SEE BATHING GIRLS

Aside from their fame as the noted Mack Sennett bathing girls who play in his celebrated comedies, the Sennett super-size beauties who appeared at the Moore Theatre yesterday to show their Seattle followers what they look like in real life, are decidedly easy to look at. They offer a series of poses in 1919 model bathing creations, and then appear as a chorus with a little song that tells the audience all about them. This number is both catchy and tuneful, and will be remembered and sung long after the beauties have left for Chicago, which is their next stop on their tour of the world.

Does Song and Dance.
Winsome Geraldine Karma does a solo dance which compares favorably with that offered by Ruth St. Denis' pupils who have appeared here in the past. Miss Karma is an accomplished performer, and combines her dancing ability with a charming voice and winning personality. Both she and the other Sennett nymphs who support her carry the gospel of good health, grace and charm due to their clean living and outdoor exercise, and it was brought home to

Seattle audiences yesterday as they viewed these radiantly wholesome girls. Each of the other girls scored in a solo dance number.
Prior to the girls' appearance, the latest Mack Sennett super comedy, "Yankee Doodle in Berlin," is presented. The girls are shown in wild and hilarious pranks with the Kaiser and the crown prince as the goats. The picture serves to show up the German royal bluff in a story that is pure fun and satire.
The attraction as a whole is a distinct novelty to theatre goers. Special orchestra under the direction of Charles Burnett is a feature.
TIMES WANT ADS will make money for you.

Henri Scott Famous Bass-Baritone

—of the—
Metropolitan Opera Company of New York
Astounded by the

SOLOELLE The Tone-Coloring Solo Player Piano.

"The Soloelle has given me the musical surprise of my life. It looked like the usual mechanical piano—but there the similarity ended completely.
"No player piano machine ever gave forth the richly colored human music that issued from the Soloelle—music portraying every vibrating emotion of life, yet, under the will of a man who could not play the piano with his fingers."
"It is as unbelievable as it is true." *Henri Scott*

When you hear the Soloelle, you, too, will be astounded—you will realize that the seemingly impossible has actually been accomplished—that the Soloelle removes every possible objection you ever had to a player piano.

- FIRST: The Soloelle is the only player piano that affords complete and unrestricted control of the Melody and the Accompaniment separately.
- SECOND: The Soloelle contains the only mechanism in existence for varying the kind, quality or character of tones (tone color) as distinguished from the volume or quantity of tone (tone gradation).
- GABLER SOLOELLE—MONTELLUS SOLOELLE AUTOPIANO SOLOELLE
- FRANCIS BROWN SOLOELLE—PIANISTA SOLOELLE, ETC.
- Other Instruments in Exchange. Investigation Invited.

WANTS JAPANESE TOTALLY BARRED

Californian Denounces Plan to Restrict Immigration on Percentage Basis.

SCORES GULICK SCHEME

Seattle Chicago N. Y. Times-Tribune-Times SPECIAL SERVICE

Special by Leased Wire.
WASHINGTON, D. C., Saturday, June 14.—Denouncing the plan to restrict immigration on a basis of a percentage of the naturalized of each race in this country, Victor S. McClatchy, editor of the Sacramento Bee, in a letter placed in the record of the House immigration committee yesterday urged that Japanese immigration should be absolutely prohibited.

Mr. McClatchy declared that the Japanese had not only failed to get under the league of nations. He said the scheme was devised solely to get admission for the Japanese laborers and place them on an equality with other races admitted to this country.

"Admission of Japanese to this country under such conditions as would permit their presence eventually to surrender of the country to them, as Hawaii has already surrendered," wrote McClatchy.

"It would be only a question of time before the able sections of the United States after another are peopled by Japanese and the land of the free and brave become a province of Japan."

The cleverness with which the Japanese have organized propaganda in this country is only second to German activities along similar lines.

In the letter Mr. McClatchy urges that the gentlemen's agreement be cancelled at once and Japanese immigration prohibited, that states be encouraged to pass alien land laws which forbid the sale and even lease of lands to aliens ineligible to citizenship, that the Japanese be made forever ineligible to citizenship, that the further importation of "picture brides" be stopped, and means of preventing Japanese born in this country from holding land under our laws and that immigration of Japanese from Hawaii to our continental ports be prevented.

FRENCH RESTLESS

Labor Unions Threaten to Call General Strike Unless Peace Is Hastened.

Special Cable, via Leased Wire.
PARIS, Saturday, June 14.—Official representatives of the railway unions throughout France were reported at a secret meeting in labor headquarters at Paris yesterday and were said to have decided to issue an ultimatum to Clemenceau, unless peace is signed July 1 they will strike on that date. They recommend a general strike throughout France, which will tie up all commercial, political, industrial and social life.

The labor parties are greatly incensed at the delay of a conclusion of peace and are threatening a general strike of the electrical workers in the United States. It was announced officially today that there will be no demonstrations on that date, but unless peace is signed and assurances given of better conditions of living they would be unable to prevent a walkout July 1, which would completely tie up French life.

Announcement of the threatened railway strike grips the attention of all French people. It is reported yesterday the subway workers would return to work without winning their fight. Some underground trains are running on all lines of Paris, but the tramways are operating and bus lines are nearing normal.

TO WELCOME ISHII

Japanese Ambassador to United States Arrives Tomorrow on Way to Japan.

Viscount K. Ishii, ambassador to the United States from Japan, and his wife, will arrive in Seattle tomorrow to take passage to the coast on the Suwa Maru for Japan, whether the ambassador is bound on a diplomatic mission, Naokichi Matsunaga, Japanese consul at Seattle, was notified of the time of the ambassador's arrival in a telegram received Saturday.

Tuesday the viscount will be the guest of honor at the poets' noon at the Masonic Club in the Arcade Building given by the Chamber of Commerce Tuesday evening. Mrs. Ishii will be the guest of the Japanese consul at dinner and for an automobile ride outside of the city. Wednesday the ambassador will be the guest of local Japanese.

SING TRIBUTE TO SPRING

Chinese Poets Invited Guests of President Hsu at Yin Tai.

PEKING, Saturday, June 14.—Though China has been a republic these eight years, the Chinese poets' letters still find a patron in the president of what was the Middle Kingdom.

The festival of spring, an annual holiday on the third day of the third moon of the lunar calendar, gave President Hsu Shih-chang an opportunity to demonstrate his concern for the dignity and character of China's old literature. He invited a large number of the old Chinese literati to the Yin Tai, one of the most beautiful of the series of palaces making up the one-time imperial precincts of the Forbidden City.

BRITONS SELLING LAND

Large Estates Being Broken Up for Tenant Farmers.

LONDON, Saturday, June 14.—Land in these isles is changing hands at the rate of 100,000 acres a week, well informed real estate dealers estimate. By the end of this year some \$100,000,000 in land deals will have been completed.

Large estates are being sold, mostly in small lots. One of 10,000 acres in Durham fetched \$430,000 when cut up into ninety-six farms. Syndicates are getting in their work. One estate, valued at \$500,000 was sold to a syndicate for \$750,000 and the latter disposed of the land to another syndicate for \$1,000,000. Only 3,000 acres were involved.

Tenant farmers are pressing for opportunity to own the land and large landowners are availing themselves of the chance to "get out" at high prices.

HONORS RED CROSS

Mayor of Rome Presents Medal to Colonel Bartlett, Commissioner in Italy.

Seattle Chicago N. Y. Times-Tribune-Times SPECIAL SERVICE

By Arthur E. Mann.

ROME, Saturday, June 14.—The Mayor of Rome, Adolfo Apolloni, on behalf of the city, has presented to Colonel E. O. Bartlett, American Red Cross commissioner in Italy, a gold medal as a token of Rome's appreciation of the work of the American Red Cross in Italy. The medal is to be sent to Red Cross headquarters in Washington to be added to the permanent records there.

The ceremony was held Thursday in the mayor's office. The mayor was Italian liaison officer with the American Red Cross in Italy. He is a prominent scuttor, and was Italian representative at the St. Louis World's Fair.

Lieutenant Colonel Bartlett, speaking in Italian, thanked the city for its manifestation of regard and expressed his appreciation for the courtesy with which the Red Cross has been treated in Rome and throughout Italy.

U. S. Grateful to Italy.
In the course of his remarks Colonel Bartlett said: "We have colonized it a great privilege to have been able to demonstrate, even though in small measure, our gratitude to Italy for having fought three years our fight before we entered."

The fact that Rome today has shown its appreciation of the work of the Red Cross is additionally sweetened at this time on account of irresponsible Italian gossip after President Wilson's famous note that Red Cross workers in Italy are nothing but commercial agents in disguise. President Wilson's note shows no responsible Italian authorities took such talk seriously.

Colonel Bartlett's public testimonial to the Red Cross also is interesting as putting at rest the rumors that since the Adriatic dispute at Paris there has been Italian opposition to the work of that organization.

MAY ADOPT U. S. SYSTEM

Parliament Asked to Appoint Committee to Investigate.

LONDON, Saturday, June 14.—Parliament has been asked to appoint a committee to go into the merits of a federal system of government such as the United States possesses. There is a growing demand for a more efficient system of running the British Isles.

HEADS ARE NOT GROWING

Psychologists Deny Report That Hairs Are Made Bigger.

PHILADELPHIA, Saturday, June 14.—"Fish-Tush" said psychologists and anatomists of the University of Pennsylvania, commenting on the statements of hat manufacturers to the effect that men's heads were growing larger. "It's all rot," said Dr. R. West McKenzie, in charge of the physical work of the university. "The theory could not possibly be sustained by facts, unless," he added,

with a twinkle in his eye, "unless it is a reflection from Germany. They seem to be suffering from swelled heads just now."
"The fact is interesting, if true," said Dr. Lightner Witmer, head of the department of psychology of the university. "I can't think of a reason in the world for the fact, if it is. I'm very much inclined to doubt the truth of the statement."
Other professors of the institution were inclined to take the matter lightly. One offered the suggestion that the styles of the year called for men's hats to be worn lower than the physical work of the university. "That may explain away the mysterious increase in the sizes," he said.

American Savings Bank & Trust Co.

American Bank Bldg. 2nd Ave. at Madison St.
Capital and Surplus Fully Paid - \$700,000.00

WE invite your account—if you are a worker or salaried man or woman, you should use the same care in selecting your bank as to your physical health and the comforts of your home.
