Dear Mom and Pop,

One of my hut mates came back from Switzerland today and he brought me a present. It's a alarm clock. He said I get up early every morning so I needed one. It's a very nice one. It's built very small and has luminous dials and a 4 jewel movement. He said that John Migezani was with him on the trip.

I have some more pictures taken up at Cortina.

Boy, we really had a wind storm this morning. The place is never dusty but today, it sure was this morning. Then it started to rain. It really was terrible. We're having very nice weather this afternoon, though.

We're going to the movie tonight. The night before last, we saw "Miss Suzie Slagis" with Sunny Tufts and Veronica Lake. Tonight is "They were Expendable" with Robert Montgomery.

This is about all for today so long as you are -
Dad
