CHINESE TREATED WITH COURTESY

Two Hundred and Sixty-two Celestials Came Into America in August and Entrance Was Denied None.

Immigration Inspectors Said to Have Passed All Doubtful Cases for Fear of Being Removed by President.

WASHINGTON BUREAU
of
THE SEATTLE DAILY TIMES
and
THE PUGET SOUND AMERICAN.
901 Colorado Bldg., Monday, Sept. 25.

LATE returns from the various immigration ports indicate that the President's order regarding the modification of the Chinese exclusion act is still being rigidly observed.

During the month of August, which is the latest month for which complete returns are available, not a single Chinaman was barred under the terms of the exclusion act. This is the first month since the law was enacted that such a record has been made, and it is directly ascribed to the President's order.

During August 262 Chinamen presented themselves at American ports and sought admission. All were admitted save nine.

Afflicted With Disease.

These were rejected not because of the provisions of the law against the admission of Chinese laborers, but because they were found diseased and were examined by special boards of inquiry and rejected because of this fact.

This record emphasizes a point that has been raised in some quarters, that the entire immigration service has been in a state of demoralization since the issuance of the President's order that Chinese immigrants must be treated with more consideration. Inspectors all along the line are apparently afraid to take any chances on having complaints filed against them, and are not going behind the returns in determining whether or not an arriving Chinaman is a coolie or a merchant.

Immigrant's Word Accepted.

If the stranger says he is a merchant, or formerly lived in the United States, apparently his word is accepted without question and he is invited to enter.

A few months ago the rejections embraced about 10 per cent of the arrivals. For the past two months a commission of three experts in the immigration service has been at work on a modification of the existing regulations affecting Chinese. Its object is to make them so mild and inoffensive that the most captious Chinese official will be unable to make complaint about them. When the modified regulations are issued a howl from the labor unions may be looked for. The regulations that are now being looked into have been in effect for years and are the outgrowth of test cases which for the most part have been decided in the courts.

There is an element in the immigration service that is strongly opposed to modifications, on the ground that they tend to weaken and destroy the laws for the protection of the country against undesirable aliens.

W. W. JERMANE.

ACCUSED OF STABBING FRIEND IN THE BACK

M. A. Brooks in City Jail Charged With Inflicting Severe Wound on Robert Barnes.

Robert Barnes is confined to his room in the New England Hotel with a four-inch knife wound in his back just at the base of the left shoulder blade. J. M. Brooks and H. A. Brooks, both of whom say they are laborers, are in the city jail charged with the assault.

Sergt. Powers and Patrolmen Burkman and Crandall made the arrests early this morning. As near as the officers could learn, Barnes, the two Brookes, and others were seeing the sights in the tenderloin district. They became involved in a fight in a saloon. The barkeepers succeeded in stopping the fight there and driving the participants into the street.

Barnes, it is said, was trying to escape his companions and was on his way up town, when J. M. Brooks approached him on one side and held him while H. A. Brooks drove a knife into his back. The alleged assailants then ran.

Barnes fell over into the street and fainted. The officers ran to the scene and called Dr. Wiltse, who dressed the wound at police headquarters and sent Barnes to his room.

While the Brooks say they are laboring men, they do not have that appearance. Their hands are soft and they wore the garb of well-to-do citizens.

Army Surgeon Kills Himself.

ATLANTA, Ga., Monday, Sept. 25.—Capt. G. M. F. Godfrey, assistant surgeon in the United States army, stationed at Fort McPherson, committed suicide late Saturday night by shooting himself through the brain with an army revolver at his residence at the post. Capt. Godfrey was a son of Col. E. S. Godfrey, commander of the Ninth United States Cavalry stationed at Fort Riley, Kansas.

OLD SORES
ROOTED IN THE BLOOD

Old Sores are the result of a deeply polluted, foul blood supply. The blood is filled with poisons, and as it finds an outlet through the ulcer, the surrounding parts become diseased and the sore eats deeper into the tissues and flesh and becomes a permanent trouble.

Some years ago while at work, I fell over a truck and severely injured both of my shins. My blood became poisoned as a result, and the doctor told me I would have running sores for life, and that if they were closed up the result would be fatal. Under this discouraging report I left off their treatment and resorted to the use of S. S. S. Its effects were prompt and gratifying. It took only a short while for the medicine to entirely cure up the sores, and I am not dead as the doctors intimated I would be, neither have the sores ever broken out again, and some twelve years have elapsed since what I have described occurred. Having been so signally benefited by its use I can heartily recommend it as the one great blood purifier.
Wheeling, W. Va. J. W. FUNDIS.
Care Schmulback Brewing Co.

Salves, powders, plasters, etc., do no good, and the sufferer gets disgusted and often despairs of curing an old sore. The trouble is in the blood and until the poisonous matter that is keeping up the ulcer is driven out the place cannot heal. S. S. S. reaches these old sores through the blood by removing every particle of poison or impurity from the circulation and building up the system. It makes the blood healthy so that as it circulates to the diseased parts the tissues are strengthened and the sore can heal naturally and permanently. If you have an old sore or ulcer do not waste time with salves, powders, plasters, etc., but write for our book and ask for any medical advice you wish. We make no charge for either.

HOLD WHIP HAND IN ORIENT

England's Purchase of Docks at Singapore Gives Her and Japan Immense Advantage Where Far East Is Concerned

Gives Alliance Command of Gateway to Pacific—Simply Facing Result of Conditions, Not Making Demonstration.

By Associated Press, Special Cable via Leased Wire.

LONDON, Monday, Sept. 25.—The fact that the British government purposes to establish a vast naval base at Singapore, which was announced by the Sunday Observer with the suggestion that this was the first tangible result of the new Anglo-Japanese alliance and the conclusion of the Russo-Japanese war, affords the newspapers an opportunity to discuss the situation of using Singapore as a base, which was announced some time ago when Admiral Fisher outlined the reorganization plan.

The newspapers now point out the tremendous strategic value of Singapore as guarding the gateway of the Pacific, and when open to Japan's war vessels as giving Great Britain and Japan the whip hand over the other European countries when the Far East is concerned.

Some of the morning papers are inclined to dwell upon this phase of the acquirement of the Singapore docks as though at this time it was a demonstration of power by Great Britain. But the government's intention to purchase the docks at Singapore has been an open secret for many months, and according to good authority the British government is simply facing the result of the new strategic situation in the Far East and providing her navy with convenient docks at Singapore, which is the center of the Far East.

The Japanese alliance permitted the withdrawal of five battleships from the China Seas and there is no intention in times of peace to dispatch a battleship to the Far East. The three cruiser groups—the China, the East Indies and the Australian squadrons—will remain as before.

Meanwhile the extensive docks of the Tanjong Pagar Company will be purchased at a price to be fixed by the arbitrators now in the Far East, of which board Sir Michael Hicks-Beach is the umpire, and Great Britain will have one of the finest naval bases in the world, and one which, in the event of war, would be of the highest strategic value.

WITTE WANTS TO RETIRE

BERLIN, Monday, Sept. 25.—The future of M. Witte is the subject of much talk among his friends, to whom he says he intends, after aiding in the settlement of the questions immediately connected with the peace negotiations, to ask Emperor Nicholas' leave to retire from the public service.

What the Russian emperor's reply will be no one, of course, knows, but one of M. Witte's friends said to him that Emperor Nicholas would probably say that as a patriotic Russian his duty was to remain in public life and give the country the benefit of his prestige abroad.

Chancellor Von Buelow came to Berlin from Baden this morning and received M. Witte. They talked for more than an hour.

M. Witte's comings and goings are watched for at his hotel so continually that he used a private entrance on a back street today.

When he arrived at the railway station yesterday, M. Witte said to the members of the Russian embassy staff, who met him that he preferred to walk to his hotel. A great crowd had assembled in front of the hotel, expecting to see him arrive in a carriage, and he and party made their way quietly through the crowd into the hotel without their presence being noted. M. Witte inquired of the hotel manager what caused the crowd.

"The people are waiting to see your excellency," the manager replied.

"Then let me get to my rooms as quickly as possible," said M. Witte.

BUILDING COLLAPSES AND BURIES WORKMEN

Rescue Party Takes Ten Laborers From the Ruins and Two Are Still in the Debris.

BUFFALO, N. Y., Monday, Sept. 25.—A brick building in course of construction on the north side of Ferry Street, near Herkimer Street, collaspsed this afternoon. The crash came without warning and at least ten men working on the building were caught in the ruins. Two men who were taken out were badly injured.

At 3 o'clock eight men had been rescued. All of them were badly injured. It was reported that two men were still buried in the debris.

EPIDEMIC AFTERMATH AMONG THE JAPANESE

Seven Cases of Typhoid Found During Past Week in the Downtown Colony.

Within the past week seven Japanese have been taken to the Seattle General Hospital with typhoid fever. None of the cases are particularly serious and City Physician Ludlow does not believe that the epidemic of the disease, which has died out largely among the white residents of the city, has spread generally in the Japanese colony.

"I do not think, from my investigations, that there are any more than the seven Japanese who have the disease at the present time," said Dr. Ludlow this morning. "I have been through the district pretty thoroughly and find no indications of any more cases. There is nothing for the Japanese of the city to be alarmed about from the fact that half a dozen of their people have been taken ill in a short space of time."

FRANKLIN REGRADE MEETS OPPOSITION

Residents Already Fifteen Feet Above Street Protest Against Doubling Precipice.

Franklin Avenue property holders and residents are fearful that if the board of public works succeeds in getting through the grading work on that street at present contemplated the householders will be confronted with conditions that will be absolutely dangerous to life and limb. It is at present in contemplation to cut the street to fifteen feet below its present level.

According to a petition filed with the board of public works this morning, as a consequence of a previous cut houses are fifteen feet up in the air, and if another cut be made residences will be standing in the air thirty feet above the street.

Assistant City Engineer Jeffery is investigating the complaint and upon his report largely depends the fate of the alleged improvement work.

Mrs. A. L. McKeller Dies.

Mrs. Annie Lavine McKeller, aged 26 years, died this morning at the family home at 2010 Ninth Avenue South. She was the wife of D. P. McKeller. The funeral will be held at 2 p. m. Thursday from the Bonney-Watson chapel. Interment will be made at Lake View Cemetery.

WILL PLEAD FOR NEW ISSUE

Meeting to Be Held at Germania Hall Saturday Night to Advocate Adoption of Municipal Ownership Policy.

Circular Letters Sent Out Calling Attention to Benefits From Control of Street Railways and Telephones.

A municipal ownership mass meeting will be held at Germania Hall Saturday evening. Circular letters announcing the meeting appear to have been prepared on the same typewriter that was used to disseminate the views of John E. Humphries when he was waging his campaign before improvement clubs. But Mr. Humphries will have company in the meeting of Saturday night. The circular proclaims the list of orators to be: George Cotterill, Fred H. Peterson, Joseph Smith, Frederick Burch, John R. Parker, F. M. Jefferies, A. J. Speckert, P. C. Dormitzer, Thomas H. Cann, Judge James McNeny, John E. Humphries, Herkimer Johnson, Nicholas Schmidt, John C. Murphy, Frank Adams, Wilson R. Gay, T. D. Page, J. M. Rummell and others.

The appeal for attendance reads:

"All ladies and gentlemen in favor of municipal ownership of street car lines and telephone systems are invited. All laboring men, mechanics, clerks and others who favor the workingman's train night and morning at a one-cent fare, and all persons who favor cheap telephone, water and light rates are asked to be present.

"The Honorable George Cotterill will tell of his observation of municipal ownership on his last trip to Europe. It will also be explained that the plans and specifications drawn for the Moore-Gilman franchise are ready to be used by the municipality. The money can be borrowed upon the proposed franchises without limitation at a low rate of interest, and lines constructed, under municipal ownership, at once."

A second announcement containing the same array of speaking talent, outlines the meaning of municipal ownership as follows:

1. A 1-cent street car fare night and morning for all distances to laboring men, clerks, mechanics and working men generally, a saving to each of at least $24 per year.

2. Cheaper street car fares generally, which will be a saving to each working man's family of an additional sum of $24.00 per year, making a net saving to each working man and his family of not less than $50 each year.

3. Instead of $72 per year for office phones, it will be $24 and less, a saving on each office telephone of at least $48 per year.

4. House telephones, now $36 per year, will be furnished for $12, a saving of $24 on each house telephone; four party line telephones, now $18 per year, will be $9 per year. The telephone is now a necessity instead of a luxury, and by municipal ownership it will be put within the reach of the poor man and his family.

Under the statutes, the proposed Moore-Gilman franchise lines can be built by the city. Money can be borrowed on the lines at a low rate of interest, payable out of the incomes of the lines. $1,500,000 or $2,000,000 of profits each year will be saved to the people. In the borrowing of the money the city will not be limited to thirty, forty or fifty years, but can make any terms it desires for a low rate of interest.

In every one of the 142 tramway lines in the United Kingdom there have been low fares and a profit of $1 per capita for the city, and all are a success.

In Glasgow, Scotland, a private corporation has 7,000 telephone subscribers at $6 per year.

SENATOR PILES TO VISIT EAST SIDE

Will Leave This Afternoon to Join Ankeny and Make Tour of Many Counties.

United States Senator S. H. Piles leaves this afternoon to join Senator Levi Ankeny at Walla Walla and to go with the senior senator on a tour of Eastern Washington. They will attend the state fair at North Yakima, the Walla Walla fruit fair, and the fair at Wenatchee while on the trip. Every important east side town will be visited during the next three weeks. Dayton will be visited tomorrow.

Senator Ankeny is well acquainted throughout Eastern Washington and he will introduce Senator Piles at those points where the junior senator is not well known. The itinerary of the trip shows that the two men will have to make train connections that would deter many from undertaking the journey. Many of the connections are made late at night and the entire time will be devoted to conferences with the people to ascertain legislative wishes.

When this trip is completed the two senators will have covered the entire state completely. They made a tour through Western Washington during this month, which included short stops at all points where congressional aid is desired or where the country was not familiar to the two senators.

STUDENT DEBT MUST BE PAID OFF THIS YEAR

Efforts Being Made at State University to Increase the Size of the Football Squad.

A tone of conservatism and economy in all athletic affairs, with an earnest intention of paying off the student debt, marked the addresses of the student leaders at an enthusiastic rally held at the State University today. The regular assembly period was given over to the students and Denny Hall was crowded to the limit by those anxious to hear the discussions of the various enterprises of the year.

Joseph Dootson, vice-president of the student association, opened the rally with a review of the financial situation and made an eloquent plea for moderation in the conduct of affairs, and for earnest cooperation in all that was undertaken. He ended by exhorting the men not to place fraternity or other interests above that of their university.

Coach Cutts and Capt. McDonald of the football squad followed in eloquent and humorous addresses on the football prospects for the season. Both speakers deplored the smallness of the squad, which has turned out and made earnest appeals that the number be increased this week.

After asking that more men turn out, Coach Cutts declared that he did not know what kind of teams they would have to meet, nor did he care.

"Give me the men," said he, "and I will train them to meet the best there is in football, even though it be Harvard or Yale."

LICENSES ARE SUSPENDED.

Captains of Tugs in Collision Punished by Marine Inspectors.

Tennes Olsen, captain of the tug Enterprise, and Capt. Andrew Benson, mate of the tug Magic, have been punished by United States Marine Inspectors Whitney and Turner for violating the navigation laws. Their licenses have been suspended for fifteen days.

September 3 the tugs collided near Appletree Cove. At the investigation it developed that the two captains had failed to sound the proper passing signals. Both were found equally to blame.

Rev. Donald Ross Holds Meetings.

The Rev. Donald Ross, superintendent of the American Bible Society for Washington, yesterday held meetings in Brighton church in the morning and in the U. P. church, Green Lake. Both were well attended.

Carpenter Injured.

While working on the Franklin House in North Seattle this morning Dan Murphy, a carpenter, fell from the building and injured his back. He was taken in the ambulance to Wayside Emergency Hospital.

BALLARD MAN IS WRECK VICTIM

One of Three Men Killed in Collision on Northern Pacific Near Arlee, Mont., Identified as J. W. Saler.

With Others Was Beating His Way—Operator Who Is Alleged to Be Responsible for the Disaster, Disappears.

The Times Special Service.

BUTTE, Mont., Monday, Sept. 25.—The identity of the three young men killed in a wreck on the Great Northern Railway near Arlee, Mont., Saturday evening was learned last night.

Two of the victims are J. W. Salor, 436 Baker Street, Ballard, Wash., and Joseph Harrington, of Spokane. The third victim is Charles E. Fetters, of Dayton, O. The identification was established through letters and other correspondence found on the bodies of the men.

The men had been beating their way on a freight train and were caught in the collision. C. Carter, the operator, whose negligence, it is alleged, was responsible for the disaster, has disappeared.

LOST BOND FOUND IN SAFE IN COUNTY JAIL

Document Upon Which J. G. Vincent Secured His Liberty at Last Discovered—Clerk Case Not to Blame.

At the suggestion of Prosecuting Attorney Mackintosh, a search was made yesterday of the safe in the county jail office, with the result that the bond was found upon which J. G. Vincent, charged with grand larceny, obtained his liberty. When the defendant failed to appear for arraignment a week ago Saturday, the bond was found to be missing. A search made at that time failed to disclose its whereabouts. A letter from the Everett attorneys who represented Vincent to Prosecuting Attorney Mackintosh stated that the bond had been left in the jail office.

The bond, though recovered, is said to be worthless because of financial irresponsibility of the signers.

The finding of the paper makes it clear that County Clerk Case's office was in no way responsible for its disappearance. At the time of its loss the clerk was blamed because of the fact that he is the legal custodian of bonds.

Vincent is charged, together with H. Sweeney, with the theft of a freight car containing a quarter of a ton of gold ore and several hundred feet of steel cable from a freight siding of the Dutch Miller Mining Company at Skykomish. Sweeney has been in jail for several months awaiting trial. The present whereabouts of Vincent are unknown.

PASSION NEEDED IN PULPIT.

Dr. Dawson Speaks to Pastors at His Noon Meeting.

Himself a conspicuous pastor for years in London, Dr. Dawson took the pastors of Seattle into his confidence at his noon meeting at the Grand today and talked to them on local evangelism.

"What is the keynote of evangelism?" he asked. "It is a passion for souls. The one thing we cannot do without in the pulpit is passion. As the pastor is, so will the church be."

Some two years ago Dr. Dawson spent a vacation of great mental and spiritual unrest. In his own parish less than one-fifth of the vast population ever attended church. He arranged with Gypsy Smith to conduct a mission in his own church. They spent seven months getting ready for the great meetings.

By the time the mission opened the church was tremendously aroused and interested. So deep was the enthusiasm that Dr. Dawson gathered a thousand of his best members and marched down through the slums of the city. His deacons went into the saloons and invited all kinds of men and women to join the procession. A multitude did so and when the company returned to the church 700 men and women more or less the worse for liquor were seated in that fashionable church.

"You ought to have heard them sing, 'Rescue the Perishing.' They sang with tears and sobs," he said.

Dr. Dawson paid a high tribute to the rescue workers of the London Catholic Church and the Salvation Army.

At the conclusion of his remarks the doctor gave an opportunity for questions, and his replies threw a flood of light upon the problems of the great work he proposed. He told of a fine looking man who came to his London meeting and listened with tears in his eyes. Dr. Dawson said to him: "Tell me your trouble, sir. Tell me the straight of it."

The man looked at him a moment and then pronounced the one word "Drink."

"Get down on your knees and sign the pledge if you really want to reform."

The man stood for some moments thinking. Then he said: "Will you write me a pledge?" "I will," and the doctor wrote it with his own hand. The man looked at it a long time. Then he said, slowly: "William Smith, you never yet dishonored your signature in business. By God's help you'll not do it now." He signed the pledge and from that moment has not touched a drop.

Tonight Dr. Dawson preaches at Plymouth Church at 8 o'clock, and tomorrow at the Grand Opera House at noon.

DEEP SEA VESSELS

TATOOSH, east, twenty-five. Yesterday, inward: Steamers Valencia, 7:40 a. m.; Algoa, 8 a. m.; City of Puebla, 12:40 p. m. Outward: Steamer Meteor, 2:10 p. m. Today, outward: five-mast schooner, 8 a. m.

JOHN P. ST. JOHN TO SPEAK

The Great National Prohibition Leader Will Deliver a Temperance Address at the New Labor Temple Tonight.

He Was at One Time the Governor of Kansas and Led His Party in the Great Presidential Fight of 1884.

Hon. John Pierce St. John, ex-governor of Kansas and presidential candidate for the Prohibition party in 1884, will reach Seattle late this afternoon and tonight will deliver an address on prohibition in the new Labor Temple, corner of University Street and Seventh Avenue.

Mr. St. John is one of the strongest prohibition workers in the world today. He went to Portland recently for the purpose of delivering an address before the Temperance Congress assembled there, and his speech was the hit of the meeting. While he voted for Bryan in 1900 he has always been a strong supporter of prohibition and is firm in his belief that some day the greatest statesmen in the Union will be found fighting under the banners of the water wagon party.

Among the men who are to desert the old parties for political Prohibitionism, he named Governors La Follette of Wisconsin, Deneen of Illinois, Hanley of Indiana and Folk of Missouri. Each name brought a round of applause in Portland, as Mr. St. John marshaled its owner under the Prohibition flag, and the applause became boisterous when the cheerful optimist stretched his prophecy to include Bryan and Roosevelt. Of these statesmen he said:

"William Jennings Bryan is coming our way. He is a man of faultless habits and splendid personality.

"And there's another man whose bravery no one questions—at whose approach the very bears come down and surrender. He understands nothing of this question now, but when he wakes up to the magnitude of the liquor evil—when he realizes that it menaces every home in the land, and even the perpetuity of our government, then Theodore Roosevelt will lead the Prohibition movement."

NAVAL ARMISTICE NOW AGREED UPON

Admirals Jessen and Kamimura Arrange Line of Demarcation Along the Coast.

ST. PETERSBURG, Monday, Sept. 25.—Details were obtained today of the naval armistice and demarcation line along the Siberian coast arranged by the Japanese and Russians September 18. The line of demarcation which cannot be traversed by armed warships or vessels of either country starts from Cape Rodsonoff, runs east and then runs north through the middle of the Straits of Tartary to Cape Elizabeth, thence east to near Kamchatka, thence south to longitude 50° 50' north and then east again to the Kommander Islands, about five degrees north of the line. The narrowest part of the Straits of Tartary is made neutral; that is to say, ships of neither country can traverse it.

At the beginning of the conference Admiral Kamimura, for Japan, proposed to establish a line from coast to coast about forty miles south of Vladivostok, but Rear Admiral Jessen, for Russia, rejected the proposition.

All the details of the armistice in Korea have not yet been settled.

MISS ALICE ROOSEVELT AND PARTY ARE RESTING

Visit to Korea Losing Its Official Character and Picnic Parties Being Planned.

SEOUL, Monday, Sept. 25.—Miss Alice Roosevelt and party yesterday attended the athletic sports of Japanese school boys. The party was received by the Japanese educational committee. The entire party is now resting after the strenuous weeks spent in Japan, Manila and China.

The visit is largely losing an official character and the party will spend some time at picnicking and riding in the hills of Seoul and vicinity.

NEW BANK AT COLFAX.

Pioneer Institution to Be Reorganized With $100,000 Capital.

COLFAX, Wash., Monday, Sept. 25.—A new bank, with a capital of $100,000 is to be added to Colfax's financial institutions on November 1. The Bank of Colfax, the first bank organized in Eastern Washington north of Snake River, is to be converted into a state or national bank, on that date. The bank has not been doing much banking business for several years, but J. A. Perkins, the owner, has decided to organize a modern banking institution, and most of the stock will be taken by citizens of Colfax and vicinity.

A Seattle capitalist, whose name is not made public, offered to take the entire capital stock, but it was decided better to sell the stock to local men in small amounts. With the opening of the Farmers' State Bank here on October 1, Colfax will have four banks. The bank deposits of Colfax run from $1,500,000 to $2,000,000 and immense profits have been made. Dividends of 60 per cent and more have been paid in a single year.

CATHOLICS UNITE THEIR MILITARY SOCIETIES

New Federation Represents a Membership of Thirty Thousand Men in the United States.

CHICAGO, Monday, Sept. 25.—Commanding officers of the Catholic Knights of America and of the Knights of St. John took the first step yesterday toward amalgamating all Catholic military orders in the country under the general name of the Catholic Military Federation of America.

The federation was organized by a committee from each order at a secret meeting held here.

Harmony prevailed throughout the meeting and officers and members of the executive committee for the new federation were elected, headed by Dr. Hubert Stratton, of Chicago, as president.

The federation represents a membership of 30,000 men, 20,000 of whom were members of the Knights of St. John and the remainder members of the Catholic Knights of America.

The federation will hold its national encampment at Buffalo next June.

Suffering Humanity

We can refer you to the best banks and leading business men of Seattle. Write for Symptom blank if living away from city. Thousands cured by correspondence.

IT'S TIME

DR. KELLEY

Longest Established, Most Successful and Reliable Specialists in Diseases of Men and Women, as Medical Diplomas, Licenses and Newspaper Records Show.

We Cure the Cases That Others Cannot Cure

A bold statement, but just as true as it is bold. Not all cases that others fail to cure are curable by our methods, but fully 90 per cent of them. The way to learn whether your case is curable is to consult us. We know exactly what can be done in every instance. We ought to know this, for we have done nothing other than treat men and women diseases for 20 years. If your case is curable, we will treat you. If it isn't, we will not.

For every afflicted man to know he can come to our office and we will make a thorough and scientific EXAMINATION of your ailments; an examination that will disclose your true physical condition, without a knowledge of which you are groping in the dark. If you have taken treatment elsewhere without success, we will show you why it failed. We want all ailing men to feel that they can come to our office freely for examination and explanation of their condition without being bound by any obligation to take treatment unless they so desire. Every man, whether taking treatment or contemplating same, should take advantage of this opportunity to learn his true condition, as we will advise him how to best regain his health and strength and preserve such treasures unto ripe old age.

WE MAKE NO MISLEADING STATEMENTS or deceptive propositions to the afflicted; neither do we promise to cure them IN A FEW DAYS in order to secure their patronage, but we guarantee a COMPLETE, SAFE AND LASTING CURE in the QUICKEST POSSIBLE TIME, without leaving injurious after-effects in the system, and at the lowest cost possible for HONEST, SKILLFUL AND SUCCESSFUL TREATMENT. We cure

Varicocele, Nervous Debility, Blood and Skin Diseases, All Rectal and Kidney Diseases

And All Diseases and Weaknesses.
