RAILWAY STOCKS IN GOOD DEMAND

Average Gains of One to Two | Prohibition of Further Trading | Opinions Widely Differ on | Greater Part Sent to England Points Scored in Early Trading in Wall Street.

NEW YORK, Friday, Dec. 28.-No NEW YORK, Friday, Dec. 23.—30 noteworthy changes were recorded at the opening of today's stock market, but demand for rails was soon resumed at average gains of 1 to 2 points in the first half hour for grangers, coalers, New York Central and some of

the first half hour for grangers, coalers, New York Central and some of the Pacifics, Chicago & Alton featured the low priced rails at an advance of 5½ points, with a few specialties such as olls and sugars.

10 2 points, with a few specialties such as olls and sugars.

11 2 thick Steel increased its carly fractional gain to a point and related stocks were firm to strong. Libert Bonds were steady excendary rails, whose status is likely to be strengthened by government control, marked the late forenoon. In addition to Rock Island Issues, in which advances ran 2½ to 4 points, gains of 2 to 5 points were made by Eric, Wabash, St. Louis, Southwestern, Colorado Southern, Mineapolis & St. Louis, Denver and Rio Grande, Seaboard air line and Western Maryland.

Standard Rails also strengthened with steels, shippings and motors.

Railroad bonds gained 1 to 3 points. Liberty 4s sold at 98.98 to 98.42.

The buying movement assumed wider proportions in the afternoon. Rails increased their advantage by 1 to 3 points. New Haven gaining five. Utilities also rose 3 to 5 points on the theory that dividends are to be maintained and active specialties made furlies also rose 3 to 5 points on the theory that dividends are to be maintained and active specialties made furlies also rose 3 to 5 points on the closing was strong. Liberty 4s changed hands at 97.02 to 96.90 and the 3½s at 98.52 to 98.40.

Low-priced and nondividend rails were the feature of tpday's further substantial improvement at gross advances of three to thirteen points. Sales approximated 1,200,000 shares.

CORN WEAKENS ON ACTION OF BOARD

in December Option Causes General Setback.

CHICAGO, Priday, Dec. 28.—Corn interes had a downward tendency today, influenced more or less by notice that the directors of the Board of Trade had prohibited further trading in the Dethe directors of the Board of Trade had problisted further trading in the December option.

Opening prices, which ranged from \$4.66.5% off to a shade advance, with January \$1.26 to \$1.25% and May \$1.24\$; to \$1.24%, were followed by a moderate general setback.

Liquidating sales by holders of December contracts weakened the oats market as a whole. Most of the selling however was in small lots.

Lower quotations on hogs gave a downward swing to provisions. Support was lacking.

Mero temperatures which threatened to nullify temporarily the promise of better railroad conditions led to a subsequent upturn. The close was firm, \$1.26.4 to \$6.185\$; \$1.25% and May \$1.25\$. Prospects of heavy receipts of hogs during January \$1.26.45\$; \$1.25% and May \$1.25\$. Prospects of heavy receipts of hogs during January checked railies.

Record Coal Tonnage Is Carried on Lake's

Is Carried on Lake's

BOSTON. Friday. Dec. 28.—The
Peck, vice president of the Pennsylvania Railroad and chairman of the
committee on lake coal and ore transportation, reported to the railroads
war board that more coal was forwarded from Great Lakes ports this
year up to December 2, than during
the entire season of 1916, which was a
record year.

The committee of lake coal operators estimated shortly after the opening of lake navigation last May that
25,000,000 tons of coal would have to
the transported by way of the lakes
the transported by way of the lakes
is 1,446,020 tons more than the total of
lake snipments last year.

"If the lake and rail tonnage for
the season are combined, it will be
seen that the Northwest has not only
had its quota of coal, but it has fated
even better than communities near
coal producing centers," said Peck.

"Such information as we now have
indicates that the consumers of about
\$1 per cent of the coal of the country
are now well supplied and in some
cases oversuppiled, whereas the consumers of 16 per cent of the output,
which represents the proportion of
coal used for domestic purposes, are
likely to suffer some inconvenience in
certain sections of the country."

TURKEYS PUZZLE WESTERN AVENUE

Probable Conditions of Market for New Years Day.

The turkey situation today proved he puzzle of Western Avenue, Dealers differed widely in their opinions on the probable condition of the market for New Year's. A few dealers who expect shipments tomorrow said they would not venture a prediction until the turkeys arrive.

"We will have plenty of turkeys for New Year's," said one dealer. "We have some splendid stock today and will have a shipment of prime turkeys tomorrow."

R. A. Carpenter, of the Carstens Tacking Company, said the turkey market is bare as far as his firm is concerned. He said the ladate market, from which Puget Sound received large quantities of turkeys, is cleaned of all but breeding stock and there are no others in sight. differed widely in their opinions on

but breeding stock and there are no others in sight.

Delayed by Trains.

"Several lots of turkeys, held up by trains delayed on account of the floods, arrived too late for the Christmas trade and are being held for New Year's," a representative of the Washington Cooperative Poultry Association said. "A number of shipments are due to arrive tomerrow and it will not be possible to make a reliable prediction until then."

"We are nearly cleaned up on turkeys," Arthur J. Rhodes of Frye & Co. said. "It looks as though there will be a shortage for New Year's. All of our markets are about sold out."

Fresh local white eggs have taken the drop again and are now queted at \$2 cents. Pullets are at a standstill. The local white ggs have been marked up and down for the last month. One week they take the jump to \$4 cents and the other down to \$5 cents. Alerchants claim this is due to the weather conditions.

Souash has gone up to \$1; cents and California oranges to \$50\(\theta\) \$5.75 a box. A steamer arrived this morning from California with sprouts, parsley, radishes, turnips and other vegetables, and two ears of California parsleys are due to arrive this afternoon.

U. S. EXPORTS OF SUGAR INCREASE

and France to Relieve Marked Shortage There.

WASHINGTON, Friday, Dec. 28.—
Sugar exports from the United States last October showed an increase of nearly 10,000,000 pounds over the same month last year. France and England received the bulk of the shipments of 113,241,000 pounds, the former getting 73,000,000 pounds to relieve a virtual famine there, and the latter 22,000,000 pounds. Stx million pounds went to The Netherlands, 5,000,000 to Argentina and almost as large a quantity to Mexico.

While gold exports for the month showed a considerable decrease as compared with the same month in 1916, a new movement of the metal, this time to Peru, was shown by an analysis of October exports made public yesterday by the Bureau of Foreign and Domestic Commerce. Peru received 33,928,372 that month, as compared with \$2,546,026 for the first ten months of the year, the increase being in payment for growing purchases of copper by this country.

Spain, Japan and Mexico took virtually all the remainder of the country's \$11,154,074 gold exports in October. In ten months Japan received \$155,000,000, compared with \$13,843,000 in the same period of 1916. Spain, \$102,-000,000, compared with \$2,800,000 and Mexico, \$7,090,000 compared with less than \$1,000,000.

U. S. Wants Potash Mines, Says German

Mines, Says German

Amsterdam, Friday, Dec. 28.—
(Correspondence of the Associated
Press.)—The German peeple now are
being told that the United States went
into the war, not to make the world
feel safe for democracy, but in order
that American capitalists might acquire
the potash mines of Alsace.

Professor Roth of Geriswald University, in an article in The Vossische
Zeitung says: "American troops, we
hear, are now occupying a portion of
the French front. It is quite possible
that they will soon appear along the
Rhine-Rhone Canal, in order to establish American claims to the potash
mines there, seeing that America's
peaceful designs on our potash in 190910 (by purchase) were defeated by
the passage of the German potash law,
which prolibitis foreign ownership.

"Along with coal and iron potash
is Germany's strongest weapon, and if
the best of it should be taken away
from her, she would be deprived of the
best economic club she can wield
against the United States. Without the
250,000 tons of potash fertilizer which
the Americans annually import from
Germany in peace time, their cotton,
tobacco, sugar and fruit crops would
be in perpetual fcopardy. So it is necessary that our world monopoly in potash should remain intact. It will
enable us to demand in exchange certain necessary raw materials from our
present fore. Our watchworld must be:
Not one inch of potash-bearing soil
to the enemy."

Road Makes Appeal On Liquor Decision

OLYMPIA. Friday. Dec. 28.—Appeal taken by the Great Northern Railway Company from the state courts to the United States Supreme Court will determine whether a shipment of liquor imported by a druggist under permit authority is subject to seizure because the permit is not displayed upon the package when delivered. Such seizure has been held valid by the State Supreme Court on a shipment delivered at Bellingham by the Great Northern for Collins Brothers, druggists.

On final appeal the Great Northern contenis that the liquor shipment was legally made as a part of interstate commerce and that failure to display the permit upon the package does not constitute a violation of the state liquor law within the meaning of the Reed amendment.

Miller Will Speak To County Democrats

Representative John F. Miller will address the King County Democratic Club, at its regular Saturday noon meeting and lunch at Good Bats Cafetteria, First Avenue and Cherry Street, tomorrow. He will tell of the French front and trenches which he recently visited as a member of a congressional committee. committee.
J. D. Trenholme, former county chairman, and recently returned from Washington, D. C., will speak of impressions gleaned at the national control.

pressions greater capital. Miss Lillian Scatton of Spekane, separane, and Mrs. Ellen Colby Lane of Scattle will sing. Heavy Seat Sales For Nursery Show

Scattle Day Nursery officers today announced a heavy sale of scars for the benefit performance at 16 elected to-morrow morning at the Coliseum Theatre, the entertainment to include the first showing here of Haby Marie Oslorne, noted child photoplay actress, in "A Little Patriot" and the singing of "The Star Spangled Banner" by Walter Clinton Backus, 5-year-old son of Mr. and Mrs. LeRoy Backus.

The photoplay will prove of especial delight to children, as all the characters in this five-act comedy-drama are played by juveniles.

The Day Nursery, its officers say, is ungently in need of funds for current expenses, as since the war began the work of the institution has vasily increased.

ORGANIZED LABOR

ELECTRICIANS HOLD ANNUAL ELECTION

DeLaney Given Clear Field as Business Agent When Other Candidates Withdraw.

COUNT of the ballots cast in the annual election of Electrical Workers' Local Union No. 77 was completed at the Labor Temple this morning. In-terest had centered in the race for business agent, but the election, held at the union's weekly meeting last night developed no contest for that office, Matt Blair and Harold Forrest,

office, Matt Blair and Harold Forrest, who had been nominated against William F. De Laney, candidate for reclection, withdrawing and leaving DeLaney a clear field.

Robert Nesbit was elected president to succeed G. A. Stark. An unusually heavy vote was cast and the count of ballots was not finished until nearly noon today.

Other officers elected were R. W. Fuller, vice president Jack H. Boles, treasurer: Harold Forrest, recording secretary; R. W. Henming, financial secretary; L. P. Hubbard and H. T. Lundy, inspectors; R. H. Sylvester, foreman; Harold Forrest, trustee.

Members of the new executive board are J. A. Mangels, E. F. Harney and Matt Blair. W. F. De Laney, H. M. Wells and Matt Blair were elected degates to the Central Labor Council.

DeLaney Submits Report.

Wells and Matt Blair were elected delegates to the Central Labor Council.

DeLancy Submits Report.

A special order of business before the union at last night's meeting was the submission of the report of Business Agent DeLancy on the permanent settlement of the telephone strike. De Lancy attended the San Francisco concrence of officials and employes of the Pacific Telephone & Telegraph Company and representatives of the International Brotherhood of Electrical Workers, at which the permanent agreement was reached last week.

The new agreement, Coastwide and covering a small army of telephone workers, becomes effective January I and was signed up for the duration of the war, the government itself being a third party to the contract and assuming the responsibility of settling all disputes arising under the agreement that the company and the unions cannot adjust between themselves.

The Times has published a synopsis of the new agreement following the adjournment of the San Francisco conference last week.

Gilbert Hobbs III. Gilbert Hobbs III.

The sick committee reported that Gilbert Hobbs, the union's vice president, who was seriously ill for two weeks, is convalescent. Frank Tustin, the union's recording secretary, also is back on the job after an illness of a fortnight.

JAPANESE WORKERS

Shall Japanese craftsmen be admitted to trade unions? Subordinated for several years by more important economic problems, the question is again before the Seattle Central Labor Council for an answer, and the organization committee of that body has been instructed to draft a recommendation.

The inquiry comes from the local tailors' union, with whose members Japanese are in growing competition, but unions of other crafts also are interested, it developed at the weekly meeting of labor council Wednesday night when the question was brought up. J. C. Dillon, business agent of the tailors, told the council that the cleaners and dyers' branch of his union was face to face with the Japanese problem and that the question now seemed to be whether to organize the Oriental workers.

"We are not asking this council to make a ruling," said Dillon. "We merely ask your advice. The Japanese are in the dyeing and cleaning husiness and something should be done to protect the workers in the industry. We have put the question up to the American and the federation says it is one that each international union must answer for itself. Our international union puts it up to our local union. Now we are putting the problem up to you and asking for your assistance in solving it.

"Personally, I believe that it would be best to organize the Japanese, but there may be good reasons for not doing so. What my union wants to know is how this council feels about it."

Referred to Ommittee.

Referred to Committee.

On motion of F. W. Cotterill the request was referred to the organization committee for an answer. The question, be said, was not one that the council should be asked to decide, and was really for the international union tion, he said, was not one that the council should be asked to decide, and was, really for the international union to answer. Nevertheiess, it might be that the committee could work out some satisfactory solution for the tailors.

Up to the present time few if any American trade unions, in the West, at least, have admitted Japanese to membership, though several of the international unions in the American Federation of Labor do not har any race, creed or color. At its recent Buffalo convention the American Federation voted down a resolution to restrict membership in its affiliated unions to American eitizens on the ground that adoption of the resolution would prevent organization of Japanese and other Orientals who gannot become desirable to take them into the general labor movement. It was reported to the council that citizens of Ballard were preparing to celebrate the completion of the municipal street railway's Ballard extension, and a committee of five was appointed to represent organized labor in arranging the celebration.

Charter Surrendered.

Charter Surrendered.

Garbage Department Workers' Local
Union No. 14.865, a federal union directly affiliated with the American
Pederation of Labor, reported that it
had surrundered its charter and
merged with the Federal Union No.
11.387, composed of workers in miscellaneous trades. The Garbage Department workers are for the most part
members of the unorganized rafts.

The Auto Drivers announced a dance
to be given in Dreanland Pavilion tonight for the heafit of the widow of
Thomas Knight, a member of the
union, who was shot and killed by
highwaymen two weeks ago. Charter Surrendered.

TELEPHONE GIRLS HOLD UNION ELECTION TODAY

Mysterious Woman Spy Said to Be Identified

COAL BOARD SEEKS TO STAMP OUT **FAVORITISM**

Discrimination on Part of Mining Companies 'to Certain Favored Retailers to Be Subject of Inquiry.

Measures to prevent discrimination by the coal mining companies of the state in favor of certain chosen dealers, will be sought by J. C. Hubbell of Ellensburg, who was selected yesterday to head a special committee of the state fuel administration to study this matter. His committee will also investigate the mine practice of selling coal through their own retail agents. Hubbell's appointment was made at a meeting of the state fuel committee with David Whitcomb, state fuel administrator. Those present at the meeting were N. B. Coliman, Chehalis; Laurence J. Colman, Seattle; J. C. flubbell, Ellensburg; E. W. Purdy, Bellingham; H. A. Rhodes, Tacoma, and flerhert Witherspoon, all of the state committee; Colin V. Dyment, head of the University of Washington journalism department; Joseph Daniels of the university school of mines, and Grover Desmond of the Seattle bar, volunteer assistants to the state administrator.

Desmond of the Seattle bar, volunteer assistants to the state administrator.

Against Discrimination.

The work which has been entrusted to Hubbell is directed against a practice of discrimination, which is understood to exist quite widely in this state. In view of the proposed stopping of further shipments of Wyoming and Utah coals in territory which can be better served by a shorter haul from the Washington mines, it was agreed that the fuel administration would find it necessary to take some measures to assure a supply of Washington fuel to dealers who have been accustomed to handling other coals, and who would otherwise be put out of business by the embargo on Wyoming and Utah shipments.

The report of the fuel administration mine price board, recommending a reclassification of the coals of the state and a revision of the mine prices, was presented to the committee for discussion, with a report from the administrator on the work of the administrator in this state.

Many Using Wood.

GIVE UNION PROBLEM

Scattle's union telephone girls, members of Local 42A of the International Brotherhood of Electrical Workers, are holding their first annual election today. The polis opened in hall No. 317 of the Labor Temple at 8 o'clock this morning and will close at 8 o'clock this morning and financial secretary and business agent, a position created since the settlement of the recent telephone strike. The candidates are Blanche Johnson, Ella Robertson, Carlotta Dean and May Duffy.

Irene DeLancy and Margaret Odlin are the candidates for the presidency, thoda Kerr, the union's first president, having declined a renomination.

Talk on Palestine

Under auspices of the Seattle War Relief committee, of which Emanuel Bosenberg, of M. Seller & Co., is president, Abraham Elkus, United States ambaissador to Turkey, will beture in Seattle January 7 on conditions in Palestine. The place of the lecture will be announced later.

The proceeds will go into the fund for the relief of the Jews in the war zone.

WE build little walls of wisdom to keep away the vast unknown, wherein we only drivel.

ministrator on the work of the administration in this state.

Many Using Wood.

Coal and fuel oil conservation through substitution of wood is increasing in Portland, according to J. J. Sayer, secretary of the Portland Association of Building Owners and Managers, who is a visitor in Seattle. The Benson Hotel, the Multnomah Hotel, the Selling Building and two buildings of the Lewis Investment Company, are among the important buildings of the city on the Columbia, which in the face of the diminishing shipments of fuel oil, have gone over to wood and found it satisfactory.

In Seattle, The Times Building and The Standard Furniture Company Buildings, are two of the large buildings which have gone over to wood, and a large number of other buildings, hotels and apartment houses, are preparing to make the change, according to information reaching the fuel administration office.
