

SEA TRANSPORTATION FOR THE ARMED SERVICES

July 7, 1952

Dear Mother and Dad,

Very pleased to hear from you. I should've written you sooner but, trying to get reorganized and everything else besides Charlie works odd hours, it seems we never have time to do anything. Charlie is a M. P. here, he got a day-off today so we went to a Real Estate agent, you will be getting a list of property soon.

The reason why we decide to buy a house trailer is, we looked around for a apartment but couldn't find

any to suit us. We pay \$20.00 dollars for the rent here. The trailer cost \$1,800.00, it's not new either, but it's very clean, maybe that's what attracted my attention. The apartment we went to see was very dirty, and a cheap place was practically broken down. This way we don't have to buy furniture cause it has a refrigerator, hot and cold water hook-up. Bed in the bedroom, the dining room table and seat converts to a bed, also the living room couch turns into bed. So the

winter we have a kerosene store. I forgot to tell you we cook on a gas stove.

The other day we bought a television the table type.

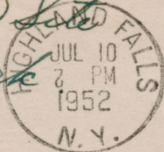

By the way thank you very much for forwarding our letter.

Next time you see Eleanor and her husband will you please thank them for the hospitality for us. Well I guess I will close now cause I got lots of letters to answer.

Love,
Charlie & Mita.
