### GIRL SHOTS HERSELF, CONCEALS HER IDENTITY

No Clew to Name of Fashionably Gowned Young Woman Who Fires Bullet Into Breast in Crowded Hotel Astor.

PERSISTS IN REFUSING TO ANSWER QUESTIONS

Walks Into Woman's Room, Puts Bullet in Breast—Condition Serious, She Silently Faces Death.

NEW YORK, Tuesday, Aug. 30.—While surgeons in the Hospital were making every effort today to save the life of a fashionably attired young woman who shot and seriously wounded herself in the crowded Hotel Astor late last night, the attempts of the authorities to obtain a clue to the woman's identity were unrewarded.

She still persisted in refusing to answer questions. Whenever an effort was made to get her to say who she was she would bite her lips and shake her head negatively.

Surgeons today said the young woman's condition was serious and that an operation would be necessary during the day.

She walked into the hotel shortly before midnight last night, seated herself in the woman's room and a moment later shot herself in the breast. She was conscious when taken to the hospital.

"I did it myself," was all she would say, steadfastly refusing to tell who she was or where she lived. She is about 25 years of age, medium height and light complexion, wore no jewelry and had only a small amount of money.

In a note found in her hand bag she would-be suicide stated that she had decided to obtain a clue to her identity to the struggle for existence and possible starvation.

### "YELLOW PERIL" ENTERS CHICAGO SCHOOL ROOMS

Division of Opinion Among Board Members on Question of Admitting Adult Celebrities.

CHICAGO, Tuesday, Aug. 30.—The "yellow peril" in the public schools, which subject agitated California and other sections of the nation two years ago, and the general proposition of trying the Chicago public schools open to adult alien students, came up at a meeting of the school management committee of the Chicago board of education yesterday.

The question arose on the application of Yim Chan, 23 years old, a Chinese, and one Yamaguchi, a Japanese, for admission to one of the high schools. The issue came up in open session, but immediately was laid over for action in executive session. But a half hour's discussion brought no decision and the question will be put up to the entire board of education tomorrow.

"I talked the matter over thoroughly, but arrived at no decision," said Theodore W. Robinson, chairman of the committee. "It is a grave question. If we decide to admit alien adults to our schools, I am not in favor of any discrimination. The Chinese and Japanese have as much right to be admitted as the Bohemians, Russians, and the Italians. It is up to the board to decide the whole general question."

"I think we might admit adult aliens, but only on mechanical and driving courses," said Alfred R. Upton, of the board. "For instance, we might ask of candidates of this class certain credentials and qualifications."

SEATTLE: AUTOMOBILE SCHOOL, the mechanical and driving courses, 210 Broadway, near Yesler.

### Hose for School Children

How to secure satisfactory Hose for children is an ever present problem. We have made it a close study, and have a brand of Hose made especially for us and labeled with our name—"RHODESIA." Were they not good—much better than the average—we could not afford to place our name on them. Try a few pairs of them, now that school is about to open. These Hose wear and are exceedingly good to look upon.

NEW FALL MILLINERY DISPLAY IN REAR

### EDISON AYED TO WAR UPON JERSEY SONGBIRD

Great Inver Not Bothered by Mosquito, He Is Little Too Deaf to Hear Pest Hum.

ORANGE, N. J., Tuesday, Aug. 30.—Several residents of Northern New Jersey have said that Thomas A. Edison's petition urging to turn his inventive genius against the Jersey mosquito, the ravages of which, they say, this summer have been the most serious in many years. "I am ever bothered by the mosquitoes," Mr. Edison told some of his

neighbors when the subject was brought up. "You see I am just deaf enough so that I can't hear them coming. I think their hum must be worse than their bite, for everybody grows when ever a mosquito hums."

**MISSIS MILE FALL**  
CALUMET, Mich., Tuesday, Aug. 30.—One of the most remarkable escapes from death in the annals of the Lake Superior copper industry occurred yesterday at the Red Jacket shaft of the Calumet and Hecla mine, when Mike Sunrich, a timberman, in stepping from the repair cage to the main cage fell into the shaft. He fell 150 feet before he grasped the rope attached to the skip, saving himself from a fall of a mile to

the bottom of the shaft. His hands were badly burned on the wire rope, but otherwise he was unhurt. Sunrich was dangling from the cable when rescued.

**POLITICAL FIGHT**  
COLUMBIA, S. C., Tuesday, Aug. 30.—Six aspirants are contesting for the governorship in the Democratic primary for the choice of state officers, members of the Legislature, the judiciary, representatives in Congress and county officials. The candidates for governor are C. C. Featherstone, Thomas G. McLeod, Cole L. Blease, John T. Duncan, H. Bryant and John G. Richards, Jr. Statewide prohibition versus local option forms the leading issue in the gubernatorial race.

### FORESTRY AND LAND AGENTS IN AGREEMENT

General Land Office Gets All Responsibility for Patenting of Public Lands.

PORTLAND, Ore., Tuesday, Aug. 30.—At a meeting in Portland yesterday between officers of the field service of the general land office and officers of the forestry service, an agreement was reached which gives to the general land office all responsibility for the patenting of lands on the public domain.

T. M. Sheridan, chief of the field service of the general land office, for the

Secretary of the Interior Ballinger and Secretary of Agriculture Wilson, respecting the rights of the two branches of the service, and in effect carries out the intent of the law of February 11, 1905.

The agreement provides that forest service officers shall report upon all locations made upon forest lands for any purpose and after the reports have been sent to Washington they shall be returned through the secretary of the interior to the chiefs of field divisions for the various districts. After the examination of the reports, the field division officer may confirm the report, or he may order a new examination if there is anything about the papers which excites his suspicion.

T. M. Sheridan, chief of the field service of the general land office, for the

United States, left for Seattle last night to join Secretary of the Interior Ballinger, and will later go to San Francisco, Ogden, Denver and Phoenix, where similar agreements will be reached.

**FARMERS PROSPEROUS**  
ANACORTES, Tuesday, Aug. 30.—Reports received from farmers and ranchers on La Conner, Swinomish and Samish flats give the number of bushels of oats for this year at about 1,600,000 and hay about 50,000 tons. It is estimated that the dairying interests of the county have practically doubled within two years.

GO TO SPINNINGS for Bicycle and other repairs and good mechanics tools.

NAME THIS TOWN AND GET \$500

A NEW town is to be started. It is practically a part of Seattle—only thirty-five minutes from Pioneer Square.

This town will have what Seattle needs—**FACTORIES**. It will give Seattle what she needs—a Payroll.

Four factories, having an aggregate capital of six hundred thousand dollars, will begin their plants this week. Other factories will begin building immediately.

Factories are locating here because they are given inducements. Free sites, free switching and side trackage, and freedom from municipal taxes for five years.

It is a city in Seattle; yet not a part of Seattle. It is the manufacturing section of Seattle; yet it is better than Seattle. It is an industrial city—a city where factories can have every advantage of the markets and shipping facilities without the restraint of the prohibition tax rates and real estate values of the very large city and where the workingman and his family can have all the advantages of the amusements, the educational institutions and the attractions of the city, and yet live the healthy life of the man who owns his own home in a town where merchants do not pay high rents and have to charge city prices for the necessities of life.

In short, it will be an Ideal Manufacturing City—of Seattle, but not in the city limits.

This Big Movement is Seattle's response to the demand for factories. It is Seattle's solution of the manufacturing question. It is the *Seattle Spirit* manifested in a larger, better way than ever before.

It is therefore your city, our city, every citizen's city, in true Seattle fashion.

Every one will help. In true Northwestern enterprise every citizen of the state will be interested. This is true even to naming the city. This honor will fall to

some citizen of the Northwest—not Seattle only—for the Seattle Spirit is but the more concrete expression of the spirit of the Northwest—the spirit which gets what it requires. The name will be chosen by competition in the manner following, and the person, man, woman or child who proposes the name selected by the judges will be given a \$500.00 improved city lot for the suggestion.

First—The name chosen must indicate an industrial or a factory city.

Second—The name must be short, easy to pronounce and to remember.

Third—The names of any city in the state or the prominent cities of the United States will not be accepted.

Fourth—Suggest the name, write it plainly, with your name and address, and mail it to the Sales Manager of the Appleton Company, Inc., ground floor White Building, Seattle, Washington.

Fifth—All proposed names must reach the office not later than next Thursday, September first, 5:30 p. m.

The following well-known citizens of Seattle have agreed to act as judges in this contest: H. C. Gill, Mayor of the City of Seattle; H. O. Shuey, Bank President; E. L. Skeel, Attorney and Secretary of Rotary Club; Geo. Matzen, President Matzen Mfg. Co. and Vice-President Seattle Commercial Club; Wm. M. Calhoun, Chairman Manufacturers' Committee of Seattle Chamber of Commerce.

This is your contest—it is everybody's contest. Do your part. If you have a good name, help your city and your state by sending it in at once. There are but two days remaining in which to do this. You will know who gets the prize on Sunday.

The proposer of the name chosen by the judges will be given his prize, consisting of a \$500.00-improved lot in the new city, AT ONCE.
