MAY 22 NAMED GOOD ROADS DAY

GREAT WORK DONE BY LOCAL WOMEN

Governor Ernest Lister Selects Date for Boosters to Get Busy and Improve Highways of Washington.

Three Hundred and Thirty-Two Children Treated at Orthopedic Hospital During Year Just Closed.

EXECUTIVE WILL NOT WEAR HIS OVERALLS

DENTAL STAFF ADDED TO WORKING FORCE

OLYMPIA, Saturday, May 2.—Good Roads Day will be celebrated throughout the state of Washington Friday, May 22, under the terms of an official proclamation issued today by Gov. Ernest Lister.

Three hundred and thirty-two children were accepted by the Children's Orthopedic Hospital during the fiscal year just closed. Sixty per cent of the treatment given was to destitute children; 46 per cent of the patients regu-

To insure a statewide celebration, printed copies of the proclamation with a request that all get together to boost the good roads movement, are being mailed by the governor to over 600 organizations, including all fraternal, chambers of commerce and commercial clubs, automobile clubs, labor and farmers unions.

During the seven years of the hospital, 12,413 days of care and treatment were given; a grand total of 1,000 cases have been treated and this number 851 have been accepted. New members who will contribute dues to the philanthropic work; more free beds and widespread support that the high standard set by the institution may not be lowered.

Governor Lister, who was a practical road builder long before he became governor, invited newspaper correspondents to come with him on Good Roads Day and help put local highways in shape.

Requests of the estimated aggregate value of \$48,500, out of which \$47,000 has been received up to the present, were set forth in the report. The total cost of maintenance and operation for the year was said to be \$15,702.83 and the total receipts \$17,828.16, each day's cost for each patient being \$1.23.

Don't say I will wear overalls (though), he said. I notice Governor West of Oregon did that but he will have to tell him, when I see him next, that he got off wrong. It isn't necessary to wear overalls to do road work; most of the road builders simply wear their old clothes. Shop workers and machinists wear overalls, not road builders.

Numerous announcements were announced by the president of the association, Mrs. W. A. Peters. Among them was the addition of a dental staff, consisting of leading dentists who, like the surgical staff, will give their services to the hospital in connection with the dental department.

CAPTAIN BOUND OVER
Capt. William Lauric, of the steamer H. C. Henry, who was arrested on a charge of permitting an alien to intrude to his keeping for deportation in the United States, was given a hearing yesterday afternoon before United States Commissioner J. C. Whitbeck and bound over in the sum of \$1,000 to await the action of the federal grand jury.

Another innovation will be the opening of school in the hospital, where two daily sessions, one on the third floor in the morning and one in the afternoon on the second floor, will be held. The opening of the school will be held on Monday night, according to the president of the association, Mrs. W. A. Peters.

Alveolar Teeth
Eliminates Plagues and Bridge-work.
(This is a fair sample of the real article.)
The public is beginning to demand restorations that are esthetic. Teeth made by the modern art, they must look like teeth.

TO RESIST INVASION OF JAPANESE GROCERS
Retailers of Seattle to Meet on Monday and Discuss Campaign Against Orientals.
Initial action pertaining to a vigorous campaign of resistance to the encroachments of Japanese into the retail grocery trade in Seattle will be taken at a meeting of the Seattle Retail Grocers' Association which is to be held on Monday night, according to the president of the association, George Meredith.

Alveolar Teeth Where Bridge-work is Impossible.
For instance, you may have only one, three or four teeth or good roots left—one or more on each side—or you have lost two or more back teeth on one or both sides. We can supply all that are missing with perfect Alveolar Teeth that will be beautiful, serviceable, comfortable and life-preserving. And where bridge-work is possible there is no comparison between the two.

FINE ARTS SOCIETY HAS BUTLER PICTURE EXHIBIT
Works of Painters Are Being Shown in Upper Lobby of Seattle Public Library.
The pictures of John Butler, which have been on exhibition at the rooms of the Seattle Fine Arts Society, are now being shown at the public library. They consist of oil and water color paintings, in oils and in water color. The decorative paintings have a unique quality and show an unusual color sense.

Alveolar Teeth Where Bridge-work is Impossible.
Remember, that in addition to our specialty, Alveolar dentistry and treating Pyorrhea (loose teeth), we are experts in every branch of dentistry from the simple filling up, to examination free. We have been established nine years. Can furnish an army of the best of references.

CAPTAIN CADWELL DIES
Capt. Charles C. Cadwell, late master of the Sound steamship "C. Reed" died at his home in Mount Vernon Wednesday evening, after a lingering illness. Captain Cadwell was 33 years old and had followed the sea from his early boyhood. He is survived by his widow, father and mother, seven brothers and four sisters.

Alveolar Teeth Where Bridge-work is Impossible.
We are cutting the price of bridge-work for a good and sufficient reason. But we are not cutting the quality. And when we tell you that we will do for you as good or better bridge-work than any other dentist whose work will compare favorably with ours, at half his price, we are not boasting. We mean that it is the truth. Therefore, if you cannot have Alveolar work, on account of the cost, it will most assuredly be to your financial and physical, as well as vanity, interest to do business with us for bridge-work, plates, crowns, etc.

Opinions grounded on prejudice are always sustained with the greatest violence.—Jeffrey.

FELICITATIONS SENT WHITE HOUSE BRIDE

Local Bourbons Also Extend Congratulations to McAdoo on Approaching Marriage to Miss Wilson.

HARDENED BACHELOR DRAFTS RESOLUTION

Maurice D. Leehey and Will H. Parry Discuss Alaska Legislation at Meeting of Democratic Club.

By M. M. MATTISON.
Resolutions felicitating Secretary of the Treasury William Gibbs McAdoo and Miss Eleanor Randolph Wilson, daughter of the President, upon their approaching marriage and expressing a hope for a happy union, were adopted yesterday by the King County Democratic Club.
Neither the secretary of the treasury nor his bride-to-be probably ever will know it, but the felicitations and the enthusiastic comment on marital bliss were offered by a hardened bald-headed bachelor of something like fifty-three years of freedom.
Col. J. M. Hlawthorne, former president of the county organization and prospective candidate for Congress from the First District, proposed that the club's best wishes be sent to the next White House bridal couple. His resolution, unanimously adopted, referred to Mr. McAdoo as "that friend of Alaska and Seattle" and to Miss Wilson as "the beautiful, accomplished and charming daughter of our beloved President."
Maurice D. Leehey, who has campaigned in Washington during several sessions of Alaska legislation, spoke before the county club on the Alaska railroad bill. He declared that the right was made to change the Alaska railroad into a workable leasing bill, affecting Alaska coal lands, was passed. Mr. Leehey said that the most approachable members of Congress were sent from the Southern States, which took a pride in sending to Washington their

OLYMPIA SEEKING FRIENDS AT HOME

State Capital Departs From Usual System of Advertising in East and Seeks Investors in State.

PICKS SUNDAY TIMES AS PROPER MEDIUM

Prides Itself Upon Being Now What Seattle Was Before Alaska Opportunity Gave Seaport Advantage.

Unique in that it is believed to be the first attempt of the kind ever made by any community in the history of the country, a persistent and strenuous advertising campaign today was inaugurated by the city of Olympia, the state capital, and its chamber of commerce, through the medium of a metropolitan newspaper. Instead of proclaiming its advantages and prospects in Eastern periodicals, the city will endeavor to reach the public within a radius of sixty miles of its limits to call attention to the splendid opportunities it offers. The Seattle Sunday Times was naturally selected as the best medium in which to accomplish this purpose.
Emery C. Williamson, prominent real estate and investment man of Olympia, and H. L. Whiting, secretary of the Olympia Chamber of Commerce, came to Seattle yesterday and completed arrangements for the use of display space in the Sunday Times with the avowed object of setting forth the exceptional advantages at present open to investors in that city.
"One fact that makes this possible is that Olympia is the only town in the state which will triple its railroads in one year. The Chicago, Milwaukee & St. Paul is now within ten miles and the Oregon-Washington Railroad & Navigation Co. is coming in."
"Improvements estimated at \$50,000 are going on there at this time. Building permits for the year so far surpass the total for the entire years of 1913. New factories, a new Carnegie library, new federal building and a new North-

A String Of Beauties!

The angler who fishes the waters along the line of the
"MILWAUKEE"
AND
Tacoma Eastern Railroad
Has the opportunity to make a good catch. SPECIAL WEEK-END FARES GOOD FROM SATURDAY UNTIL MONDAY
The "Fisherman's Special" for points along the "Milwaukee" leaves Seattle at 8:00 a. m. every day; for Tacoma Eastern points at 7:20 a. m. every day.
For fares or other information phone Elliott 4812 or call at City Ticket Office, Second and Cherry, or Depot Ticket Office, Fourth and Jackson Street, Seattle.

ern Pacific subway are all included in present improvements.
Tacoma Eastern has a population of only about 10,000 at the present time, this will increase rapidly, it is believed. Its bank deposits aggregate annually more than \$2,000,000, showing it to be a wealthy city. Property values are very high and investors have an excellent chance to get in.
Many Wait for Chance.
"Olympia is in a position to get quick growth incidental to new railroad construction and our idea is that there are a great many people in the Northwest who are waiting for the big boom days to come back. We hope to get them to devote part of their time to a consideration of Olympia. We believe they can make money there and we hope to persuade them at least to investigate."
"One fact that makes this possible is that Olympia is the only town in the state which will triple its railroads in one year. The Chicago, Milwaukee & St. Paul is now within ten miles and the Oregon-Washington Railroad & Navigation Co. is coming in."
"Improvements estimated at \$50,000 are going on there at this time. Building permits for the year so far surpass the total for the entire years of 1913. New factories, a new Carnegie library, new federal building and a new North-

JANS HEIRS TO MEET
Heirs of the Anne Jans estate, said to be worth several million dollars and to include property in the heart of Manhattan Island, will hold their final meeting in this city Tuesday evening at the home of L. K. Meeker, 4023 Woodland Park Avenue. The meeting place can be reached by the Green Lake car. Arrangements for the presence of several heirs at a hearing soon to be held in New York City involving the property will be discussed.
New Embroidery Hoops.
New embroidery hoops are adjustable to any thickness of fabric, as the outer hoop is cut and provided with a thumb screw to change its length.

Last of the BANKRUPT STARR-MACPHERSON DEPARTMENT STOCK

1420-1422 THIRD AVE. NEAR CORNER PIKEST.
