

CAREY ASKS FIRM STAND ON REDS

BOSTON, Sept. 22.—(AP)—The United Electrical, Radio & Machine Workers of America (C. I. O.) were called upon today to take a firm stand in the "outright rejection" of a resolution offered by James Carey, national secretary of the C. I. O.

Carey, leader of a faction opposed to the present union administration of President Albert J. Fitzgerald, told newsmen a fight may develop over the so-called "Communist issue."

His assertion came as 1,000 delegates representing more than 600,000 electrical workers, convened for the opening of the union's annual convention.

Fitzgerald, whose administration has been criticized by the Carey bloc as too leftist, told newsmen he would seek reelection and expressed confidence of winning easily. Thus far he is the only announced candidate.

Later, Henry A. Wallace told the convention the United States, even with its wealth and atom bombs "will never win a third world war."

"The war that is being bred for us must be stopped," Wallace declared. "The reactionary governments we are supporting abroad will crumble with internal revolutions if a great war breaks out between the United States and Russia."

Wallace called on President Truman to summon a special session of Congress immediately to "enact into law a rationing and price-control bill with teeth in it."

WALKOUT SPREADS—NEW YORK, Sept. 22.—(UP)—The walk-out of Railway Express Agency workers spread to New Jersey today when 2,100 members of Local 489, Teamsters Union (A. F. of L.) quit work, raising to 7,100 the number of employes on strike.

CURRAN TAKES OFFENSIVE—NEW YORK, Sept. 22.—(AP)—Joseph Curran, his career as president of the National Maritime Union (C. I. O.), at stake because of his battle against what he termed Communist influence in the union, took the offensive against his opponents as he opened the organization's sixth convention today.

Curran, appealing to the 800 delegates to support him, said: "I think we can admit there is a lack of unity in our union . . . because our people do not take their direction from the rank and file. This convention must correct that and see that all our officers take their orders from the rank and file."

YARD STRIKE ENDS—MANITOWOC, Wis., Sept. 22.—(AP)—The month-long strike of eight unions at the Manitowoc Shipbuilding Company and its affiliate, the Manitowoc Equipment Works, ended today with a joint announcement by company and American Federation of Labor union officials that an agreement had been reached. Terms of the settlement were not announced.

DOOR-PLANT UNION RETURNS—TACOMA, Sept. 22.—(AP)—A settlement has been placed with one of four Tacoma door-planting firms, ending a strike more than a month and the 640 employes will return tomorrow, it was announced today by Kenneth Gordon, Lumber & Sawmill Workers (A. F. of L.) business agent, included in a settlement with the Buffelen Furniture Manufacturers' Association, was elimination of piece work and a flat hourly pay of \$1.75.

FLOUR-MILL STRIKE SETTLED—ASTORIA, Or., Sept. 22.—(AP)—The Pillsbury Flour mill strike ended today, after the International Longshoremen & Warehousemen's Union (C. I. O.) was granted a 7-cent hourly increase, union recognition and a promise to consider another increase. The 150 employes walked out August 14.

Bellevue Sewer Hearing Delayed

At the request of the county engineer's office and the County Health Department, the Board of King County Commissioners today postponed until October 6 a final hearing on the proposed Bellevue sewer district.

The commissioners have indicated that outlying areas opposed to a sewer assessment at this time probably will not be included in the proposed district.

A final hearing on the proposed King County Hospital Sewer District No. 1, which includes most of Renton and several nearby precincts, has been set for October 20, the commissioners announced.

Angel Falls; He Forgot First Step

JOHN P. ANGEL Recovering today

John P. Angel, 51 years old, former King County purchasing agent, was in fair condition in Providence Hospital today recovering from head injuries received in an eight-foot fall yesterday.

The accident occurred when Angel stepped from his automobile on a hoist at a service station at Broadway North and East Roy Street.

Angel said he had driven on the hoist and had bent over to wipe the dashboard and did not feel the auto being raised. His head struck the pavement in the fall.

Angel was given emergency treatment for scalp lacerations and a concussion at Harborview County Hospital and later was transferred to Providence. He lives at 2221 Broadway N.

WHY GROW OLD?

Stimulation of Skin Is Aid To Youthfulness, Beauty Many Women Miss

By JOSEPHINE LOWMAN

For some time now, instead of giving themselves a pat on the back, women have been giving themselves several pats on the face and neck. We long have known that the ABC's of beauty care are cleansing, lubricating and stimulating. Most modern women are careful about the first two but many who could profit by stimulation by-pass this aid to youthfulness and beauty.

Of course, when you indulge in general exercises the blood pounds in your face. Facial exercises also stimulate. There are circulation creams which whip up circulation and the habit of lying upside down is a current favorite method.

Before the war there was quite a vogue for the little paters which were used to stimulate circulation. If you do not have one of these you can use your fingertips. When using either of these methods great care should be exerted. The patting should be gentle except along the jaw line, where you can give yourself a moderate beating.

Many of today's startlingly youthful-looking, middle-aged women have indulged in facial exercises for years. These muscles require toning just as the muscles of the body do.

If you wish to have my routine of facial exercises send a stamped, self-addressed envelope with your request for leaflet No. 9, "Facial Exercises" to Josephine Lowman in care of The Seattle Times.

Robber's 'Victim' Runs, So Does He

Police today sought a robber who was thwarted in an attempt to hold up the Alaskan Hotel, 2005 1/2 Second Ave., at 12:30 o'clock this morning.

The robber entered the hotel and threatened the landlady, Mrs. Fusae Ikubuchi, 56 years old, with an automatic pistol and ordered her to give him the money from the cash register.

Mrs. Ikubuchi ignored the robber's demands and ran into her living quarters. The robber fled.

Seattle's Future to Be Talked

Capt. Carl J. Nordstrom, naval architect, will discuss future Seattle development at the meeting of the Loyal Knights of the Round Table at the Washington Athletic Club, Wednesday noon.

FIRMER FOREIGN POLICY URGED

CLEVELAND, Sept. 22.—(AP)—President Carl B. Rix called on the 40,000 members of the American Bar Association today to rally behind a "firm, determined foreign policy" which will support democratic governments of the world and condemn aggression.

Addressing the opening assembly of the association's 70th annual meeting here, the Milwaukee attorney declared that "Soviet policy is founded on principles of world revolution by any and all means of aggression."

"A dozen dictators of a revolutionary party of 5,000,000 of a country of 200,000,000," he said, "stand alone with a few weak satellites between all the other nations of the world and peace for a thousand years."

To preserve the democratic freedoms and the concept of "government within the law and not above the law," the Milwaukee man declared, will require vigorous effort by lawyers to foster honesty and democracy in local and federal governments. This aim, he said, prompted creation of a new "committee on participation by lawyers as citizens in public affairs."

A communication from the King County hospital system requesting that \$5,000 be included in that department's budget for next year to pay for architects' fees in the hospital system's expansion program that was defeated at the last election, was ordered placed in the commissioner's budget file for later discussion.

Two architectural firms each have submitted bills of \$2,500 to the hospital system for preparing the plans for enlarging Harborview county hospital and other proposed expansions that subsequently were defeated by voters.

HANFORD SAFETY, HEALTH STUDIED

Industrial-health and safety measures in the Hanford atomic materials plant near Richland, Benton County, were being surveyed today by members of the safety and industrial-health advisory board of the Atomic Energy Commission, the Associated Press reported.

The group, headed by Sidney J. Williams of Evanston, Ill., is to study "general and special hazards of operations" from the standpoint of health, accident and fire.

Hanford officials said industrial-accident rates in the big atomic energy projects are 60 per cent under the national average, and that fire losses are an estimated 90 per cent lower than the national average.

Autoists With Trailers Get Speed Caution

Officials of the Automobile Club of Washington today reminded motorists that passenger cars pulling one-wheeled luggage carriers or other small private trailers are not permitted to exceed a 40-mile-an-hour speed limit under provisions of the state law amended by the 1947 Legislature.

"Because many motorists are unaware that luggage carriers, small trailers and similar lightweight pulls are included within the interpretation of the 'combination-of-vehicles' law, the club is giving wide publicity to the fact that the law is being enforced strictly," a club official said.

Mariner Is Found Hanged in Home

Max Pierson, 55-year-old marine fireman, committed suicide in his home at 15435 Military Road at 3 o'clock yesterday afternoon, the coroner's office reported today.

Pierson was found hanging from the rafters in the chicken house behind his home by his wife, Belle. An employee of the Alaska Steamship Company, Pierson had returned from a voyage a few days ago, his widow said.

The Columbia funeral home was making funeral arrangements.

4 Sought in Robbery

Four men who assaulted John A. Leland, 708 University St., at Eighth Avenue and Pike Street yesterday and escaped with \$10 were sought by police today. Leland said the men were wearing United States Navy uniforms.

Blood Donors Aid Girl

PORTLAND, Or., Sept. 22.—(AP)—Aurelia Moward, Boise, Idaho girl brought here for treatment of several blood diseases, was reported "holding her own" today. A public appeal for blood donors brought enough to carry the girl through this week, but hospital attendants said more donors would be needed next week. She needs two or three transfusions a day.

JUVENILE COURT FUND HEARING

A hearing on Superior Judge William G. Long's request for a \$16,335.09 emergency appropriation for Juvenile Court operation for the remainder of 1947 will be held October 6, the Board of King County Commissioners announced today.

A proposal that the King County Airport at Boeing Field operate under a separate budget and that all airport revenues be used for airport improvements rather than deposited in the general fund, will be discussed at next Monday's board meeting, the commissioners said.

Two other requests for emergency appropriations were referred to the prosecuting attorney for legal opinion. They include County Assessor Ralph S. Stacy's request for \$10,000 for operation and maintenance of that department, and \$2,000 requested by the county-city building superintendent for installation of a gasoline storage tank in the County-City Building basement.

Divided Church Weak

Dr. Jones also spoke before an overflow audience of interested persons in the evening, stressing that "the churches are beginning to realize that a divided church in a divided world lacks moral authority. Once again the churches are about to show themselves capable of change so that they can help change the world."

Dr. Jones is presenting five possible plans of union, but is stressing "Federal Union," which visualizes a church in America "The Church of Christ in America." Under one church there would be branches, the Lutheran, Baptist, Episcopal, Nazarene and others. In these branches there would be local self-government.

"If any branch wanted bishops or adult baptism by immersion it could have it," Dr. Jones explained, "but it wouldn't compel the rest of the branches to take it as the price of union. Over these branches there would be a general assembly made up of representatives of all the branches, which would be the sovereign body. Under the general assembly there would be state, county and city assemblies. In the county and city assemblies, the question of overlapping, duplication and competition would be dealt with."

Disputed State Council Now Up to Court

OLYMPIA, Sept. 22.—(UP)—The future of the Republican-created State Legislative Council was in the hands of the State Supreme Court today after arguments over the broadest powers ever granted to a legislative interim group in the state.

The 947 act creating the council of 2 legislators—11 Republicans and 10 Democrats—gave the Council powers to investigate all phases of Gov. Mon C. Wallgren's Democratic administration. Emphasis was placed on determining how state funds are being spent.

The case came before the court after Auditor Cliff Yelle, a Democrat, refused to honor expense vouchers submitted by the chairman of the Council, House Speaker Herbert Hamblen, Republican, Spokane.

For J. Elvidge, attorney for Hamblen, told the court today the Council was no different than any other interim committee, and that instead of maintaining "a committee for this and a committee for that," the Council could carry on all interim committee duties.

Assistant Attorney General Smith Moore P. Meyers, attorney for Yelle, replied that the Council was "a roving, inquisitory group without guidance, without limits," which was "not desirable" to loose upon the state administration. He said membership of legislators upon the Council constituted a civil office which was unconstitutional.

Senator Victor Zednick, Republican, Seattle, president pro tem of the Legislature, said later he believed the "real reason" behind Yelle's opposition involved the Council's power to audit state records.

Quigley to Discuss Phoney Contractors

J. Edmund Quigley, deputy King County prosecutor, will discuss the work of his office in connection with "fly-by-night" contractors at the luncheon meeting of the Seattle Construction Council at the New Washington Hotel tomorrow.

The meeting, designated "General Contractor Day," will honor the Seattle Chapter of the Associated General Contractors, E. B. Hickok, manager, said.

Youth, Held in Crash, Suicide

CHICAGO, Sept. 22.—(UP)—Junior Earl Simons, 21 years old, of Beloit, Wis., was found hanged in a cell yesterday after his arrest in connection with an automobile mishap.

Church Union Favored By Divines Here

That Seattle church leaders, along with 90 per cent of those across the country, are ready for a church union, was indicated informally yesterday, when the Rev. Dr. E. Stanley Jones of Baltimore, Methodist minister who is speaking in 30 major cities on the idea for a union of all the Protestant churches of America, was addressing an audience of 400 ministers and church leaders at the First Methodist Church.

During the session a Seattle minister asked that a poll be taken of those in favor of church union. Nearly all of the 400 ministers and church officials rose to their feet in approval.

Every effort will be made to have the Weather Bureau's new tri-state forecasting center here in operation by November 1, J. C. Smith, regional director for the bureau, said today.

The new center will be associated with the airway forecast center at Boeing Field. When finally set up, it will prepare all general forecasts for Washington, Oregon and Idaho, as well as marine forecasts and storm warnings for the North Pacific Coast and Puget Sound. These weather advisories now are being handled from San Francisco.

F. W. Reichelderfer, Weather Bureau chief in Washington, D. C., said yesterday that selection of forecasters for the new Seattle center has been "delayed by the scarcity of persons with adequate training," the Associated Press reported.

Japanese Woman Attempts Suicide

Mrs. Nao Akatsu, 61-year-old Japanese, was in serious condition in Harborview County Hospital today after she slashed herself in the abdomen in a suicide attempt in her home, 619 Weller St., at 11:30 o'clock yesterday forenoon.

Police said Mrs. Akatsu had been dependent over ill health. Officers J. W. Murray and W. W. Weedon rushed the woman to the hospital after finding her unconscious. An emergency operation was performed.

Although it is the oldest continent geologically, Australia was the last to be occupied by white men.

IF YOU CAN FEEL THE BEAT OF MUSIC I CAN MAKE YOU A Beautiful Dancer

You'll dance after your very first hour—the famous Arthur Murray way

You step out and dance with your teacher-partner to music in your very first lesson at Arthur Murray's. That's the magic of his famous Magic Step Method.

You pick up the new steps with lightning speed . . . develop a quick ear for the new rhythms . . . acquire grace and balance. Your dancing has style . . . Why, you'll be a beautiful dancer all your days after a few happy hours with an Arthur Murray expert!

Try a lesson today. See how much you can learn in 30 minutes when you place yourself in the hands of an Arthur Murray expert. Come in today—phone Eliot 0260 in Seattle or Broadway 6303 in Tacoma.

HOW TO SELECT A DANCING SCHOOL

Anyone can operate a dance studio. No examination, no license is required. Even a person who knows nothing about dancing—or teaching—can hang out his shingle and profess to teach dancing "a new way." So be careful—ask these questions:

1. Who is the actual owner of the school? What experience does he have in teaching dancing?
2. Will you learn simple, easy steps that you can do on a crowded floor?
3. Will you learn the fundamentals of good dancing—or waste your money learning novelty routines?
