STIMSON BACKS PRE-DRAFT STUDY

WASHINGTON, March 19.—(AP)—Secretary Stimson gave War Department approval today to "pre-induction" training of men in colleges and local communities, but stressed that additional military equipment and instructors could not be spared from the armed forces for that purpose.

Stimson also announced an Army undertaking to give enlisted men the opportunity to carry on correspondence courses through an Army institute established at Madison, Wis., and some 80 cooperating universities and colleges.

In local civilian communities, Stimson advised that the War Department favored voluntary training of men prior to their induction into the armed forces, but could not accept its control, supervision or operation. He advised that educational and vocational training, including swimming, be emphasized.

The Army institute, in cooperation with the University of Wisconsin, is headed by Lieut. Col. William R. Young and will take applications after April 1.

Stimson said that about 100,000 men and women would be trained in the next year for War Department civilian jobs, such as mechanics, production workers and inspectors at arsenals and depots. Men must be over 44 years of age or between 17 and 20 and ineligible for Selective Service, or not liable for Army duty for other reasons.

Seamen's Union Head Freed

TORONTO, March 19.—(AP)—Pat Sullivan, president of the Canadian Seamen's Union, who was interned June 20, 1940, under the Defense of Canada Regulations, principally because he was a Communist, has been released, it was announced by J. L. Cohen, his lawyer.

Chiang Felicitates M'Arthur

CHUNGKING, March 19.—(AP)—Generalissimo Chiang Kai-shek cabled congratulation today to Gen. Douglas MacArthur on his assumption of supreme commander of United Nations forces in the Southwest Pacific.

Tire, Gas Shortage Won't Cut Traffic Deaths, Says Kreml

Shortage of gasoline and tires will not decrease traffic fatalities in Seattle, it was declared today by Lieut. Franklin Kreml, nationally known traffic expert who recently concluded a traffic-control survey in Seattle.

At a meeting in Mayor Earl Millikin's office, attended by the City Council, police and engineering officials, Kreml outlined his report on reorganization of the police traffic division.

"Experience has shown that traffic accidents and fatalities will increase because of the war," Kreml said. "For example, England in 1941 had only 35 per cent of the number of automobiles registered that she had in the year before the war, but she hda half again as many traffic deaths in 1941 as she had before the war.

"In the United States there was a 20 per cent decrease in the use of gasoline last January, accompanied by a 7 per cent increase in traffic fatalities."

Mayor Calls Conferences

City officials were enthusiastic about the Kreml plan's possibilities.

Mayor Millikin said he immediately will hold conferences on the report with police and with J. W. A. Bollong, city traffic engineer.

"Traffic deaths in Seattle are *too* frequent," Lieutenant Kreml said. "They can be reduced."

He has recommended reorganization and changes in the Traffic Division which will cost an estimated $250,000 for the first year.

Life-Saving Costly

"The cost of saving lives is expensive, but not too expensive for Seattle," the lieutenant said.

"How much is a life worth?" Kreml asked. "Is a life worth saving? I think so. What does your city think about it?"

LIEUT. FRANKLIN KREML

'How much is a life worth?'

Lieutenant Kreml spoke this noon before a meeting of the trustees of the Seattle Traffic & Safety Council. He speaks tomorrow at the meeting of the Chamber of Commerce, at which time Seattle will be presented officially with the cup which was won from Portland, due to the fact that Seattle had fewer traffic deaths in last October, November and December than Portland.

Auto Faulty, Police Arrest Youth in Pedestrian Death

Declaring that an automobile which fatally injured a pedestrian last night had no brakes on the left side, one headlight that did not work on the low beam and a dirty windshield, police arrested the driver, **John D. Carter,** 18 years old, of 14028 37th Ave. N. E.

Carter was charged with operating a vehicle with defective equipment. Coroner Otto H. Mittelstadt ordered him held in the county jail in lieu of $5,000 bond.

The victim, **William Hanes,** 54 years old, 1427 N. 49th St., was struck by Carter's car in North 45th Street at Densmore Avenue about 11:30 o'clock.

"I was going about 25 or 30 miles an hour," Carter told Sergt. R. A. Richardson and Traffic Investigators H. E. Walmsley and K. E. Campbell. I saw the pedestrian 10 or 15 feet before I struck him. It happened so quickly, I don't remember whether I tried to swerve or not."

Campbell and Walmsley reported to Capt. James E. Moore, head of the traffic division, that the automobile had skidded 150 feet before stopping, that skidmarks showed only on the right side and that they had found no brakes on the left side when they tested the car after the accident.

The investigators said the pedestrian was about 30 feet from the crosswalk when he was struck and wore dark clothing which made him difficult to see.

Four persons were injured, none seriously, when the new automobile in which they were riding was struck by a backing Northern Pacific switch engine and then pushed sideways approximately 130 feet along the railroad tracks last night near First Avenue South and Hanford Street.

Mrs. Kenneth Liebach of Plentywood, Mont., was the most seriously injured. She suffered a fractured left ankle and was taken to Seattle General Hospital. Other passengers in the car, **Mrs. W. G. Smith,** 1830 Seventh Ave. W., and her two daughters, **Virginia,** 17, and **Marion,** 10, were treated by a private physician for minor bruises and shock. Two other women riding in the car were uninjured.

Tires Not Damaged

Traffic Investigators J. M. Butler and H. S. Brady said the accident occurred in Hanford Street, between First Avenue South and East Marginal Way, shortly before 10:30 o'clock. The backing engine, pulling 26 freight cars, was preceded by the engine tender which hit the car.

None of the new tires on the car was damaged.

A four-car collison near the Ballard Bridge tied up northbound automobile traffic almost forty minutes during the rush hour late yesterday afternoon.

Line of Autos Hit

The accident occurred, Traffic Investigator E. E. Covell reported, when a car driven by **Wayne Pickering,** 702 N. 188th St., struck the rear car in a line of parked automobiles waiting for the bridge to raise for a passing boat. Covell said Pickering's automobile struck the rear of a truck driven by **Willard J. Harris,** 11227 Tenth Ave S., which in turn struck the car of **R. G. Johnson,** 1525 W. Dravus St., and Johnson's car was shoved against the car of **Gustave A. Penner,** Richmond Highlands.

The accident occurred shortly before 6 o'clock.

Workers Kick; Japs Quit; Now It's Worse

PORTLAND, Or., March 19.—(UP)—Congress of Industrial Organizations unionists had a chuckle or two today at the expense of some of their Japanophobe members.

As one source put it:

"For several weeks, about six of our men have been moaning about the Japanese C. I. O. men working at the West Oregon Sawmill. The 42 Japanese, many of them American citizens, left the job voluntarily today because they did not want any trouble. As a result, the company had to suspend a night shift because of insufficient labor.

"The six who campaigned against the Japs now are laid off and are condemning them because they left."

F. . Sends GustavMessage

STOCKHOLM, March 19.—(AP)—President Roosevelt sent a telegram today to King Gustav V., expressing hope that Sweden's 83-year-old King would recover speedily from an operation which he underwent March 9. The American-Swedish News Agency reported that the King's physicians said he was well along toward recovery.

U. S. ASKS END OF HOTEL PICKETING

WASHINGTON, March 19.—(AP)—The War Labor Board took jurisdiction toda yin the San Francisco hotel strike and asked the American Federation of Labor joint executive board of Hotel and Restaurant Employes to withdraw the picket lines which have been operating at 18 hotels for more than seven months.

The request was made in telegrams to union leaders, copies of which were sent to officials of the Hotel Employers' Association.

The board announced that it would hold a public hearing on the dispute in Washington April 2.

Britain to Increase Raids, Says Halifax

WASHINGTON, March 19.—(AP)—Germany may expect to suffer "more and more devastating attacks" on its continental strongholds by British bombers and Commando troops when the weather gets better, Lord Halifax believes.

The British ambassador, in a broadcast last night, asserted that such raids already had caused the Germans to keep increasing numbers of their troops immobilized in Western Europe.

For aerial attack, Halifax said, Britain not only has more planes, but the planes are carrying more and heavier bombs.

Nazis Execute Priest

NEW YORK, March 19.—German occupation authorities have executed one Catholic priest and three theological students in Poland, the British radio said today in a broadcast recorded by the Columbia Broadcasting System.

STILWELL HEADS 2 CHINA ARMIES

WASHINGTON, March 19.—(AP)—The War Department announced today that Lieut. Gen. Joseph H. Stilwell of the United States Army had been put in command of the 5th and 6th Chinese Armies operating with British forces defending Burma against the Japanese.

The action was taken by Generalissimo Chiang Kai-shek of China, a brief communique said. (See Page 8 for communique.)

General Stilwell went to China a few weeks ago and served initially as Chiang's chief of staff.

Military officials expressed belief General Stilwell's appointment represented the first time that an American Army officer had been given command of a major body of Chinese troops, although American adventurers have commanded Chinese.

Stilwell, a native of Palatka, Fla., and 59 years old today, was promoted to lieutenant general last month.

A 1904 graduate of the Military Academy, he holds the Distinguished Service Medal for service in France in the First World War during the St. Mihiel offensive.

He has had wide experience in China, beginning with a four-year period as a language student in 1919-23. He served with the 15th Infantry at Tientsin in 1926-29 and again was in China in 1932-39 as military attache at Peiping.

Cellophane Envelope Ban

WASHINGTON, March 19.—(AP)—Cellophane no longer may be used for window envelopes—the kind bills come in—under a War Production Board ruling issued yesterday.

IT DON'T MEAN A THING!

WHAT about the future of men's suits? How will they be styled? What changes will be made to bring about *wool economy?*

There has been so much discussion of these questions recently that we believe the situation should be clarified for men of the Northwest . . .

The matter is quite simple. In the *immediate* future there is only *one* notable change* to be made which will affect you as a new suit buyer. From March 30, your favorite suit store *will not be able* to tailor *cuffs* on your trousers.

Others changes that you have heard about . . . DON'T MEAN A THING . . . for the time being. They all have to do with manufacturing, and the results of such changes *will not reach you* until you buy a suit late this summer or next fall.

You can STILL buy everything in a man's suit to which you have been accustomed. At Lundquist-Lilly . . . this includes drape models, vests with all suits . . . including double-breasted models, all-wool fabrics, two pair of pants, everything—even the cuffs—until March 30.

★ *Quotation from the War Production Board's order effective March 30:*
No person shall finish a pair of trousers made of wool cloth with cuffs or cause such to be finished with cuffs by others for his account.
