

MILL STRIKERS IGNORE U. S. PLEA

FALL RIVER, Mass., March 25.—(AP)—Despite appeals from Undersecretary of War Patterson and the War Labor Board, 1,500 loomfixers and allied workers voted unanimously today against returning to work after a one-day walk-out which is threatening to close Fall River's 18 cloth mills.

Mill officials said that if the walkout of the key workers continued a general shut-down would be caused.

Patterson's message, received by Joseph Ainsworth, secretary of the Loomfixers' Union, read:

"The mills in question are providing items vital to the success of the war-production program. No strike can be permitted to interfere with the even flow of materials from these mills. It is essential that you and your members arrange for immediate resumption of work."

Yesterday 3,500 operatives walked out in protest against a National Labor Relations Board decision rejecting a petition to organize the mills on a craft rather than an industrial basis.

The Fernald Manufacturing Company mill, which employs 600, was closed this morning.

Solon Charges Inconsistencies In Censorship

WASHINGTON, March 25.—(AP)—Representative Bender, Republican, Ohio, wants consistency in wartime censorship. The present kind, he says, is "driving American newspaper correspondents into premature senility."

Bender told the House yesterday: "For two months Byron Price has been carrying on bravely as chief of our censorship. But despite his efforts, the American people continue to be mystified."

Citing cases, Bender said the news of the arrival of American troops in Northern Ireland "was proclaimed to the world, but it required something like painful surgery to dig out the information our boys came from the Middle West. For some reason the Army seemed to believe this was a military secret."

He said the Army procurement division denied permission to print information of new aircraft factories, but "within a few hours from the refusal, a Washington official gave out the entire story personally."

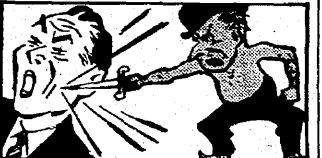

Despite the basic plan for voluntary censorship by publishers, Bender said, "the Army has threatened to use the 1917 Espionage Act to enforce its views on what may and what may not be printed."

Filipinos Don't Like Them, Japs Admit

TOKYO (From Japanese broadcasts), March 25.—(AP)—The newspaper Hochi complained tonight that the people of the Philippines seemed lukewarm toward cooperation with the Japanese.

Hochi attributed this to the fact that "the Filipinos had lived so long under American influence, and thereby acquired many unsympathetic qualities characteristic of Americans."

Seventy per cent of Turkey's shipments to the United States normally consist of leaf tobacco.

When Peter Pain Stabs you with "Neuralgic Knives," Rub in Ben-Gay...Quick!

Read why Ben-Gay gives you such amazingly fast relief

There are two long-tested, tried and true pain-relieving agents your doctor knows about...methyl salicylate and menthol. Well, by actual impartial laboratory test, Ben-Gay contains up to 2 1/2 times more of these ingredients than 5 other widely offered rub-ins.

Ben-Gay ACTS FAST WHERE YOU HURT

There's also Ben-Gay MILD for children.

Milk Mixture For Stomach Ulcers

A recent medical discovery now being used by doctors and hospitals everywhere has proven unusually successful in the treatment of stomach ulcers caused from excess acid. It is a harmless preparation yet so effective that in many cases the pains of stomach ulcers disappear almost immediately after it is used. Also recommended for gas pains, indigestion and heartburn due to hyperacidity. Sufferers may now try this at home by obtaining a bottle of Lurin from their druggist.

This new discovery in its purest form, Lurin, is a mixture of milk. Costs but 10¢ a bottle. It must satisfy, or money refunded. Lurin for sale by drug stores everywhere. —Adv.

Bainbridge Japanese Wistful and Willing Aliens Register to Leave Island Monday

Bainbridge Island Japanese, ordered evacuated from the island by next Monday, went willingly but wistfully today to the evacuation center established at the old Winslow dock to register for removal.

There were aged Japanese, not citizens of this nation; members of a younger generation, who were born in this country and are citizens, and younger persons, some as young as 4 years old, who congregated at the registration center.

There was no apparent antagonism to the evacuation order. The aliens and the American-born seemed resigned to the fact that the Army had deemed it necessary for all persons of Japanese blood to be removed from the island.

Many Are Pupils

Many of those who registered at the center are pupils of Bainbridge High School, and must leave their classes this week when the evacuation is made.

May Katayama, high-school junior, registered for herself and the rest of her family. She was cheerful.

"I know it has to be done," she said. "I'm not bitter but I hate to leave the island. I was born here."

At the registration center was Shijeko Tamaki of the Employment Service office from Olympia, who took the names of many of those registering. She said she had sorrow for most of those who are to be removed. But she, also, said

MR. AND MRS. EVARISTO AROTA DISCUSS REGISTRATION WITH MAJ. C. F. BISENIUS

FRANCES KITAMOTO AND PVT. EDWARD ANNINGATA

SHIJEKO TAMAKI REGISTERS MAY KATAYAMA

there was no dissatisfaction with the order.

The evacuation center was guarded by infantrymen under command of Maj. C. F. Bisenius. The soldiers stood guard in front of the evacuation office, bayonets fixed, but there was no sign of disorder.

Some of the soldiers became well acquainted with the registering Japanese, chatting with them and assuring them that there was no ill feeling.

One private hoisted 5-year-old

Frances Kitamoto to his shoulder outside the evacuation center. The little girl, unaware of what was going on, was highly pleased with the attention she received. She took a great fancy to Pvt. Edward Anningata.

Authorities had one puzzling question with which to contend, Fathers and Sons.

Evaristo Arota, a Filipino who is married to a Japanese woman, appeared at the center with his wife and asked if his wife must be evacuated. She had not been listed among those to be removed from the island. Arota also wanted to know if he could go along if his wife was removed. Mrs. Arota was registered, but her status was not determined immediately.

There were several fathers and sons who registered during the forenoon. In most cases the father was an alien and the son American-born.

Registration was held in the premises formerly occupied by the Anderson Hardware Company. Some Japanese were at the door when the office opened this morning. Representatives were on hand from the Federal Farm Security Administration, the State Employment Service, the Federal Reserve Bank and the State Social Security Department.

The status of other Japanese in the Puget Sound area was in doubt, temporarily. Officials of the Federal Farm Security Administration in Seattle said that an announcement yesterday from Tacoma that complete registration of

Tacoma Japanese had been ordered today was premature.

Japanese were not being registered either in Tacoma or Seattle, although such an order is expected shortly.

Officials estimated there are about 274 Japanese still on the island to be registered, approximately 100 having left voluntarily before the registration began. A number of Japanese pupils from Bainbridge High School left their classes to register.

Mostly heads of families put in appearances, registering for their relatives. Officials said most of the Bainbridge Island Japanese probably will go to the Owens Valley colony being established for evacuees about 90 miles northeast of Los Angeles.

James Y. Sakamoto, general chairman of the Emergency Defense Council of Seattle Chapter, Japanese American Citizens' League, yesterday wrote a letter to President Roosevelt asking him to "point out to our fellow-citizens that we are not traitors" and "give to us some refuge in the heart of the country, far removed from even the suspicion or possibility of doing harm."

"We have helped to feed the

nation in the past," Sakamoto wrote, "and will continue to do so now that it is needed the more. Only let us do so freely and not under the compulsion made notorious in an enemy country. We do not have to be driven to work for a country in which we believe."

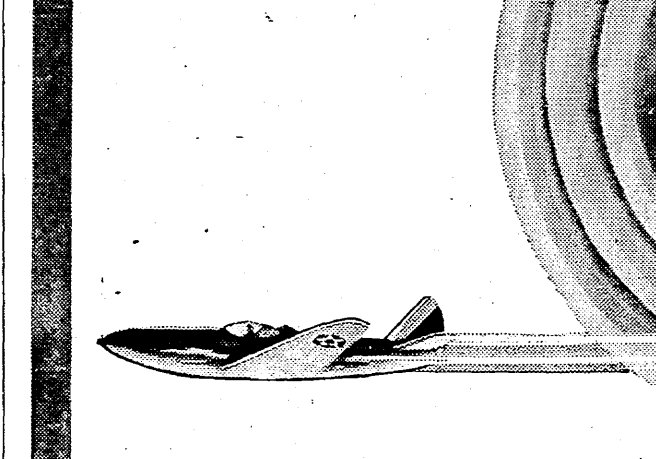

Officials in the Seattle Alien Custodian Office, 808 Second Ave., said they had no information as to when a general Seattle Japanese evacuation will be ordered.

"We're still just talking to them," one official said.

Man Arrested in Kelso Faces Deportation

PORTLAND, Or., March 25.—(AP)—Roy J. Norene, Portland immigration director, said today that Francesco Petrinich, 45 years old, was arrested on a farm near Kelso yesterday. He said Petrinich deserted from the Italian ship Edda in Portland in 1926 and is being held for deportation proceedings.

More than 3,311,000,000 pounds of agricultural commodities, valued at approximately \$367,000,000, were released to Great Britain under the lend-lease program during the last nine months of last year.

A SPECIAL MESSAGE TO CADILLAC OWNERS

WE OF THE Cadillac dealer organization are proud, indeed, of the part Cadillac is playing in America's victory program.

Cadillac is not only well into its third year of armament production—but Cadillac is doing a type of precision work which few, except itself, could undertake.

Naturally, this vital job of arming America is now the first consideration of the Cadillac factory—and will remain so until victory is won.

But we can assure you that Cadillac has not forgotten its owners—you quarter of a million people who depend on cars built by Cadillac for personal transportation.

To keep you rolling safely, comfortably and economically, the Cadillac factory, and we of the Cadillac dealer organization, are cooperating in a comprehensive program of maintenance service exactly fitted to your special needs today.

ARMY FORMS 3 NEW DIVISIONS

WASHINGTON, March 25.—(AP)—The Army brought three additional divisions into being today, the vanguard of the American machine being put together for the "victory year" of 1943.

Successors to outfits which made history in 1918 in France, the units were the first of 32 infantry divisions to be added this year as a part of the Army's initial stage of expansion to 3,600,000 men.

At camps in the South, where the commanders, officers and picked noncommissioned officers already were on hand to start intensive training expected to last a year, the ranks started filling with men only a few days out of civil life.

The 77th Division, known as the Metropolitan Division in the First World War because its members came from New York City and its environs, is being assembled and trained at Fort Jackson, S. C., under Maj. Gen. Robert L. Eichelberger, former commander of the United States Military Academy.

The 82nd, forming at Camp Claiborne, La., is commanded by Maj. Gen. Omar N. Bradley. The All-American Division of 1918, it gave to history Sgt. Alvin C. York who won the Congressional Medal of Honor as the captor of 132 German prisoners.

The 90th, known as the Alamo Division because its ranks were filled in 1918 by Texans and Oklahomans, is being set up at Camp Barkeley, Tex., under command of Maj. Gen. Henry Tervell, Jr.

Each has continued a paper existence as a member of the Army's organized reserves since demobilization two decades ago.

The rest of the 32 additional infantry divisions, along with new armored divisions and various other units, are to be added at a quickened pace beginning in early summer.

In each of the additional infantry divisions approximately 13,000 men will be obtained from the draft.

Planes to Get Stars For Air Successes

HONOLULU, March 25.—(AP)—Army pilots in the Hawaiian Islands had a new objective today—to fly a plane with a gold star.

Under orders from Maj. Gen. Clarence L. Tinker, commanding the Army Air Force in this area, a gold star will be painted on a plane for each time it performs "a successful mission over enemy territory" or faces enemy fire.

Several planes already are due for at least one star, followed by the inscription "Oahu, 12-7-41," commemorating the performance on the day war broke out in the Pacific.

Navy Requests Billion For Shore Projects

WASHINGTON, March 25.—(AP)—The Navy asked Congress today to authorize an expenditure of \$1,000,000,000 for the construction of new naval shore establishments.

Chairman Walsh, Democratic, Massachusetts, who introduced such a bill at the Navy's request, said he was not informed of the place or nature of the proposed improvements.

RACKET LAW ON UNIONS SOUGHT

WASHINGTON, March 25.—(AP)—Ralph B. Moody, attorney of Salem, Or., urged a Senate judiciary subcommittee today to recommend the federal Anti-Racketeering Law be amended so that union labor would come under its provisions.

Moody told the committee the courts had held the law could not be applied to union members who were bona fide employees. He also suggested elimination of a section of the law requiring that district attorneys can start prosecutions under it only with the consent of the attorney-general.

Moody said he had participated several years ago in prosecutions in Oregon in which a number of persons were sent to prison for violation of state laws against violence in enforcing union demands.

Senator Holman, Republican, Oregon, who introduced a bill to amend the law, told the committee certain organizations had "superceded constituted authorities" in several states in seeking to enforce their demands.

GIRL, 18, ATTENDS DANCE, VANISHES

Seattle police were asked by the State Patrol today to aid in a search for Mary McElwain, 18 years old, who disappeared Sunday night while on her way to her home in Olympia from Fort Lewis, where she had been a hostess at a dance for soldiers.

The Associated Press reported today that Miss McElwain put in a telephone call about noon today from an Olympia hotel to her mother, but that she disappeared again before her mother and officers arrived at the hotel.

Miss McElwain is 5 feet 5 inches tall, weighs 125 pounds. She has blue eyes, fair complexion and blond hair. At the time she disappeared, she was wearing a navy blue dress, small military buttons, black-trimmed gray tweed coat, low heeled red shoes and had a ribbon in her hair.

Langlie Decries Defense Area Around Depot

Police Chief Herbert D. Kimsey today notified the Police Department that Gov. Arthur B. Langlie had proclaimed a defense area around the Army Supply Depot at 4735 E. Marginal Way.

The area is bounded by Orcas Street on the south, Spokane Street on the north, Fourth Avenue south on the east and the Duwamish Waterway on the west.

Chief Kimsey ordered his men to enforce strictly the proclamation which prohibits the taking of photographs, possession of firearms, explosives or component parts of firearms within the area.

Schubach EASTER DRESS FASHIONS

—rampant unexpected colors, new soft silhouettes, individualistic prints for Easter and after! This is our peak collection, selected with an eye to quality as well as fashion. Sizes 16 1/2 to 28 1/2, and 10 to 20. \$16.95 to \$49.95.
