

PHILIPPINE MARKSMEN AT CALDWELL, N. J., FOR CONTEST

—Photograph copyright by Underwood & Underwood.

Competing With Nation's Best.

This photograph shows Philippine Scouts' team of expert riflemen which is competing with the nation's best marksmen on the Caldwell, N. J., rifle range this month. Officers in back row, left to right—Capt. I. F. Costello, Capt. B. F. Nickerson and Capt. For Ramco.

KAHN GIVES STAND ON IMMIGRATION

Says Western Opposition Is Not Based on Race Hatred but Is Economic.

SCORES JAPANESE POLICY

Universal Service, Special by Leased Wire.

WASHINGTON, Thursday, Aug. 7.—Congressman Julia Kahn, chairman of the House committee on military affairs yesterday issued a statement on the immigration question. Mr. Kahn's statement in part follows: "As one of the representatives from the state of California, and representing in part the people of the great Western section of this country, I want to take the opportunity to state in most emphatic terms the opposition to Oriental immigration in the West is not and never has been a racial question. "With us it is entirely an economic question. The problem of Oriental immigration in the Pacific Coast has been an acute one for many years. I repeat there is no particle of race hatred or race prejudice behind it. There is not now and there never has been any objection to the coming to our shores of the Japanese of the so-called Shikoku class.

Object to Coolies. "This class comprises the preferential people, the mechanics, bankers, scholars and students. The objection is altogether to the laboring class—the coolies—still, that our white working men cannot compete with Oriental labor. "The latter have an entirely different standard of living. They can and constantly do, undertake the Caucasian in almost every field of endeavor. It is for this reason alone that objection is made to their immigration from the Orient. "China long ago acknowledged our right to restrict the coming of Chinese coolies to our shores. "Japan has likewise through what is known as the gentleman's agreement, recognized the right of the United States to limit the coming of Japanese laborers. If there be a lurking suspicion in any part of the world that our attitude in this matter is due to race prejudice it ought to be dispelled without delay.

Personally I object most emphatically to this matter being used as a smoke screen to mask the real intention of any country in the world. "We in the United States, conscious of the fact that our dealings with Oriental countries we have not been guilty of race prejudice of any kind, most emphatically object to any representation of our attitude at this time.

For do I believe that the English colonies of Australia and New Zealand and the province of British Columbia in Canada have had any different motive in the passage of their exclusion laws. They, like us, are trying to protect their laboring class from the competition of the Asiatic coolies.

Therefore the cry for "racial equality" should have no terrors for the people of the United States. But surely Japan does not object to our immigration laws. She herself forbids the entrance into Japan of laborers coming from the countries who underbid Japanese laborers in her own territory.

She has in recent months deported Chinese workmen from Shimozaki who were brought from China to work at the Hiroshima saw mill there. Evidently she treats the matter of the admission of cheap Chinese labor into Japan as an economic question even as we do with respect to Oriental laborers who seek to enter our country. The question of race equality is not involved in Japan any

ASKS MORE PAY FOR CITY POLICE

Chief Warren Says Employees of His Department Lowest Paid Public Servants.

SEEKING MINIMUM OF \$5

Declaring the members of the police force to be the lowest paid of the public servants, with the most onerous duties, Chief of Police J. P. Warren today exhibited figures to prove his contention that street car men, garbage department employees and even the laborers on the streets were a larger increase of wages for his department than asked in his original recommendation to the Council. "Such a condition is inimical to the welfare of the force, and to the general welfare of the community," the chief declared. "I have asked the City Council to make an additional allowance to the one we formerly asked for the policemen, and I believe the Council will see it is an injustice for the police officers to work for less than others whose duties do not call for the sacrifice our men are called on to give in their duties."

Chief Warren compared the pay of patrolmen with the pay of other city employees, showing that street car men, street laborers and garbage men receive more pay than policemen, and they are asking a raise which for this reason an additional increase is asked for the chief. "The patrolmen the first year of service receive \$120 a month, the second year \$120 and the third year \$125. The increase at first asked was to \$140, \$145 and \$150 a month. Since the other city employees have asked for a raise the request has been made for a new schedule giving patrolmen \$150, \$160 and \$165 a month. "For these three classes the pay now amounts to \$4, \$3.31 and \$4.50 a day. The increase asked would be a daily wage of \$5, \$5.31-3 and \$5.50.

Car Men Higher Paid. "Street car men, the chief said, has been receiving \$4.25 a day for the first six months, \$4.50 for the next six months and \$4.75 a day thereafter. Under the scale of pay as practically agreed on the street car men will receive \$5.00 a day for the first six months and \$5.50 a day thereafter.

Men working in the garbage department now receive \$3 a day and are asking \$5.50 a day. "Laborers on the street now receive \$3 a day and are seeking \$5 a day for ninety days and \$5.75 a day thereafter.

Not only do men in other city departments receive more pay than policemen," the chief continued, "but there are exactions of the police that other employees are not called upon to make. They are on duty thirty days in the month, they are called upon to work day and night, and they are the guardians of the peace. The safety of life and property is in their hands. There is a hazardous occupation, while that of the street car man, garbage man and street laborer is not.

"Police officers have expenses other lines of city employment do not have to meet. The laborer does not have to dress so well. With police uniforms at their present prices this is a considerable item. The laborer can work in overalls, and many street car men do the same. "The policeman is on call at any time, and when there is trouble the policeman is asked to risk his life to save others. Our men are loyal and devoted to their duty, and with the greater risk, the greater expense and sacrifice they are called upon to meet it is not right for the public to expect them to work for less than other public servants."

The "SHERATON" No. 1967

It is made of Simmons Seamless Square and Rectangular Tubing throughout. Artistic center-facts—decorations in relief. Easy running casters. Your choice of Double Width and Twin Pairs—and especially pleasing in Twin Pairs. Has the Simmons Patented Pressed Steel Noiseless Corner Locks. Enameled in Ivory, the Decorative Colors, and Mahogany, Oak and Circassian Walnut effects.

Now in the Stores—

Metal Beds in "Period" Designs—Just Brought Out by Simmons Company.

THE "SHERATON" Bed illustrated above in Twin Pair is one of those beautiful new Simmons designs that women all over the city are talking about because of their exquisite harmony with the very best bedroom decoration today.

You will see perhaps a dozen designs in the leading stores—and not the least remarkable thing about them is that they cost little if any more than the ordinary metal beds you have been seeing for years.

THE woman who has been divided in her mind between her liking for the undoubted cleanliness of metal beds, and her distress at the way they look in the room—will be interested in knowing just how these new Simmons designs came about.

Simmons Company has been working on the problem of good design in metal beds for years.

But really good designs cannot be carried out in old-style tubing. It has a seam running the full length of the tube. It cannot be worked into the shapes. It is apt to be rough—does not take the enamel smoothly.

All these new designs are made with the Simmons

Seamless Tubing—a new invention of the greatest practical importance.

Square and trim—free from joint, seam and roughness. Beautifully smooth, so that the enamel lies tight and evenly all over—does not scratch, check or chip.

YOU will find these fine new Simmons designs in Beds Built for Sleep in the leading stores. Quiet beds, with the Simmons Patented Pressed Steel Corner Locks—free from squeak or rattle.

Your choice of many different patterns—and of Twin Pairs and Double Width in each pattern. Enameled in the accepted Decorative Colors, and in Mahogany, Oak and Circassian Walnut.

Simmons Springs, too—The Slumber King—a spring composed of flexible steel strips with spirals of high-test spring wire; so combined that the spring action is equal in all directions.

The Mount Vernon—the Simmons improvement on the box-spring idea.

And some very charming Brass Beds and Children's Cribs—built for sleep by the Simmons Company.

PRICES of Simmons Beds are little, if any, higher than those of ordinary beds.

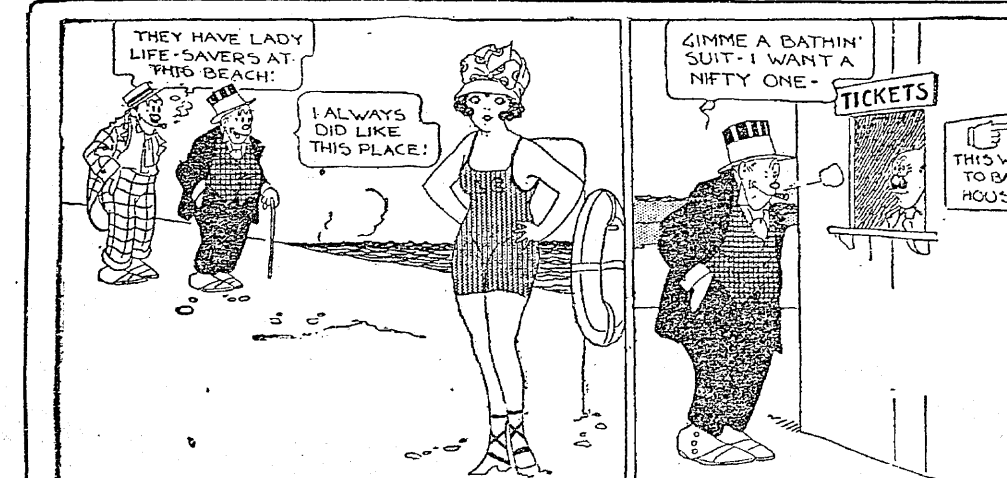

If you have any trouble in finding them, a post card to us will bring you the names of Simmons merchants near your home.

Offer Record Pay For Clemenceau to Lecture in America

LONDON, Thursday, Aug. 7.—It is learned that the Shuberts of New York have offered Premier Clemenceau of France the highest salary ever offered any person for a lecture tour of the United States under their management.

Centrals Men in U. S.

CENTRALIA, Thursday, Aug. 7.—Three more former members of Company M, 181st Infantry, have landed in New York and are at Camp Merritt, according to word received by their relatives yesterday. They are Elden Roberts, Clinton Clark and Arthur Clark. Young Roberts saw much fighting after being transferred to the 23rd Infantry. Mr. and Mrs. A. E. Parrish received word yesterday that their son, Herbert Parrish, had been released from an Eastern hospital and would return home this week. He is believed to be the only Centralia boy permanently injured in the war, his right leg being amputated above the knee. He was wounded on November 11, the day the armistice was signed.

TIMES WANT ADS will make money for you.

CHANGE IN TIME TABLE

New Order Becomes Effective on Seattle-Tacoma Line Sunday. Changes in the time table of the Seattle-Tacoma Interurban become effective next Sunday. Instead of the local trains an express will be put on with parlor cars attached to alternate with the limited trains. The limited trains will make the runs on the seventy-minute schedule, and the express trains in an hour and twenty-five minutes, or fifteen minutes longer running time than the fast trains. All cars will hereafter leave Tacoma on the hour except the first two mornings and the last evening trains. The limited trains will run on the odd and the express on the even hours from the Seattle station. That order will also prevail in Tacoma.

To Enforce Dry Law.

HELENA, Mont., Thursday, Aug. 7.—Gov. Sam V. Stewart Wednesday sent a special address to the Assembly calling attention to alleged violation of the prohibition law and asking special funds for enforcement of the law.

Before and After Marriage

The Times will pay \$1 for every letter published on marriage dissolutions. Write on only one side of the paper. No manuscripts returned. Address "Married Life," The Times, Seattle.

A Kindly Neighbor.

JACK and Ruth had been married a year and a half. They were a happy couple, until the last year. Ruth wanted to settle down while Jack wanted to be going. He liked shows, while she didn't care for them. Now they had a darling six months' old baby, too sweet for words. When Jack wanted to go to the show or different friends' houses, Ruth would have an excuse that she would have to take the baby for an airing or that she didn't want to go away and leave it. So Jack would have to go alone. But this didn't keep up always. Jack started by himself, but later met some friends. Before they were married, he dreamed of taking his future wife to the show and taking her around to his friends. One day while Ruth was talking to her neighbor, the neighbor told her she would not have a husband much longer if she didn't take more interest in him. Ruth had never thought of this before. The next night Jack asked her to go and she was ready to go, and every time he asked her if she was ready to go, she was ready to go. "I think if it hadn't been for the neighbor, that home would have broken up in due time like lots of others." —V. M.

Two Children Dead.

CENTRALIA, Thursday, Aug. 7.—Harvey Burger, Jr., the infant son of Mr. and Mrs. Harvey Burger, died Monday night following an illness of only a few hours. The remains were removed to the Newell parlors pending funeral arrangements. Evelyn Sanders, 2-year-old daughter of Mrs. Tuesday. The funeral was held this morning at 10 o'clock from the residence, interment being in the Oakville Cemetery. C. L. Sticklin had charge of the arrangements.

Advertisement for NUXATED IRON. Text: 'For Red Blood. Strength and Endurance. THINK OF the strong, healthy men and women you know—people who are prominent and who are doing things worth while and you will find that they usually possess remarkable force, vim and energy—the life that simply brim over when the blood is filled with iron. Iron is red-blood food—it helps put strength and energy into the veins of men and roses into the cheeks of women. Nuxated Iron by enriching the blood and creating new blood cells strengthens the nerves, rebuilds the weakened tissues and helps to instill renewed energy and endurance into the whole system. If people would only keep their blood filled with strength-giving iron by taking Nuxated Iron when they feel weak, run-down and nervous, they might readily build up their red-blood corpuscles and quickly become stronger and healthier in every way. Unlike the older inorganic products it is easily assimilated, does not injure the teeth, make them black, upset the stomach. Nuxated Iron often increases the strength and endurance of weak, delicate people in two weeks' time. It is dispensed in this city by Owl Drug Co., Bartell Drug Co., Swift's Pharmacy and other druggists. (Advertisement.)'
