

ORGANIZED LABOR MAKES WAR ON JAPANESE

American Federation Will Petition Congress to Exclude Mikado's Subjects.

Unions Also Want the Bars Raised Against Korean Immigrants.

Delegates Vote Thousands of Dollars to Aid Striking Textile Workers.

By Associated Press, Special by Leased Wire
SAN FRANCISCO, Friday, Nov. 18.—One of the matters that has created great interest among the delegates to the convention of the American Federation of Labor is that of the exclusion of Mongolians from the United States. There seems to be an undercurrent of sentiment among all present that Congress will be memorialized to pass an act of nature similar to the Chinese exclusion law, which shall apply to Japanese and Koreans. A number of such resolutions have been presented, but so anxious are the delegates to make the petition as acceptable as possible that the committee has withheld the matter until a measure can be presented to the delegates that shall be acceptable to all.

TEETH

BROWN'S PAINLESS DENTISTS

Full River, Mass., where a large number of textile workers are now out on strike. This was considered so important a question that it was made a special order for 11 o'clock. Then the delegates unanimously voted to levy an assessment of one cent per member per week for three weeks in aid of the textile workers now on strike at Fall River, Mass., and to confer upon the executive council of the federation authority to levy additional assessments if such a course in their judgment should be deemed necessary. This will immediately realize about \$75,000 for the aid of the strikers.

Vote Was Unanimous.
The vote was unanimous and was received with great cheering by the delegates, many of whom rose in their seats and tendered checks or even cash as the share of their organizations to John Golden, representative of the United Textile Workers of the United States. Delegate John Golden, in addressing the delegates, implored them to aid the 25,000 operatives now on strike there by voting to levy an assessment of one cent per week for every member of a labor organization affiliated with the American Federation of Labor. That this might be accomplished he offered the following resolution for adoption:

Golden's Resolution.
"Whereas, 5,000 textile operatives in the city of Fall River have been on strike since the 25th of last July against a reduction of wages ranging from 12 to 25 per cent to as high as 40 per cent in some cases, and
"Whereas we, the United Textile Workers of America, firmly believe that, not only are we being forced to work for an un-American wage but are also being asked to make a deliberate attempt to be made to wreck our organization, portions of which have been in existence since 1848, and
"Resolved, That we do respectfully ask the delegates in convention assembled for the placing of an assessment on the members affiliated with the American Federation of Labor, on the lines laid out in the constitution, to the amount of one cent per member per week, being firmly of the opinion that by such action both the United Textile Workers of America and the American Federation of Labor will be enabled to win one of the greatest victories ever secured by organized labor."

Appeal Made by a Woman.
Impassioned speeches were made in behalf of this measure. Delegate Mrs. Mary Kenney O'Sullivan, of the National Women's Trade Union League, depicted the scenes there since the strike began. She characterized the conditions existing as more terrible than anything she had ever seen in a coal strike. One meal a day, consisting of soup and two slices of bread, was she alleged, the only food of the women and children. To safeguard the virtue of these unfortunate women and protect the health and spirits of the children, she prayed that financial aid might be given until the strike was over.

Deleate Discol, of Boston, offered a motion that an assessment of 1 cent per week for three weeks be levied on every member of an organization affiliated with the American Federation of Labor to aid the textile workers now on strike at Fall River. His motion was carried unanimously amidst great cheering. Figuring on a basis of membership of 2,000,000, it is estimated that aid to the extent of \$25,000 a week will be given the strikers.

After passing on this measure the convention adjourned until tomorrow morning, that committee work might be concluded.

It is stated that the Socialist element in the American Federation of Labor will make its effort at the present session of that body to commit the federation to Socialism, but would be satisfied with the adoption of a number of Socialistic resolutions, which have been introduced, and among which are the following:

Socialistic Resolutions.
"That we hereby make it imperative upon all organizations affiliated with the American Federation of Labor to have their members study the economic conditions and to do everything in their power for the enlightenment and intellectual advancement of the proletariat.
"That the twenty-fourth convention of the American Federation of Labor go on record as favoring the nationalization of the trusts for the benefit of all the people, and call upon the trades unions of the country to use their best efforts and especially the power of their ballots for that purpose."
"That the incoming executive council of the American Federation of Labor be instructed to use its best efforts to induce Congress to pass a bill which will secure to every citizen of the United States who has earned no more than \$1,000 average wages per year, a pension of not less than \$12 per month at the age of sixty, and thereafter for the rest of his or her natural life; provided, however, that every wage earner is a citizen of the United States and has lived in this country for at least twenty-one years continuously at the time when the application is made."
"That we declare our intention and hereby instruct all affiliated bodies to hold absolutely aloof from all connection

CIVIC LEAGUE MEETS

Everett Association Will Attempt to Secure Election of Good Men to Office.

EVERETT, Friday, Nov. 18.—About 600 people attended the mass meeting of the Everett Civic League in the Central Theatre last night. In explaining the league's purpose President Cox said it would not boost or oppose any political party, but that it was planned to support the better of the two candidates, irrespective of politics. In speaking of the condition of the city, which has been shown to be going behind \$50,000 a year, Dr. Manning said:

"The trouble comes from the indifferently bacillus, the incompetent bacillus, the temperance bacillus, the cowardly bacillus, not to speak of the bacilli of mendacious graft and other forms of theft."
Those who attended the meeting last night express a belief that it will bring about the clean and economical city government for which it was planned.
Men's thoughts are much according to their inclinations.—Bacon.

SEATTLE WILL NOT PAY EXTRA COST

Government Was Notified of Third Avenue Regrade Plan.

Mullen Explains City's Position in Federal Building Controversy.

Original Notice Contained a Scheme to Widen Street Fourteen Feet.

THE City of Seattle will not undertake to pay the \$35,000 additional cost alleged to be necessary to change the plans of the government building to make it conform to the proposed regrade of Third Avenue. The position taken by city officials is long before the government undertook the construction of the building it was informed of the proposed regrade, which would include the widening of the street seven feet on either side.

This statement is made by Councilman Mullen, chairman of the street committee and father of the present plan of regrade. In discussing the matter this morning Mr. Mullen said:

"For more than three years the city has been discussing the regrade of Third Avenue and ever since have been a member of the city council there has been one form or another of regrade before us. This was the talk at the time the government acquired its site for the Federal Building.

Notice Served.
"Three years ago when George Stewart was custodian of the property and after that time the council there has discussion the so-called 'log grade' regrade. This plan is identical with the proposed regrade, between Union and University streets, where the government building is alleged to be affected. There is this difference, however, that the time the log grade was being discussed it was planned to widen the street fourteen feet by taking seven feet from each side and the way from Pike Street to Yesler Way. Custodian Stewart was informed of these plans and later visiting representative of the government were told of the plans.

A short time afterwards the government petitioned the council for permission to put the Third Avenue steps, or the steps leading to the main entrance of the building, four feet out on the sidewalk. This petition was refused and at that time the government officials were again reminded of the regrade as proposed.

Can't Pay Extra Cost.
"The city council is not desirous of retarding the work on the government building, but rather of helping it in any way that lies in its power. However, in the event that the government is notified of the city's plans to regrade the street and so far as the notice is concerned, it is not the city's business to pay the extra cost of the regrade, and then went ahead with its building, the city will resist any effort to collect the alleged extra cost extended by a change in the plans at this time."
"So far as terminating the regrade for the south side of Union Street and leave the block between Union and University Street as it is, that would make the grade from Yesler Way to Seneca Street, the grade would be stepped too steep to ever permit of Third Avenue becoming a business street, as is the object of making the regrade."

Trouth in Chicago Grows Worse.
CHICAGO, Thursday, Nov. 18.—The strike of furniture wagon drivers, which led to street riots yesterday, spread today to other facilities in the Furniture Manufacturers' Association. Picket lines were formed in front of the furniture stores, and the guarding unionists warning away drivers of lumber and coal wagons loaded with material and fuel for the beleaguered plants.

China Refuses France's Order.
SHANGHAI, Friday, Nov. 18.—The Chinese government has refused the offer of the Banque de Paris an advance money toward the establishment of an imperial bank of China in return for the control of the same.

CURRENT WILL BE TURNED ON MONDAY

City to Test Municipal Pole Line With Voltage of 45,000.

Completed to Renton and From There Into the Substation.

Superintendent Ross Arrives to Begin Building of City Lines.

THE last stretch of the municipal light and power pole line between the plant on Cedar River and Renton was completed yesterday under the supervision of Superintendent of Construction Ross. On Monday a 45,000 volt current will be turned on the line for this distance for testing purposes and will be kept on for two or three days to make sure of the efficiency of the wires and insulators.

From Renton into the city the line is completed on the poles of the Seattle-Tacoma Power Company, which run to the door of the sub-station at Seventh Avenue and Yesler Way. In the town of Renton there is a stretch of about two miles of line which has not been constructed to connect the two ends, but it will be finished within the next two weeks.

Superintendent Ross arrived in the city this morning and will at once begin the building of city lines to be added to the Seattle Electric Company's circuit for street lighting. When he has finished this work the lines for house lighting in all parts of the city will be started, the \$100,000 left over from the cost of the plant proper being used until the bonds to be voted December 6 are available.

Oil has arrived at the plant and is all ready to be turned into the transformers. This will be done tomorrow, so that everything will be in readiness for the test Monday. The current at the being sent to Renton will be turned into the river.

As soon as all of the city work is completed it is the intention to construct a double line from the plant twelve miles to Cedar River and also to build a double line from Renton into the station. This is for the purpose of minimizing the loss of current on the line. All the machinery at the plant has been tested, and if the sub-station at Seventh Avenue and Yesler Way is completed in six weeks, as is expected, the plant will be put in operation and the streets lighted with the city's current within that time.

GOVERNMENT NEEDS MONEY

Secretary of Treasury Calls on Federal Depositories for Millions of Dollars.

WASHINGTON, Friday, Nov. 18.—Secretary Shaw has announced a call upon national banks holding government deposits to the amount of 25 per cent of their holdings, 10 per cent to be paid on before, and the rest on or before March 15. This, the secretary estimates, will bring into the treasury about \$25,000,000.

JURY CONVICTS J. E. BROWN

Noted Case in Whitman County Comes to an End.

COLFAX, Friday, Nov. 18.—After a three days' trial the case of J. E. Brown, charged with assault with a deadly weapon with intent to kill Thomas Turnbull, came to a close last night and at 10:30 o'clock the jury brought in a verdict of guilty, for which Brown will receive from one to fourteen years in the penitentiary. Judge Chadwick will pronounce sentence next Thursday.

The courtroom was crowded from beginning to the end of the trial. More than 200 people heard the verdict, which was received with indifference by Brown, who was soon leaving.

Steamer Has Rough Voyage

ASTORIA, Or., Friday, Nov. 18.—After being buffeted about for fifty-five hours of the Columbia river bar, the oil tank steamer Assacum, which left San Francisco for Portland on Sunday, put into this port this morning. Capt. Bridgett of the Assacum reports that the trip was one of the roughest in his long experience in Coast shipping. Rather than risk his vessel and crew he preferred to cross the bar in the storm. Capt. Bridgett preferred to remain outside until all danger was over. The Assacum suffered no damage.

Bonds Issued for Two Millions

SAN FRANCISCO, Friday, Nov. 18.—The \$2,000,000 bond issue by the Alaskan Salmon Packing Association has been taken by a syndicate made up of the Bank of California, Wells Fargo & Co., Crocker Woolworth Bank and the San Francisco Savings Union. Frank P. Anderson of the Bank of California has been elected a director to fill the vacancy caused by Mr. Hirsch's resignation.

Sunnyside Feeds Many Cattle

SCENESIDE, Wash., Friday, Nov. 18.—A greater number of cattle and sheep have been shipped in here for feeding than ever before. But there is still considerable hay in the producers' hands. The ruling price has been \$4 per ton measured in the stack. The greatest hardship has been with shippers not being able to get cars. The supply of cars has been over 200 short of the demand.

Logger Killed in Accident

CENTRALIA, Friday, Nov. 18.—Geo. Kennedy was fatally injured in a logging camp at McIntosh, a small station above Tenino, late yesterday afternoon. He was brought to Centralia and died in the hospital here half an hour afterward. Kennedy was caught between a tree and a log and his leg crushed. His parents reside at Grangeville, Mich. The body will be sent to that place.

Noted Colorado Man Passes Away

COLORADO SPRINGS, Colo., Friday, Nov. 18.—Former Gov. D. W. Robinson, one of the prominent citizens of this place, died early this morning after a lingering illness. He was 60 years of age.
