

SLAV WOMAN FIGHTER WEDS YANK

—Photograph copyright by International. Mrs. Agnes Menefee. This photograph shows Mrs. Agnes Menefee, a member of the famous Russian "Battalion of Death," as she appeared on board the steamship America on her arrival in New York. Mrs. Menefee spent five years at the front, was wounded twice, was twice decorated by the late Czar and was a prisoner of war for six months in Germany. She is going to Covington, Kentucky, as the bride of Harry C. Menefee, formerly a field clerk with the A. E. F. and later attached to the American peace mission at Paris.

Strikes and Profiteers Unknown
No Political Strife Since 841

Travelers Come Direct With News From Oldest and Smallest Republic in World, Andorra, Between France and Spain.

By Associated Press.
NEW YORK, Wednesday, Nov. 5.—Direct from a paradise where since the year 841 there have been no politics, strikes, profiteering, drunkenness or disorder, and but one violent death—came two men to New York yesterday. They journeyed from Andorra, the "holiest and smallest republic in the world." The steamship Catalina, from Barcelona, Spain, brought them.

It costs Andorra \$400 a year to maintain its independence and peace from outside interference, they said. This money is paid in tribute equally divided between France and Spain, its neighbors. Charlemagne gave the territory its freedom, and it has been maintained uninterrupted to date.

Mr. Warren and Joseph A. Alemany, trustees of the single tax colony of Sant Jordi, were the two arrivals from Andorra. They are on their way to Fairhope, Ala., near Mobile, to attend the celebration of its twenty-fifth anniversary as the oldest and largest single tax community in the world.

Andorra, they said, pays its president \$16 a year, and its twenty-four members of Parliament \$3 each. The country is 175 miles in extent. Its population is 6,000.

"There is no internal strife in Andorra," Mr. Warren declared, "because the people know each other so well that irresponsible persons never can hope to fool any part of them any part of the time and ever hold office. There are no newspapers. A large percentage of the people are illiterate."

Mr. Warren and Alemany will go first to Harvard, Mass., where the former founded a single tax colony.

200 Auto License Plates Held for Their Owners

Two hundred license plates belonging to automobile and other motor vehicle owners, picked up in various parts of King County, are being held by County Auditor Norman M. Wardall for their rightful claimants.

F. E. Williams, local representative of the secretary of state, has transferred from police headquarters to the automobile department of the auditor's office all plates found by the police. Vehicle owners who have lost their numbers should report that fact at once to the county auditor, said Mr. Williams, and examine from day to day the plates that the various officers of the law turn in to him.

Honors Are Paid Heroes of War

WASHINGTON, Wednesday, Nov. 5.—Awards of distinguished service crosses were announced today as follows:

Major Parker C. Kalkoff, Jr., Portland, Maine.

Posthumous award, First Lieut. Lambert A. Wood, Portland, Ore.

PET CORNS

Few Drops of "Freezone," Then Lift Corn Right Off

A tiny bottle of "Freezone" costs so little at any drug store apply a few drops upon any corn or callous. Instantly it stops hurting, then shortly you lift that bothersome corn or callous right off with your fingers. Truly! No humbug! (Advertisement.)

Supplies for Army Bought in Europe

WASHINGTON, Wednesday, Nov. 5.—A total of 7,600,000 ship tons of supplies were sent from the United States to American armies in France between June, 1917, and December, 1918, and 10,132,000 tons were purchased in Europe, Charles I. Dawes, purchasing agent, told the Senate military committee. He said purchasing power for the army supplies was not centralized in a single office.

The cost of material bought in Europe, Mr. Dawes said, was \$1,024,000,000, and included 134,000 tons of motor vehicles, more than 1,000,000 animals and more than 1,000,000 tons of coal, wood and timber.

FLYING FIELD HEARING

Council Postpones Session on Plan for Bond Issue Referendum.

Hearing on the proposal to submit a bond issue to the voters for the purchase of an addition to the city for Seattle, which was called by the City Council last week, was put over until next Tuesday at 10 o'clock.

"While there is considerable agitation for such a field," said J. E. Carroll, committee chairman, today, "no one interested in the movement appeared before the committee yesterday. Various organizations are considering sites, but the chamber will not be able to do so until the city has no funds for the purchase and I feel it can be accomplished only through the submission of a bond issue proposal to the voters."

FAVOR ELECTION CHANGE

Chamber of Commerce Trustees Vote to Suggest Referendum on Date.

Proposal to change the city elections from March to the latter part of April or May was favored yesterday by the Chamber of Commerce and Commercial Club trustees at their regular meeting. The Greater Seattle bureau of the chamber will bring it before the City Council with the suggestion that it be submitted to the voters next spring.

WHEN RHEUMATIC PAINS HIT HARD

Have Sloan's Liniment ready for those sudden rheumatic twinges

DON'T let that rheumatic pain or ache, find you without Sloan's Liniment again. Keep it handy in the medicine cabinet for immediate action when needed. If you are out of it now, get another bottle today, so you won't suffer any longer than necessary when a pain or ache attacks you. Apply it without rubbing—for it penetrates—giving prompt relief of sciatica, lumbago, neuralgia, lame neck, soreness, sprains, strains, bruises. Be prepared—keep it handy.

All druggists—25c, 70c, \$1.40.

ASTOR'S ESTATE Valued by Son At \$25,000,000

PLYMOUTH, Wednesday, Nov. 5.—"Father's estate is very small—less than 5,000,000 pounds (\$25,000,000). I believe, though I don't know the exact size. He gave all away to his children and others during the past ten years. I have seen a summary of the will and there are no large bequests to charity in it."

Major Waldorf Astor, who by the death of his father has become the second Viscount Astor, made these statements last night.

"All of father's property in England, including Hovey Castle, Cliveden and Brighton, was disposed of before his death. The cost of the project is \$450,000 and is to be divided into three separate undertakings:

Laying watermains in West Forty-eighth Street at 1st, in Local Improvement District No. 3230, under Ordinance 40072.

Laying watermains in West Sixty-fifth Street at 2d, in Local Improvement District No. 3231, under Ordinance 40072.

Laying watermains in West Sixty-first Street at 3d, in Local Improvement District No. 3232, under Ordinance 40073.

MAY VOTE ON POLICE

Council Committee Gets Resolutions for Commission—Referendum Is Likely.

Resolutions favoring a police commission for Seattle was placed before the City Council judiciary committee yesterday by the Washington State Prison Association and at the City Hall it is considered unlikely a charter amendment for the appointment of such a body will be submitted to the voters at the spring election.

A invitation of the committee Mayor C. B. Fitzgerald said he was more in favor of a police commission than a commission of three. He expected to devote a year and a half to the journey. He left for Vancouver, B. C. last night after a brief stay in Seattle and plans to return to this city in about ten days.

Labor troubles in Japan were unknown until the nation was drawn into the war, Mr. Okada said last night at the New Washington Hotel. The idea of unionism was also largely a product of the war, he said.

The guild in Japan is an administrative unit with the factory owner or employer at its head. The guild leader has control over both the political and economic life of the workers.

Mr. Okada said he was traveling in the interests of his government, but had not been assigned a definite mission.

He recently spent two months in California visiting Japanese colonies. When he returns to Seattle he expects to spend a short time here and then visit North Dakota to serve the new scheme in that state.

ASKS OPEN DOOR IN EAST

Warus U. S. Antagonism May Unite Japan With Germany.

In an address delivered yesterday at the Municipal League's weekly luncheon, Samuel Hill urged that Seattle open its "open door" policy to China, Japan and Russia. He declared an antagonistic attitude toward Japan would be a mistake, as that country was disposed to be friendly but if opposed would be forced into an alliance with Germany and Russia, which would constitute a menace to the United States.

Russia's vast resources could be developed with assistance from this country, Mr. Hill said, and he was extending aid to Russia during its reconstruction.

Germany, said Mr. Hill, was exerting itself to outstrip the United States in foreign trade and would soon be a serious factor in world business. Mr. Hill said the Russian language was being taught in German colleges and steps were being taken to exploit that country.

Legion Thanks Mayor for His War on Slackers

Indorsement of Mayor C. B. Fitzgerald's attitude on employment of alien slackers in city departments or on city work is voiced by Rainier Post No. 21, American Legion, in a letter to the mayor which it voted to send to the mayor last night.

The attention of the post was called to letters sent by the mayor to the heads of all city departments and the Board of Public Works Monday asking that the state law against employment of alien slackers be rigidly observed.

The post also voted to participate in the memorial exercises next Sunday at the American Legion, 12th and Post to attend the celebration of Armistice Day.

Dean Arthur R. Priest addressed the post on the League of Nations covenant.

REPLACE WOODEN MAINS

Three Contracts to Be Let for Iron Water Lines in Ballard.

Replacing with iron mains the system of wood watermains laid before Ballard's annexation is provided for in three contracts to be let by the Board of Public Works, bids to be opened Friday, November 15, at 10 o'clock.

The cost of the project is \$450,000 and is to be divided into three separate undertakings:

Laying watermains in West Forty-eighth Street at 1st, in Local Improvement District No. 3230, under Ordinance 40072.

Laying watermains in West Sixty-fifth Street at 2d, in Local Improvement District No. 3231, under Ordinance 40072.

Laying watermains in West Sixty-first Street at 3d, in Local Improvement District No. 3232, under Ordinance 40073.

HOTEL MAN HELD

J. Furimoko Charged With Failing to Maintain Necessary Minimum of Heat.

With the arrest of J. Furimoko, proprietor of the Hotel Potter, 814 James St., on a charge of failing to maintain a minimum of heat, as ordered by city ordinance, C. R. Frasch of the City Health and Sanitation Department, the arresting officer, said the city would not permit hotel and apartment house landlords to place the coal strike as an excuse for not keeping guests warm.

Furimoko, the tenth person arrested for failure to keep up the proper degree of heat in the last week, was released last night on \$25 bail.

JAPANESE ON TOUR

Governor Touring U. S. and Europe in Quest of Working Basis for Labor Peace.

To observe at first hand any change in thinking of the people of the United States and Europe, effected by the war, and to discover a form of relationship between capital and labor which will conform to the best interests of the public, Tadashi Okada, governor of the Saitama Prefecture, Japan, is making an extended tour of these two countries. He expects to devote a year and a half to the journey. He left for Vancouver, B. C. last night after a brief stay in Seattle and plans to return to this city in about ten days.

Labor troubles in Japan were unknown until the nation was drawn into the war, Mr. Okada said last night at the New Washington Hotel. The idea of unionism was also largely a product of the war, he said.

The guild in Japan is an administrative unit with the factory owner or employer at its head. The guild leader has control over both the political and economic life of the workers.

REPORTS ON SKAGIT

City Will Be Using Current From New Plant in Three Years, Says Uhdén.

That Seattle will be using electric current from the hydroelectric plant on the Skagit River within three years, was the opinion expressed to Mayor C. B. Fitzgerald yesterday by C. F. Uhdén, engineer in charge of the big project.

After further study of the Gorge Creek conditions and various details of preliminary work, Mr. Uhdén outlined his plans to Mayor Fitzgerald yesterday afternoon. The engineer favors the construction of a steam road from Rockport, the nearest railroad point, which is twenty-three miles from Gorge Creek. This or an improved highway, he says, will be necessary for the movement of material.

Mayor Fitzgerald says he is inclined to favor the construction of a highway rather than a railroad, as its maintenance would not be as expensive as the construction and operation of a railroad. Further investigation will be made by Mr. Uhdén before submitting a recommendation. The Council has already voted \$400,000 for the construction of a road, sawmill and temporary power plant.

MacDougall-Southwick
