held up at moment.

We have three movies for tonight. They're all good pictures. I guess we'll have to sit through all night to see the whole picture.

I think we'll get paid on the 5th of this month. I should be able to save a little money now days.

I haven't very much to write about today, so I'll make this letter short.

More tomorrow with the latest dope,

Jack
