PREAMBLE TO THE CONSTITUTION

Being fully aware that the conflict between capital and labor grows with intensity from time to time and tends to work disastrous results on the working millions unless we combine for mutual protection and benefit, and realizing fully that the struggle to better our working and living conditions is in vain unless we are united to protect ourselves against the organized forces of the employers and exploiters of labor, and

Knowing full well that the old craft and isolated local forms of trade union organizations are unable to defend effectively the interests and improve the conditions of the workers, THEREFORE, WE, THE WORKERS ENGAGED IN THE CANNING, AGRICULTURAL, PACKING AND ALLIED INDUSTRIES form an organization which unites all workers in our industry on an industrial and democratic basis, regardless of age, sex, nationality, race, creed, color or political and religious beliefs, and pursues at all times a policy of aggressive activity to improve our social and economic conditions.

We pledge ourselves to labor unitedly for the principles herein set forth, to perpetuate our union and work concertedly with the general labor movement to bring about a higher standard of living to all workers and small oppressed farmers.
