

# BLOOD, SACRIFICE WILL WIN—LEAR

KANSAS CITY, Friday, Feb. 20.—(AP)—Lieut. Gen. Ben Lear, a stern military disciplinarian of few words, last night assailed wishful thinking in a war he said would be won not by a golden Maginot Line but by blood and sacrifice.

The commander of the Second Army—who made a whole battalion march 15 miles in the hot sun last July for yoo-hooing at girl golfers in shorts, told a university club forum "great will be our folly if we think our dollars will give us security."

"Never overlook the fact that no matter how fine and how considerable the equipment that our factories produce and our ships deliver," the general said in a prepared speech "it is the man whose flesh is vulnerable but whose spirit is invincible, who will win the battles and bring victory. Your sacrifices will be light compared to theirs."

"Let Us Not Err"  
"France built a Maginot Line and took confident refuge behind its protection. Let us not err spiritually and morally—and let me add, strategically—by mentally building a golden Maginot Line. General Lear called for intensified application by labor and capital alike "to give without stint of their efforts just as the soldier may be called upon to give his life."

Every industrial conflict now, the general added, will be one for which "blood of our men in uniform will pay the price of our Allies upon whom we depend, without whom we would suffer far more greatly."

General Lear spoke of the need for disciplining and training in the Army, saying many of the nation's casualties in the last war were caused by lack of them. He said this time soldiers would go into battle much better prepared.

"Bullets Do Not Condone"  
"It is not the soldier's friend who condones his lapses," the general emphasized. "Battle bullets do not condone."  
Lear attacked talk of the "kind of peace to be made" and of criticizing the country's Allies.

"If Hitler were to direct our thoughts, he would say that we are doing quite well—for him—if we pin our minds to the problems of peace after the war we have not won, if we are gravely concerned and chatter among ourselves in worry over the future of Europe because Russia is an ally . . ."  
The commander asserted that not since 1812 has the United States faced such a life-and-death test.

"We have been inured to no great hardships caused by such a struggle. We have suffered no widespread losses of our young men in war with other nations. We don't know what it means. Sincerely I must warn you that we are going to learn."

## Lone Filipino Kills 11 Japs In One Battle

By FRANK HEWLETT  
United Press Foreign Staff  
WITH GENERAL MACARTHUR'S ARMY IN THE PHILIPPINES, Friday, Feb. 20.—Pvt. 1st Class Narcisco Ortillano has just set a new Bataan Province record. He has killed 11 Japanese soldiers, single-handed, in one engagement.

Ortillano, a veteran in the Philippine Scouts, has been recommended for the Distinguished Service Cross by his commanding officer.

Ortillano's feat occurred during an engagement in which his machine-gun was attacked by 11 Japanese.

Four of the Japanese went down under Ortillano's gun before it jammed. The Filipino whipped out his automatic and picked off five more Japanese. Then that jammed, too.

Two Japanese with bayonets fixed were still advancing on Ortillano, who was now without a weapon, but the trooper held his ground.

One Japanese jabbed his bayonet at Ortillano, cutting off the Filipino's thumb. However, Ortillano wrested the weapon from the Japanese's hands and killed the man.

Ortillano then whipped around and shot the eleventh Japanese with the captured rifle.

# WISE GROUP TO FIGHT EVACUATION

By Associated Press.  
LOS ANGELES, Friday, Feb. 20.—Fifty hundred Nisei, second-generation Japanese-Americans—organized the United Citizens League last night preparatory to a fight to prevent loyal aliens and citizens of Japanese descent from being evacuated inland from the Pacific Coast.

"We need action and need it now," declared Larry Tajiri, former Washington, D. C., correspondent for a Japanese news service. "We are loyal to the American flag, but race hatreds are being stirred up now in the Fascist pattern."

Joseph Shinoda, florist and former member of the Anti-Axis Committee, demanded that authorities give Japanese-Americans a part in the war effort.

Nearly 1,000 Japanese aliens recently have been taken into custody in California and many official and civic groups have demanded that every Japanese be moved inland at least 200 miles.

"If the Army and Navy say we are a menace, let's get out. But if it's merely a question of fighting politicians that would gain favor by hopping on 'those defenseless Japs' we should fight them to the last ditch."

University Post No. 11, of the American Legion yesterday adopted a resolution urging removal of all Japanese. German and Italian aliens—and all others "who now enjoy the Axis privilege of dual citizenship"—from the Pacific Coast.

"Japanese, Germans and Italians, even though they may be born in America, are classified as nationals of their respective homelands and are looked upon as citizens, so far as the laws of those three countries are concerned," the resolution said.

Without complete and public renunciation of this citizenship by the American-born descendants of these nationals, they are, in the eyes of the Legion, alien enemies.

Rizal Post No. 142, Seattle, and posts at Wenatchee, Naches, Toppenish and Richland also adopted resolutions urging evacuation, with varying degrees of severity, in dealing with the problem. The Toppenish, Naches and Wenatchee posts recommended removal of enemy aliens from those areas as well as from the Pacific Coast.

The mayor called attention to a Portland City Council resolution enacted yesterday which urged the federal government to immediately remove all aliens from the Coast.

# JAPANESE MUST GIVE UP BUILDING

Because the funds of Charles T. Takahashi, Seattle Japanese business man who is charged with conspiring to ship war materials to Japan fraudulently, have been frozen by the Treasury Department, possession of the Dover Apartments, 901 Sixth Ave., was to be taken from Takahashi today.

Harry W. Crosby, owner of the apartments, obtained a writ of restitution order from Presiding Superior Court Judge Clay Allen, directing Takahashi to restore possession of the building to the owner.

Takahashi, president of the Dover Apartments Corporation, had been purchasing the 60-apartment building on a conditional sales contract. Crosby made a showing that the Japanese no longer could keep up \$750 monthly payments because funds held by Takahashi have been frozen.

West led the club queen. Declarer saw his contract was safe if the diamond ace was on side, but properly ast about for a plan that would be effective if East had the ace.

After cashing only the spade ace, declarer cashed his second club trick, then overtook his nine of trumps to ruff dummy's last club. Now, since his plan of play involved leaving at least one trump in dummy, he drew only one more trump, then cashed the heart king led to the ace, and played a third round.

East naturally came up with the ten spot, which would have held the trick if West had been guilty of the "every man for himself" policy. East could not have exited without presenting declarer with the vital trick.

West was not disposed to let his partner dangle helplessly over a cliff. It had become obvious that, unless the defenders could take three diamond tricks, they could not defeat the contract and to achieve that end, the diamond lead would have to go through the king.

On this simple analysis West made the saving play. He ruffed his partner's trick, then led the diamond queen. The declarer had to surrender.
