Owners of Summer Homes Satisfied With Present Condition of Thoroughfares and Want Acres Left Undisturbed

A TEMPORARY restraining order granted by Superior Judge Albertson yesterday atternoon proventing the mayer and city council of the City of Cohurcha from going ahead with certain street improvements is the latest phase of the long-drawn-out surface that has been waged between the silk stocking faction and the other residents of the little nunicipality, who are satisfied with hose of ordinary lists thread. This order was granted at the request of representatives of the silk stocking brigade, and until the merits of the case are argued before the court February 21 the lists threads will be unable to move ferward with their plan of grading and pianking Bryam and other thoroughfures.

The Seattle, Remon & Southern wants a franchises and the city fainers were disposed to grant the request. The Seattle Electric Company also wants a franchise, and the stockings are supporting scot Furth's common carrier company.

All of these insiters have been more or less unfor cover, and it was hoped that an amicable adjustment could be arrived at out of court. The decision of the council to do the street work has proved too much, though, and the troubles of the faccions have been taken into court.

had but one wife and she is my present wife.

Polygamy Mot Obligatory.

"There has been a more or less prevalent opinion that the doctrine of polygamy was obligatory upon the members of the Mormon Church, when in truth and in fact no such obligatory doctrine has ever existed. The reveation concerning polygamy, as originally made and as always interpreted, is permissible and not mandatory. As a matter of fact, only a small percentage of the adult members from its foundation to the present have been monogamists.

"The Mormon people, however, regard this doctrine—although permissible in character—as part of their religious faith, and whon the law was passed denouncing its practice the enforcement of the law was resisted on the ground that it was unconstitutional, as being an interference with their religious liberty. Appeals were taken to the highest courts of the Inited States, every phase of the subject was tested it the courts and 'the law was upheld. Then the church adopted the manifesto nathereupon the practice of polygamy for the future was abandoned."

That having been done, the serious question. Schator Smoot went on to say, was about the attitude of the people toward the future relations of these who had entered the polygamous status before the manifesto. Three assistant United States district attorneys and other prosecutors testified the sentiment among non-Mormon people was in effect that the best solution was to let the old-time relations end in death. There was a general acquiescence among the people, and it is working out a complete and final solution.

Smoot seseried that whereas at the

"The testimony taken before the commitee tends to show that there have been some polygamous marriages since the manifesto, but I believe sincorely, Mr. President, that such cases have been rare. They have not received the sanction or encouragement of the church.

"The Mormon Church has stopped plural marriages, and no polygamous relation assumed subsequent to 1894 is with the permission of, sanction of, opporval of the church; that is final and fixed. Every such violation of the church.

"Reference has been made to a treasonable obligation which it is sought to claim is a part of the Mormon endowment ceremony. The Senate will understand that these coremonies are of a sacred nature to those participating in them and therefore not divulged.

I huri back the charge of the defamer that there ever was a word or breath of hostility or disloyalty in the sacred religious ceremonies in which they or any other person participated as members of the Mormon Church.

"It is not an infroquent occurrence, Mr. President, for somebody, often a person of prominence, to come out with a declamation that this or that other thing is menacing the life of the Republic; that we are following the path which brought Rome; to decay; that our wealth, our industrial combinations, our free speech, are crowding the nation to destruction. ADMITS JAPS TO WHITE SCHOOLS

Japan Will Exclude American Labor From Its Shores and President Agrees to Exclude Japanese Labor.

Mayor Schmitz Issues Statement Explaining Attitude of Californians and It Is Endorsed at White House.

By Associated Press, Special by Leased Wire.

WASHINGTON, Tuesday, Feb. 19.—Japanese children are to be admitted to the white schools of San Francisco under certain restrictions, skilled and unskilled ishorers coming from Japan harred from the mainland of the United States and the American laborers, skilled and unskilled, are to be excluded from Japan.

states and unskilled, ere to be excluded from Japan. This is has so of the agreement between resident Roosevelt, Secretary Root, Mayor Schmitz and the San Francisco school board as an adjustment of the anti-Jap agitation brought about by the San Francisco schools.

The agreement means that the schools of San Francisco schools.

The agreement means that the schools of San Francisco will be conducted in the same maner as they were before the board of education adopted the resolution last October providing for the segregation of the Japanese, except that adult Japanese what are in primary grades must continue to attend the Oriental schools, and that Japanese chedren under 18 years will be udmitted to classes with white children of their own ages.

dren under is years will be admitted to classes with white children of their own ages.

Schmitz Explains Agreement.

Shortly after midnight, the following statement was given out at the White House.

A typewritten copy of Mayor Schmitz's statement was submitted to President Roosevelt and Secretary Root by the Associated Press and the statement is entirely satisfactory to them. The basis of agreement reached hetween the President. Secretary Root Mayor Schmitz and the members of the San Francisco school board on the Japanese school controversy made public tonight by Mayor Schmitz provides that "All children of alien races, under is years of age, who speak the English language may be admitted to the white schools. Special schools are to be established for children of alien birth who are deficient in the elements of the English language."

Ro Attack on Japanese.

"It has been explained to us that the form of action taken by the school beard of San Francisco in relation to the Japanese school question has been misunderstand and misconstrued as an attack upon the Japanese as such and that this misunderstanding and tollsconstruction has been one of the chief obstacles to achieving the purpose California really has, this purpose California really has, this purpose being to secure by honorable and amicable agreement with Japan the mutual exclusion from the two countries of the laborers, skilled and unskilled, of each country.

"This earnest desire of the people of California, and we may add, in our lelief, the people of the entire Pacific Coast, to check the coming of Japanese laborers, and our entire willinguess and desire that Japan should similarly put a stop to the going of American laborers, skilled and unskilled, to Japan, springs from no motive other than to bring about commercial acd industrial conditions to the satisfactory understanding of the two friendly nations.

"Events have convinced us, however, that many, and probably most of the Japanese laborers were really brought over to this country in violation of the contract, labor law and that the well-being of our wage workers imperatively demands that the immigration of Japanese laborers to this country skilled and unskilled and tinskilled shall cease.

*Election Lew May Pollow.**

"We are satisfied from our numerous interviews with the President that in the event if the amendment to the immigration of skill prove ineffectual for the purpose herein mentioned and inneded, every effort will be made by him not only to obtain a treaty with Japan authorizing legislation by both Japan authorizing legislation by both Japan authorizing legislation by both Japan authorizing forms herein mentioned in the immigration of all subjects of the immigration of skill prove ineffectual for the purpose herein mentioned hydromese laborers s

the attainment of the exclusion of all Japanese laborers, skilled and unskilled should not be complicated with or endangered by the exercise of right of segregation by the school board, authorized by Section No. 1862 of the political code of the State of California.

"It therefore is proposed by the board education of San Francisco to modify the order segregating the Japanese public school children of San Francisco heretofore made."

To Resume Regotiations With Japan.

The state department since the passage yesterday of the immigration bill, leprepared to take up again the negotiations that were already in progress with the Japanese government looking to the regulation of Japanese immigration income under the individual states for the magnetiations with the light of the regulation of Japanese immigration income under the magnetiation with the individual states for the magnetiation and the United States for the magnetiation by the former of passing the magnetiation of the laboring classes in seeking to enter the United States. For several years past the Japanese government has declined to Japanese matter of formal agreement if possible. In the short time remaining of the present session of Congress it is not possible. It is said, to frame anything in the nature of a treaty, which would require the action of the Senate.

In fact, it is by no means certain that a formal convention is necessary to insure the continuance of the present Japanese policy of refusing passports in the United States to coolies, so it may be decided to give this agreement another form than a treaty. To Resume Negotiations With Japan.
