COSTLY THIRST PARLORS UNLICENSED IN TACOMA

Many Blind Pigs Spring Up as Result of Differences Between Mayor and Council.

TACOMA, Friday, Sept. 13.—There are now fourteen saloons in this city running without a license, and prosecuting Attorney Rowland is threatening to close them all. Unless something is done soon Tacoma will have more costly thirst parlors in the "blind pig" class than any other three cities in the North-

west. The cause of the condition is the refusal of Mayor Wright to approve of any more bonds of saloons until John Malone, a prominent Democrat of the city, who for years has been running a saloon here, is given back his license, which was taken from him about two months ago because he kept his resort open on Sunday.

Theatrical People to Meet.
Theatrical Mechanical Association No. 62, Seattle Lodge, plans to hold an open meeting at the Star Theatre at 10:30 p. m. on Wednesday, September 25. Talent from all the local theatres will be in attendance.

U. S. NEED NEVER BE AFRAID OF MIKADO

Col. W. A. Glassford, After Completing Study of Strategic Positions Declares Pacific Coast Is Safe.

RECOMMENDS DEFENSES FOR HAWAIIAN HARBOR

Coming of Fleet to This Side Regarded as Necessary Move in View of Recent Developments in Occident.

SAN FRANCISCO, Friday, Sept. 13.—Lieut.-Col. W. A. Glassford, chief of the signal corps of the Department of California, has just made a close study of the strategic positions of the United States in Alaska and on the Hawaiian Islands and believes that Uncle Sam is fully prepared to cope with the Japanese situation in the event of hostilities. He regards the transfer of the fleet of battleships to the Pacific Coast as necessary to its protection. He says the improvement of Pearl Harbor would be made at once. He regards it as one of the most important strategic points in the Pacific.

Col. Glassford is not alarmed at the immigration of Japanese to Hawaii. He says in case of war the Japanese would drive the Japanese vessels from the Sandwich Islands and the Japanese would scatter to the interior. The more Japanese there are on the islands the easier the task would be, he said.

Col. Glassford does not believe the Pacific Coast would be at the mercy of Japanese if the latter attempted to land troops. He says the transportation of troops across the Pacific is a difficult task and could not be accomplished unless the sea was swept of enemies. The severest transcontinental lines afford ample accommodation for the transportation of troops. He regards Alaska as a country with a great future.

PHILIPPINES TURN AGAINST JAPANESE

TOKYO, Friday, Sept. 13.—Nagasaki correspondent to Tokyo newspapers alleged interviews with unnamed passengers from Manila, picture a rise in the anti-Japanese feeling in the Philippines. It is asserted that Japanese laborers in a manner that will give Japan unchecked scope for her expansion on the Pacific Coast. The Hochoi this evening Count Okuma contrasts the anti-Japanese disturbance at San Francisco with the Vancouver riot as a matter of fact. The latter occurrence must not be placed in the same category as the former. The San Francisco riot was an act of the rioters, while the municipal government of San Francisco was a state of anarchy prevailing. I liken the San Francisco riot to the Boxer out-

break. President Roosevelt's attitude at first was very fair and admirable, but after his conference with the Japanese from San Francisco a change came which sady disappointed us. The incident was quite different. It was an outrageous act, limited to laborers and unsupported by the local authorities. The rioters did their utmost to suppress the riot and protect our countrymen. They ever wanted us to give permission to our compatriots to take measures of self defense. The sincerity, so fully evinced of these really worthy local authorities of our allies in their efforts to protect our rights makes us confident that a satisfactory solution of the deplorable situation.

LABOR UNIONS WANT A WHITE VANCOUVER

VANCOUVER, B. C., Friday, Sept. 13.—The proposal of white cooks and waiters in Vancouver to strike for a White Vancouver has been unanimously endorsed by the union, and unless the proprietors comply with the requests of a union there will be a general strike this week. Although the city is comparatively quiet now, many Chinamen have returned to work, there is still grave apprehension that the scenes of the September 8 riot may be repeated. The return of a good many of the foreigners to their usual occupations, instead of pressing peacefully local, has the opposite effect. This is because of the marked spirit of defiance with which they have gone back to the factories and other places, because they feel they have a right to work, and they defy the whites to prevent them from doing so.

HAWAIIAN JAPANESE COMING TO VANCOUVER

HONOLULU, Friday, Sept. 13.—The Baronson-Hibbard steamship Indiana sailed from Honolulu for Vancouver September 8 with 300 Japanese laborers. The mission of the Indiana in taking away Japanese laborers is not looked on kindly by the plantation interests, and every obstacle is put in the way of its getting passengers of this type. The local papers scater of rumors that Indiana or her object in the general policy of undermanned opposition to her mission. The Japanese government seems also opposed to the migration of her people from the Hawaiian Islands. The consul here and at Vancouver have indignantly disseminated stories of difficulties encountered by the Japanese going from here, both in landing and getting employment afterward.

CONGRESSMAN THINKS FLEET'S TRANSFER UNWISE

WASHINGTON, Friday, Sept. 13.—The transfer of the fleet to the Pacific is unwise, and that it will be well to look out for both the German and the Japanese as the plan of a statement made by Representative John Weeks of Massachusetts, of the house committee on naval affairs. "I am in favor of maintaining a navy big enough to whip those countries which for commercial reasons or territorial ambitions may be compelled to fight. If the Germans and Japanese built battleships, I would build battleships. If they built torpedo boats, I would build torpedo boats. If war comes, Mr. Weeks holds, it will be a great danger of the countries. "It would be foolish for a person not fully informed about the relations between Japan and the United States, and

who does not have definite and up-to-date knowledge, to condemn the transfer of the fleet to the Pacific," said Mr. Weeks, in discussing this question in some details. "But, basing the opinion on the facts of the situation which has been made public, it seems to me to be an unwise expense and unadvisable from every standpoint. "I do not believe there is the least danger of war between Japan and the United States. The Japanese made peace with Russia because they were unable to finance the war any longer, and with money coming from throughout the world as they are it would be absolutely impossible for them to finance a war with any one of our nations. "But the way they will show their resentment will not be by declaring war, but by diverting trade which heretofore has been ours, which naturally belongs to us, to our commercial rivals. In other words, in my opinion we are almost certain to see a distinct and immediate falling off in our trade with Japan.

PRESIDENT TALKS OF HURRYING WARSHIPS

NEW YORK, Friday, Sept. 13.—While no official announcement will be made by Secretary Loeb, it was reported at the White House that President Taft had summoned Secretary of the Navy Metcalf to discuss a plan for starting the battleship fleet for the Pacific a month earlier than had been intended. The plan as first arranged called for the departure of the sixteen battleships in December. It is now thought the President has followed closely the Oriental immigration troubles on the Pacific Coast and under the pressure of the Vancouver riots pressure has been brought to bear to hasten the departure of the fleet.

REMARRIAGE QUICK IN HAWAII

F. M. Bechtel Weds Former Wife of Friend on Arriving in Honolulu, Just Three Days After the Separation.

The Hearst News Service—SAN FRANCISCO, Friday, Sept. 13.—Mistaken California seeking divorce and desirous of leading another mate to the altar or Justice Court without the compulsory delay that follows the granting of an interlocutory decree, will no longer be compelled to establish a residence in the bleak wilds of South Dakota or in any other un-California climate. The Territory of Hawaii offers all the inducements of South Dakota in the way of immediate and complete freedom after divorce, and where could time be better spent in establishing a late residence than in the paradises of the Pacific?

F. M. Bechtel, of the United States Immigration Service, who arrived yesterday on the liner Korea brought with him a bride who three days before the Korea left Honolulu was the wife of one of Honolulu's most prominent residents and has nothing but praise for the finished product in the way of decrees turned out by the Hawaiian courts. Mrs. Bechtel was the wife of E. R. Stackable, United States collector of customs at Honolulu. Bechtel was attached to the office for three years as immigration inspector and was a frequent visitor at the Stackable home. He left Honolulu to take the position of Chief Clerk at the Hawaiian Islands. After twelve months' work at Yokohama, he resigned from the Pacific Mail and returned to Honolulu as an immigration inspector. He left Yokohama on the Korea. When the liner reached the Stackables, had decided to dissolve partnership and that three days before the Korea left Honolulu Stackable had been granted a divorce. Before she had been ashore an hour, Bechtel had married Mrs. Stackable. When the Korea sailed, F. M. Bechtel and wife were among the passengers. The Stackables had decided to remain with Stackable in Honolulu. Bechtel expects to be assigned to duty at this port.

SKIN IS GRAFTED ON WOMAN'S EYELID

Surgeon Performs Remarkable Operation on Long Beach Resident, Ending Much Suffering.

LONG BEACH, Cal., Friday, Sept. 13.—That she might be enabled to close her right eye, a delicate and remarkable skin grafting operation was successfully performed on Mrs. Walter Floyd. She was seriously injured in a gasoline explosion a month ago, and the forehead drawing so tightly when the burns began to heal that there was no covering for the right eye. An eyelid was made and yesterday she was able to open and close it at will. Surgeons say it is the most successful case of the kind. The woman suffered agony, being unable to sleep without opiates. The surgeons cut small strips of skin from her forehead and grafted them into slits cut in remaining edges of the upper and lower eyelids. The victim's burned area also failed to heal properly. Eighteen square inches of skin were removed from Mrs. Floyd's body and grafted on her eyes. Her condition is entirely satisfactory and she is rapidly recovering.

RUSSIANS PERSECUTE HEBREWS AT KISHINEFF

Whole Families of Down-Trodden Race Flee to Frontier, Hoping to Enter Rumania.

VIENNA, Friday, Sept. 13.—According to reports received here, disturbances began at Kishineff, during the night of September 8. A band of roddies which arrived at Kishineff from Odessa were joined by a Kishineff mob and committed outrages in the suburbs. They set fire to a lumber yard, into which the Hebrews were driven. The police during the disturbance were utterly passive. Numerous families from Kishineff and Odessa, have fled to the frontier at Ungeni, and the villages along the border. The Rumanian authorities have issued the strictest orders to prevent their entry into Rumania.

Old Northwest Day. NORFOLK, Va., Friday, Sept. 13.—This was "Old Northwest Day" at the Jamestown Exposition, commemorating the 250th anniversary of the landing of 1787 by which the Northwest Territory was formed from the State of Virginia. A program designed to give an special interest to visitors from Ohio, Indiana, Michigan, Illinois and Wisconsin was carried out. Speeches, military and naval parades were features of the day.

The Ideal Undewear

FOR WOMEN AND GIRLS

Is the hand finished ribbed garment as made by the Merode and Globe factories, and which you will find here.

That they fit perfectly, that there's not an inch of unnecessary material, yet are elastic enough to yield to the motions of the body, is why they reach the height of comfort.

In these garments the buttonholes are extra well finished and will not stretch; buttons are so well sewed as to defy laundries; all bands are carefully adjusted and of the best of material; the shaping and sizes are the result of years of experience and study.

Another excellent feature is that these are just medium priced.

FOR GIRLS

White or blue grey, three-fourths wool, soft and warm; a fine rib, nicely finished. These, you know, do not shrink, 50c to \$1.25 a garment.

Union Suits of same, \$1.25 to \$1.90 a suit.

FOR WOMEN

About three-fourths wool, grey or white, nicely finished, smooth seams. \$1.00 a garment.

Union Suits, \$1.75 a suit.

A fine one with more wool, \$1.25 a garment.

Another, nearly all wool, white or grey, fine rib, but real warm. \$1.50 a garment.

A nice, soft silk and wool, white only. \$1.75 a garment.

Baillargeon's
