LEARY BUILDING

GEORGE W. ALLEN IS AGAIN HEAD OF ARCTIC CLUB

Officers Who Made Deal for New Building Will Have Charge of Construction Work Next Year.

WITH a view to having their new building constructed under the supervision of the officers who made the deal for it, the Arctic Club last night re-elected George W. Allen president and George W. Robinson secretary and at the same time added two of the members of the permanent committee to the list of officers. The other officers elected last night are H. G. Stevenson, second vice-president; William M. Calhoun, treasurer; and George A. Sample and W. Branch, trustees. The holdover trustees are William F. Richardson and J. C. Zellerbach.

The election last night is an endorsement of the plan formulated by the board of trustees the previous year, which is to be the new Arctic Building, which is to occupy the present site of the club's headquarters. The cost of approximately \$500,000, is completed. The committee which, with President Allen, conducted the negotiations for the new home of the club is composed of Herman Goetz, chairman; Moritz Thomsen, secretary; F. W. Coates, O. B. Williams and F. W. Baker. The committee agreed to terms with the owner of the property, who has more than \$2,000,000 invested in Pacific Coast real estate, and who recently has completed a big office structure at Los Angeles, for entirely new quarters to be occupied by the club for twenty years.

Nine Stories High.
The new structure at the corner of Third Avenue and Cherry Street is to be nine stories, class A construction, finished in terra cotta, with such interior finish as the club shall approve. It will be known as the Arctic Building. Part of the structure will be used as a billiard room, the main floor to be used by the Arctic Club will be 110x120 feet, running through the building. The combination dining and ball room will be 70x100 feet, with other pillars or other obstructions, and it will be covered by a glass dome, the apex of which will be thirty feet from the floor. The floor will be made of maple, except in the billiard room, and provision has been made for a library and lounge room, a billiard reception room, executive offices, working offices, a large lobby, bowling alley, fifty-four sleeping rooms and a roof garden upon which dances will be held during the summer.

The interior and the exterior will be finished in Alaskan marble and the interior in mahogany and oak.

Details Not Completed.
Many of the details will be left to the committee on plans, specifications and removal, composed of L. E. Woolfolk, chairman; J. Belandier, William F. Richardson and Herman Goetz. This committee, together with President Allen, will meet on Monday, December 1, at 10 o'clock, at the home of Mr. Warren Gould, the architect in charge. It is expected that active construction will be started early in January and the building will be ready for occupancy in May.

GETTING ELECTION JOB MAY BECOME DIFFICULT

Councilman Bolton Will Try to Pass Law Requiring Written Applications for Places.

Voters who desire to act as election officials at the primaries on February 21 and the general election on March 22 will find it difficult to get their applications with the city council for such positions, under the terms of a resolution introduced by Councilman T. H. Bolton, after noon yesterday.

By the terms of this resolution applicants must seek appointment at any time between January 3, the first day of registration, and January 27, when the judicial committee will meet and name election officials in each of the 28 precincts. The resolution further provides that the other members of the council shall meet with the judicial committee and take part in the selection of election officials.

For years election officials have been named by individual members of the council, some members as high as high as 100 officials.

PASTOR'S AID BAZAAR TO HOLD XMAS SALE

THANK YOUR LUCKY STARS

If you feel that way about it when you get good service for your tires, but there is a deeper and more understandable reason. The tire that you and every other motorist undoubtedly want most is not the result of hit or miss efforts. Some great factory has gone to the limit in giving you the best that human ingenuity can produce, and stakes its reputation on the result. That's how Diamond Tires are built and the great factory behind them is the largest rubber factory in the world. The horse-shoe was all right to nail over the barn-door, but for the garage four Diamond Tires on the wheels of your car constitute the best omen of good luck we know anything about.

SIGMA DELTA CHI TO ACT AS HOST

University President and Retiring Coach Will Be Guests of Honor at Joint Meeting of Fraternity.

President Henry Suzzallo of the University of Washington and Coach Gilmore Dobbie, who as football tutor at the state university did not lose a contest in eight years, will be guests of honor Thursday night at a joint meeting of honorary, alumni and active members of Sigma Delta Chi honorary journalism fraternity to be held in the Faculty Club on the state university campus.

The meeting will be the second of the fall and winter series arranged by the alumni and honorary members acting in conjunction with Washington Delta Chapter of the undergraduates. The first of the season was held one month ago at the Phi Gamma Delta House and was largely attended.

Speakers at the meeting will include practical talks and reminiscences by William D. Chandler, managing editor of The Times and honorary member of Washington Delta, and Ralph C. Cassy, 12, of the Post-Intelligencer editorial staff. Several important business matters will be considered at a meeting of the alumni and refreshments will be served under the club chef.

Coach Dobbie, who recently resigned as football mentor at Washington, will leave shortly for Berkeley, Calif., where he will visit with relatives before entering upon active business.

NOTHING TO DO BUT WORK, SHE PLEADS

Mrs. Edith Franklin Objects to Farming in Addition to Many Household Duties, So Sues for Divorce.

In addition to light household duties such as making beds, doing washing for a multitude, preparing meals and serving them to a crew of 200, Mrs. Edith Franklin, 37, a superior court yesterday in a divorce complaint against John D. Franklin, that she had to do all day long to white away her time to help clean acres of land, do the shelling and burning, harrow and plow, and plant and harvest crops and attend to the livestock. Outside of that Mrs. Franklin told the court that she had little else to do while taking a rest but listen to her husband scold about expenses.

The infelicity thus brought about causes Mrs. Franklin insistently to urge a decree of divorce on the ground of cruelty and ask for her community share of approximately \$8,000 worth of property in King County and Snohomish County. They were married in 1911. Mrs. Franklin, 37, and her husband 52. Trying, she declares, of a life not sufficiently restful, Mrs. Franklin left her husband on July 11, 1915, and returned from Oslo to Seattle.

PIERCE COUNTY URGED TO BUILD SOUND FERRY

Vessel Would Ply Between Tacoma, Vashon Island and Gig Harbor Points.

TACOMA, Saturday, Nov. 27.—Construction of a ferry to operate between Tacoma, Vashon Island and Gig Harbor points is being urged on the ground of expediency by the Commercial Club, Rotary Club and other organizations. It is estimated the cost would be about \$40,000.

The county commissioners have taken the matter under advisement and are said to be considering it favorably. A ferry large enough to carry two freight cars is proposed for the shipment of carload lots from the island and peninsula and for the handling of carload lots of feed and building materials for the ranchers without the transfer from car to boat necessary.

HOME COOKING SALE

JAPANESE FARMERS ARE AFTER HUCKSTERS

Producers Band Together to Eliminate Unethical Agents From Market.

With a view of eliminating undesirable Japanese agents from the Pike Place Public Market, 110 Japanese farmers from Green Lake, Winslow, Brymer, Bellevue, Pontiac, Sunnydale, White River Valley and Duwamish have formed the Seattle Farmers' Association, and a list of members was yesterday filed with Commissioner of Health J. S. McBride, in control of the market.

The object of the association is to rid the market of Japanese who are not bona fide farmers and producers. The list is to be augmented by the names of members in other sections south of the city, so that more than 200 Japanese producers will be represented in the one organization.
