STATE COLLEGE CADETS NOW ARMED WITH KRAGS

Three Hundred and Fifty Magazine Rifles and New Belts Arrive From Benicia Arsenal.

PULLMAN, Wednesday, March 20.—The State College cadets are now armed with Krag-Jorgensens. Three hundred and fifty of these modern implements of war have just arrived, and thereby an epoch is marked in the evolution of military affairs at the Washington State College. The arms were received as good as new from the Benicia arsenal at San Francisco, and while they have been in the service of the regular army, the guns have been re-browned and re-blued till to all appearances they are spick-and-span new. With the new arms have come new belts, such as are worn with the Springfield gun.

This year 420 cadets are being taught military science and tactics under the constant supervision of Capt. Edward Kimmel, of the United States artillery corps.

GOVERNOR HAGERMAN EXONERATED FROM BLAME

Timber Transfers Made by Preceding Administration and Affair Investigated by Government.

SANTA FE, N. M., Wednesday, March 20.—It was shown conclusively yesterday that the twenty-three deeds to territorial timber lands in the Manzano Mountains, purchased at $3 an acre by the Pennsylvania Development Company in evasion of a federal statute, were signed and executed in the administration previous to that of Gov. Hagerman and that their delivery and sealing by Gov. Hagerman were nominal.

The department of the interior had in a previous investigation of this matter completely exonerated Gov. Hagerman from all blame.

UNION MEN STILL SILENT AS TO PLANS

Labor Organizations Make No Rejoinder to Ultimatum of Contractors and Latter Await Developments.

DECISIVE ACTION EXPECTED VERY SOON.

Executive Committee of Building Trades Assembly May Meet Tonight—Employers Issue Statement.

NO notice of an official character has been received by the Master Builders' Association from the Building Trades Assembly since the transmission last Saturday of the ultimatum from the contractors notifying the workingmen that work would be stopped on all buildings of the association Monday until a satisfactory agreement had been reached concerning pending disputes.

The contractors' organization went into session at 2 o'clock this afternoon to consider the situation. Forty-eight hours have elapsed since the order suspending work, affecting 2,000 or more workmen, went into effect. Yet the labor leaders have made no sign as to their plans and the contractors can only await developments.

At the Labor Temple the rank and file of the union men are becoming restive under the conditions which prevent their drawing their weekly wages. None but the leaders know what plans have been made to meet the situation. The executive committee of the Building Trades Assembly will meet tonight to consider the situation.

Chairman Waddingham, of the publicity committee of the contractors' organization, has compiled the following comparative statement of the wages paid in the main cities of the Coast.

Seattle.

ANTI-SEMITIC EXCESS IS TO BE PUT DOWN

Roumanian Premier Makes Declaration to Chamber of Deputies Which Is Warmly Received.

BUCHAREST, Wednesday, March 20.—The long standing agrarian grievances of the peasants of Roumania against the absentee land owners, which are largely responsible for the recent anti-semitic excesses, formed the subject of an interpellation by the opposition leader in the Chamber of Deputies yesterday. The premier replied, in behalf of the government, appealing to all the political parties to assist in reaching a just solution of the difficulty.

The first duty of the government was to stop the excesses, and this the government proposed to do by all means in its power.

The declaration of the premier was warmly received by all political parties, and was ordered to be placarded throughout the country.

Sues Great Northern.

Civil proceedings were begun through District Attorney P. C. Sullivan against the Great Northern Railway Company in the United States District Court yesterday afternoon for the recovery of penalties alleged to be due the government from violations of sections 1 and 2 of the act of June, 1906, which provides that not more than twenty-eight hours shall elapse between times that stock in transit is rested and watered. The amount which the government seeks to recover is $500 and not less than $100 with costs.

Who Said Dinner?

Uh! xx!?--?!!x!!

!?!x--!--Cranky and?!x--!Because!--!--x!Don't Digest x!!--

There are many people who can see nothing good in a doughnut except the hole. For them there is nothing in this world but calamity. Their greatest trouble is to have to eat three times a day. The stomach is in rebellion, and this is immediately shown in a man's face. A man to be successful must have sunshine inside. The world already has too many dyspepsia faces that breathe distaster and gloom.

Stomach trouble is the most common cause of discontent, sour face, recklessness, disgust and lack of ambition. A bad stomach—there is the secret of many a failure. Anyone can have a good stomach, a strong stomach, a stomach that can take care of anything and everything that is put into it, no matter whether it is a very bad stomach or not.

Stuart's Dyspepsia Tablets do this very thing. One ingredient of these little tablets digests 3,000 grains of food, and no matter how bad your dyspepsia or indigestion, they will digest everything in your stomach, thoroughly and completely, and better and more quickly than a good strong healthy stomach can do it. Stuart's Dyspepsia Tablets will quickly cure loss of appetite, brash, irritation, burning sensations, nausea, heartburn, eructations, loss of vim and energy, bad memory, and dyspepsia and indigestion in their very worst forms.

No other little tablet in the world can do so much. You should carry Stuart's Dyspepsia Tablets around with you wherever you go and take them after meals. Then only will you realize what it is to enjoy a meal, and what perfect digestion means. Your whole body and your mind will feel the effects; your vim will increase, you will be more satisfied with what the world does, you will think happier and be happier and your face will be one of supreme contentment. That will bring you success and then more success. Your face will bring you dollars. Try it. It will cost you just 50c. for a package of these wonderful Stuart's Dyspepsia Tablets, at any drug store on earth.

Send us your name and address today and we will at once send you by mail a sample package, free. Address F. A. Stuart Co., 82 Stuart Bldg., Marshall, Mich.

DENOUNCES BILL AS EXTREMELY VICIOUS

Judge Burke Protests Against Measure Providing for Condemnation of Harbor Lots for Terminal Facilities.

SAYS IT ENDANGERS PRIVATE PROPERTIES

Chamber of Commerce Appoints Committee to Request Governor Not to Sign Senate Bill No. 190.

AT the meeting of the Seattle Chamber of Commerce this afternoon, Judge Thomas Burke, in a vigorous speech of protest characterized Senate Bill No. 190, relating to the improvement of tide lands, which has passed both branches of the State Legislature and is now in the hands of Governor Mead awaiting approval, as the most vicious and harmful piece of legislation ever perpetrated in the State of Washington. He requested that the chamber use every effort in its power to prevent the signature of the bill by the state's executive.

As a result of the severe arraignment of the bill at the hands of Judge Burke a resolution was adopted by the chamber protesting against the signing of the measure by the governor, characterizing it as being opposed to the interest of the public, ill advised and not fitted to accomplish the purpose for which it was originally intended. A committee composed of J. C. Ford, F. S. McCord and C. S. Miller was appointed to go to Olympia tomorrow and convey the protest of the chamber personally to the governor.

Judge Burke's condemnation of the measure came immediately after the reading of the report of the committee on state legislation to which had been referred the consideration of the measure. A motion had been made and seconded to the effect that the report of the committee which recommended that the chamber approve the principle of the bill and request the governor to sign it be accepted.

Provisions of Measure.

The measure provides for the improvement of tide lands and adjacent lands, waterways, water areas and streams in aid of commerce, navigation and transportation, provides public facilities for shippers and others, creates a commission therefor, declares certain laws relating thereto and grants the power of eminent domain to the commission.

In asking the chamber of commerce to reconsider the report of the committee and protest against the measure, Judge Burke said:

"It is certain the committee has not understood the great harm concealed in this measure. In giving the proposed commission the right of eminent domain, the bill is putting into its hands a terrible agent for the virtual and practical confiscation of private property.

Practically No Limit.

"There is practically no limit to the assessments that can be made by the commission to cover the cost of condemnation and they can be levied upon property so far from the water front that it cannot possibly benefit by any improvements to be made.

"The commission could practically create liens upon all adjacent property and private individuals would be taxed to provide terminal facilities for public corporations. Let the railroads buy their terminal facilities in the same manner that other corporations are compelled to purchase or acquire sites for industries.

"The passage of such a bill would practically mean turning over the property of citizens to the mercy of a political commission that has no limit of power for harm."

URGE NEW BOAT FOR KIRKLAND FERRY LINE

County Affairs Committee in Report to Chamber of Commerce, Demands Immediate Resumption of Service.

The chamber of commerce committee on county affairs in its report to the chamber today, recommended the immediate resumption of the Kirkland ferry. The report laid special stress upon the urgent necessity of maintaining the ferry and advocated the building of a new vessel, the acquisition by purchase of a vessel suitable to the needs of the run, or the grant to a private corporation of permission to operate a ferry under a schedule to be fixed by the county commissioners.

The committee insisted that the maintenance of the Kirkland ferry is a direct obligation on the part of King County, and that its suspension shuts off from Seattle a tributary district of fully twenty miles, the trade of which will be directed to another locality. The Kirkland Chamber of Commerce, which was in attendance at the meeting, and the county affairs committee, will call on the county commissioners this afternoon and use all the influence in their power in attempts to dissuade the commissioners from further suspension of the ferry service.

3,500 Men Walk Out.

HAMMOND, Ind., Wednesday, March 20.—The strike situation at East Chicago was intensified today when 3,500 men, employed by the Inland Steel Company, walked out. The reason for the walkout was the demand of the laborers for an increase of 25 cents per day. Six hundred men struck yesterday at the Interstate Steel Company and 1,200 at the Republic Iron and Steel Company.

Look on other lives besides your own: see what their troubles are and how they are borne; try to think of something in this busy world beside the gratification of small selfish desires; try to think of what is best in thought and action, something apart from the accidents of your own lot.—George Eliot.

JAPANESE FAVORED BY CHAMBER OF COMMERCE

Seattle Commercial Organization Will Send Resolutions to President Decrying Proposed Immigration Treaty.

HOLD DISCRIMINATION WILL INJURE COAST

Document Sets Forth That Enforcement of Provisions Will Close Ports Under Mikado's Control to Americans.

HOLDING that the Japanese are entitled to every consideration and that the proposed immigration treaty with Japan is not in accord with the best interests of the Pacific Coast, the Seattle Chamber of Commerce, at its meeting this afternoon, passed strong resolutions addressed to the President and the secretary of state. The resolutions were introduced by Judge Thomas Burke in his capacity of chairman of the chamber committee on national affairs and are as follows:

Make No Discrimination.

"According to the reports of the Associated Press dispatches from Washington the settlement of the question involving the rights of Japanese children to attend the public schools of San Francisco is to draw after it the negotiation of a new immigration treaty with Japan.

"It is the opinion of the Seattle Chamber of Commerce that a majority of the people of the Pacific Coast are not in favor of any immigration law that will treat the people of Japan differently from the way in which we treat the people of any European country. We recognize that the United States and the Empire of Japan are bound together by ties of trade, commerce and old friendship which in the past have proved of great advantage to both countries and if preserved, contain a sure pledge of still greater benefits for the future.

"We believe that any immigration treaty which would discriminate against Japan by denying to the people of the country ordinary rights or privileges granted to the people of other civilized countries would be uncalled for and would be detrimental to the trade and commerce of the Pacific Coast and, by checking the growth, development and prosperity of this section, would tend directly to narrow the field of employment for our own people and decrease the demand for our own labor.

Would Harm Coast Business.

"It would injure the Pacific Coast farmers by barring the way to a large and profitable market for flour and other food stuffs. It would strike directly at those manufacturing industries throughout the country which are now supplying steel rails, machinery, tools and other appliances for the development of Japan, Korea and Manchuria. It would practically close Japan, Korea and Manchuria to American capital and to the use of American skilled labor that would otherwise be largely employed in the development of the resources of those countries.

"Moreover, as the enforcement of the terms of any new immigration treaty putting Japan on a different footing from that of other nations or any law or regulation made pursuant to such a treaty, would necessarily be in the hands of bureau officials, its administration would, in our opinion, be almost certain to sow the seeds of disagreements, dissension and strife between the two countries.

"Therefore, be it resolved, That in the opinion of this chamber it would be against the best interests of the Pacific Coast and of the whole country to conclude any treaty or enact any law the effect of which would be to treat the people of Japan in a manner different from the treatment accorded to the people of other civilized powers.

"Resolved, That a copy of these resolutions be transmitted to the President and the secretary of state."

Garden Cities.

The garden city movement in England, as developed at Letchworth, Bournville and Port Sunlight, and more recently at Wolverhampton, Newcastle and Warrington, has been watched eagerly and to some purpose by practical men of affairs in America. As a result the Garden Cities Association of America has been organized, with its home office in New York City, and with the prospect of offices in other cities, to cover activities in their respective vicinities. The object of the association is closely in accord with that of the Garden City Association in England; that is, to advocate the removal of people, particularly of the industrial classes, from overcrowded centers into the country, where each family may have its own home and garden in surroundings tending to foster the home instinct, develop the individual, and work for the general good. The association may not acquire holdings for development, but it will encourage such development by companies already satisfactorily located, foster the formation of holding and developing companies in various parts of the country, and stimulate the removal of factories to such places.

New developments are to be planned from the beginning, with a view to the best possible results and so as to make crowded, or unsanitary conditions impossible. Such plans must be considered in advance by a joint committee of the association and the holding company and must be approved by a committee of the association. Profits of investors are limited to 5 per cent, and sales of land shall be to prospective residents only. Special emphasis is to be placed upon moral, social, recreative, artistic and educational questions by a careful provision in advance for churches, clubs, parks, playgrounds, schools and a proper and artistic setting for all. To develop a well-rounded and sufficient community life homes will be sold to professional men, clerks and artisans not connected with any local industry. Already one developing company has been organized and about 2,000 acres of land have been purchased on Long Island for the first garden city.

The move is in direct opposition to the prevailing custom of boards of trade which encourage the incoming of new industries, and offer any vacant lot as a factory site, without reference to the possibility of finding homes for the employes, and without caring where they come from or how they live. Many manufacturing concerns in this country have for some time seen the advantages of the garden city scheme, and have done much to provide an attractive home environment for their employes. In Massachusetts one may cite North Plymouth, Ludlow, Hopedale, Whitinsville and other places where substantial progress has been made. The actual building of a garden city, however, yet remains to be accomplished. The American experiments mentioned suffer from paternalism, and for this reason can never be ideally successful. The Long Island experiment promises to open a field of great promise, and the association inspiring it deserves commendation and support.—From an article in the Boston Transcript.

Plans for an historical exhibition at the Jamestown Exposition are already under way which shall show the growth, independence and progress of the American nation as influenced by the Presbyterian and Reformed Churches.

No man or woman of the humblest sort can really be strong, gentle, pure and good without the world being the better for it, without somebody being helped and comforted by the very existence of that goodness.—Phillips Brooks.

The South American republics are one by one separating religion from politics and are proclaiming liberty of conscience to all, Bolivia being the last to fall into line in this respect.

DESPERATE CROOK CAUGHT

White, Alias Johnson, Wanted in Minneapolis on a Charge of Safe Cracking, Is Apprehended in Seattle.

For four weeks Thomas White, alias Thomas Johnson, said by the police to be one of the most desperate of a gang of Eastern safe crackers, has been living in this city at 2237 West Fourteenth Avenue with a woman whom he says is his wife. He was arrested this afternoon by Patrolman Opdyke in accordance with a message received from the chief of police at Minneapolis, in which city White is wanted for safe cracking.

It is alleged that he is connected with a gang of crooks that has worked around Minneapolis for several years. He has served time in Stillwater prison.

The man admits that White is his name but refuses to say whether or not he served time in Stillwater prison. The Minneapolis authorities have been notified and White will in all probability be sent back there.

CONTRACTS LET FOR CARRYING NOME MAIL

Three Companies Submit Identical Bids at Advance of Two Cents a Pound Over Last Year.

WASHINGTON, D. C., Wednesday, March 20.—The postoffice department has awarded the contracts for transportation of mails between Seattle and Nome during the coming season to three steamship companies, all at the uniform rate of 6 cents a pound. The Pacific Coast Steamship Co., the Northwestern Steamship Company and the White Star Steamship Company get the contracts, which are to run for one season only.

Last season the government paid only 4 cents a pound for the same service, but this year the companies got together and submitted identical bids.

The only Protestant Churches on the canal zone are the Protestant Episcopal, the Methodist and the Baptist.
