OPENING MARKET

IS NERVOUS

At First Holds Up Well, but Later Breaks Very

Sharply.

Vigorous Support Is Effectively Given to Many Prominent Stocks.

By Associated Press, Special by Leased Wire.

NPW YORK, Monday, May 1.—The stock market opened in confusion and disorder with wide changes both ways. The closing day of the Lendon exchange left operators in stocks without the usual preliminary intimation of the tone of the speculation and a feeling of great anxiety remained as a result of Saturday's events.

PENDING DEAL UNSETTLES STOCK OF GAS COMPANY.

PHILADELPHIA. Monday, May 1.—
There were wide fluctuations in United
Gas Improvement Company stocks today following the opening of the local
exchange. The stock closed at 120 on
Saturday and opened today at 117. During the first ten minutes of trading the
shares fell to 113 and then rose to 117.
The unsettled condition of the shares
is due to the pending deal between the
United Gas Company and the City of
Philadelphia, whereby the company is
endeavoring to lease the gas works from
the city for a period of 75 years for the
sum of 25,000.00. There has been
agitation by certain Philadelphia newspapers against the consummation of the
lease.

Native Strawberries Will Sta for Local Market Next Week.

Western Avenue was terrorized for a short time this morning. The cause of the trouble was the biggest tarantula which ever came here in a non-alcoholic condition. The big bug was fully two and one-half inches in length.

He crawled out of a car of bananas which reached the back door of the Ryan & Newton store from Central America, and settled on the back of the hand of an Italian pedier. The latter screamed with terror as he saw the deadly insect on his hand, knowing that a bite meant a painful death. He whipped out his knife and brushed the tarantula off before any damage was done. The insect was taken up in a newspaper, carried to a drug store and dropped into alcohol. It is now on exhibition on Western Avenue.

Winningstead cabbage today advanced to \$2.35. Flat Dutch cabbage is selling well at \$1.75. There is a new variety of cabbage from San Francisco, called the Early York, which is selling at \$1.00 to \$2.00 to \$2.00 the strawberries on the street are still bad, and are selling at \$1.50 to \$2.00 called the stock, and this is bringing \$2.25 @2.50 without trouble.

Western Avenue expects the first native outdoor strawberries by hext week. Vashon Island sent in a few hothouse boxes last week.

A car of fancy Wenatchee Winesap apples is in. The price is \$2 per box.

Five cars of Yakima potatoes, worth \$2.50 c. and three cars of Colorados, worth \$2.1 are in today.

Illinois onions are selling at \$1.50 closes. Ranch eggs are now 21 cents all over the street.

White cherries are today worth \$1, with black cherries at \$1.50 @1.75.

A car of new Triple X lemons is in, with a fixed price of \$3 per box. By Associated Press, Special by Leased Wire.

NEW YORK, Monday, May 1.—There was a nervous feeling in the stock market at the opening of the exchange today. At first the market held well on foreign buying and on belief that no financial trouble has developed as a result of the decline, but later on heavy liquidation sales there was a sharp break. Leading stocks lost from one to four points, but the market steadled again and prices in some instances recovered to the best of the day.

All sheets went through the clearing house successfully, indicating that no Stock Exchange house had succumbed, and there was no confirmation today of Saturday's rumors of financial troubles. The market turned decidedly strong in the latter part of the day and the comprehensive advance resulted in general gains of one to four points, compared with Saturday's closing. In some of the Southern stocks and Pacifics, gains considerably exceeded these figures. A buying tendency had been arrested. There appeared to be a large uncovered short interest waiting for a chance to secure stock. They became alarmed at the strength of the market and covered their short contracts with precipitation.

DEAD SOLDIER

By Associated Press, Special by Leased Wire. By Associated Press, Special by Leased Wire.

WASHINGTON, Monday, May 1.—An affectionate and imposing tribute was paid today to all that is mortal of Brig.-Gen. Fitzhugh Lee, U. S. A., rerired. Formal funeral services over the remains will be held in Richmond, Va., next Thursday. It was found necessary to delay them until that time in order to give time to members of the denoman's family to arrive here.

Brief services were held at the Church of the Epiphany, many of the personal and official friends embracing the opportunity to pay a last tribute of respect to the memory of the distinguished dead.

The church services were conducted by the rector. Randolph McKim, who is chaplain of the Washington Camp of Confederate Veterans. He was an officer in Gen. Lee's old command in the Civil War and the two were life-long friends. The services were very simple, being in accordance with the burial services prescribed by the ritual of the E-iscopal Church.

No funeral oration was pronounced.

OLYMPIA BRINGS

More Than 600 Come From Honolulu for Great Northern Line.

Bringing 610 Japanese for the Great Northern Railroad, the steamship Olympia arrived in port last night from Honolulu. The Orientals went ashore this morning and will work in both Eastern and Western Washington under the division superintendents.

When the Olympia arrived an effort was made to prevent the Japanese from landing, as it was believed by representatives of the Western Central Labor Union that it was a violation of the allen contract labor law. Such was not the case, however, as the laborers were brought from an American port.

The Olympia's passengers are Japanese who for a number of years past have been working on the sugar plantations. Higher wages was one of the inducements which led them to come to the United States. It is understood that the big planters on the islands made efforts to hold the Japanese, but when they found they could come to the states they immediately gave up their positions. Agents visited the plantations and secured the men.

The arrival of the Olympia with such a large number of Japanese at first excited suspicion. Many laboring people believed the men were coming to take positions in this city other than railroad work and the union took up the matter. Immigration officials were aware that the law was not being violated and took no action whatever.

Moves Out of Great Northern Land and Loan Company's Offices.

When J. B. Light gave up possession of the offices of the Great Northern Land & Loan Company, in the Globe Building, this morning, after a three days siege, he turned the place over to the Standard Furniture Company and other firms who had sold the furnishings to the loan firm on conditional bills of sale. These Furniture Company and other firms who had sold the furnishings to the loan firm on conditional bills of sale. These companies set to work removing everything in sight. Light had been barricaded in the offices since Friday night, holding possession against St. John Dix and him \$100.

Light declares that he was taken into the firm as a partner and was to be given one-third of the capital/stock for his labors. About Friday he decided that his associates were trying to defraud him and he refused to leave the office until he was given \$100.

They have made every sort of an effort to gain possession of the offices, but as the authorities refused to help them they have been helpless.

Light decided to leave the office this morning after he had failed to find anything that he could take that was worth \$100. He still carries around in his pocket the keys to the locks that were put on for the purpose of keeping him out of the offices. No one can gain amittance unless with Light's ermission. He declares that he would pipt to the courts for a receiver were in not that when the furniture company githrough this morning there was nothing of which a receiver could take possession that could be turned into mery thing this morning there was nothing of which a receiver could take possession that could be turned into mery when the morning and demanded a warrant for the arrest of Light for threatening their lives. Although they arrayed and pleaded for a warrant and told the prosecuting attorney what a "prominent attorney" told them his duties were the first fere. He suggested that they invoke the aid of the civil court.

> Victoria Does Not Like Ruler's Habits.

The Times Special Service,

LONDON Monday, May 1.—The prospect of having a king for a son-in-law does not seem to be a great boon to the Duke of Connaught, whose daughter, the Princess Margaret Victoria, has been selected to be the future consort of King Alfonso of Spain, according to coart rumors.

selected to be the future consort of King Alfonso of Spain, according to court rumors.

The Duke of Connaught is a fond father, and some of the pranks accredited to the youthfu. king are not altogether to his liking. He wishes to be certain that the premature cop of wild outs that the king seems to be industriously sowing has been reaped before he will even discuss an engagement.

The Spanish king sadvisors, on the other hand, are just as anxious to see the king married as the Duke seems unwilling to sametion an altiance at the present time. They are constantly indread as to the turn that the mad fancy of the king may take. His escapades cause more worry to Alfonso's ministers than to any one else. They believe that if he were married it would have a great influence toward causing the young ruler to settle down and recognize the responsibility that rests upon the head that wears a crown. For this reason they would half with joy an early marriage for Alfonso.

There is another reason, too, for their anxiety for the king to marry. The chances of assassination would be materially diminished if there should be an heir to their throne. The question of marriage to the Princess Victoria is by no means shelved, as the princess appears to be the most suitable bride for Alfonso, and it is not likely that the Spanish ministers will allow the question to be dropped. It is probable that powerful influences will be brought to bear on the Duke of Connaught to overcome his opposition, as it is believed King Edward favors the match. Rumor has it that the English sovereign, especially desires an alliance between himself and the reigning house in Spain for the reason that such a marriage would check the ambitions of Kaiser William, who has industriously sought on several occasions to foster an alliance between King Alfonso and some one of the German princesses.

If King Edward is really determined upon the match and the question of the difference of religion between the young people is amicably arranged, it is not likely that the Duke of Connaught will venture to oppose his royal brother's will.
