## House Leaders Drop Florida Canal Idea

WASHINGTON, June 2.—(AP)—In the face of unexpected opposition, the House leadership today had virtually abandoned legislation for construction of an oil pipeline and a large canal across Florida as a means of transporting oil and gasoline to the Eastern seaboard.

Majority Leader McCormack, Democrat, Massachusetts, and Chairman Mansfield, Democrat, Texas, of the rivers and harbors committee said they had no present intention of pressing for further consideration of the bill, which the House rejected yesterday by 121 to 85.

## NOW SHE SHOPS "CASH AND CARRY"

Without Painful Backache  
Many sufferers relieve nagging backache quickly, once they discover that the real cause of their trouble may be tired kidneys. The kidneys are Nature's chief way of filtering the excess acids and waste out of the blood. They help most people pass about 2 pints a day.

When disorder of kidney function permits poisonous matter to remain in your blood, it may cause nagging backache, rheumatic pains, leg pains, loss of pep and energy, getting up middle, swelling, puffiness under the eyes, headaches and dizziness. Frequent or scanty passages with smarting and burning sometimes tell you there is something wrong with your kidneys or bladder.

Don't wait! Ask your druggist for Doan's Pills, used successfully by millions for over 40 years. They give happy relief and will help the 15 miles of kidney tubes flush out poisonous waste from your blood. Get Doan's Pills.

## Dogs' Curfew Approved By Council Group

The City Council public safety committee today finally recommended passage of the curfew on dogs, but the committee left cats out of the all-night regulations.

If the Council passes the bill, all dogs must be confined from sundown to 7 o'clock in the mornings. The cats may stay out all night.

Ray See, 234 Nickerson St., wanted the committee to restrict both dogs and cats, and in daytime as well as at night.

"They ask us to make victory gardens, and then you license the dogs and cats to run loose all day tearing up the gardens," See declared.

Mrs. F. F. Powell said the committee believes dogs would endanger air-raid wardens and other persons in case of bombing, but that the committee had no such fear about cats.

## R. O. T. C. Men Resent U. W. Editor's Slap

Faculty and student members of the R. O. T. C. at the University of Washington today expressed resentment toward the publishing of an editorial in the University of Washington Daily which criticized the performance of the R. O. T. C. in the Memorial Day parade Saturday.

The editor, Ron Bostwick, was criticized by R. O. T. C. officers as being "unfair."

The editorial, headed "A Bad Showing Is Not Good for the University," said "either the R. O. T. C. should make a better impression or they should stay out of parades altogether."

A month ago Bostwick was under fire from the University faculty for criticizing the "campus curfew" policy.

"All of us in the R. O. T. C. resent this Bostwick editorial," Douglas Carmichael, cadet lieutenant colonel remarked today. "He's far from being an expert on military affairs. He remarked that we marched without rifles, but that's not our fault—our rifles are on duty elsewhere."

at the government's rent schedule, the Berrys said the closing was their only recourse. They said they had invested \$80,000 in the building since purchasing it in 1937.

Mrs. Berry said they had made every attempt to cut expenses, even to the extent of doing engineering work for themselves.

Informed of the action, Alfred E. Harsch, rent director for the Office of Price Administration, said he had "no comment" immediately.

## SEVEN KILLED IN NAVY PLANE

By United Press.

SAN FRANCISCO, June 2.—A Navy P.B.Y. Catalina patrol bomber crashed in the hills of San Mateo County on the San Francisco Peninsula today and a survivor, Ensign H. H. Apitz, 22 years old, reported seven men aboard the plane were killed.

The bodies of five crewmen were found. At least two other men were reported missing and feared dead.

The Navy, unable to confirm Apitz' version immediately, said it understood at least eight men were aboard the plane and as far as could be determined Apitz was the sole reported survivor.

"I appeared to be the only one alive," Apitz told a Navy officer.

Ensign Apitz, gravely injured, stumbled into the community of Half Moon Bay early today and gave the first report of the crash. Apitz told A. Picchi, the town's night watchman, he had walked seven miles since he left the wreckage at midnight. He reached Half Moon Bay at 4 a. m.

Scarcely able to talk, Apitz told Picchi the plane crashed near a dam.

The Catalina patrol bomber is a twin-motored flying boat carrying, usually, from seven to ten men.

## 'Flying Tigress' Gets 4 Months For Flying Togs

Although the Court expressed doubt that a jail sentence would stop prevarication on the part of Mrs. Walter Zione, the 22-year-old blond "Flying Tigress" who told Queen Anne High School pupils she had "bagged" 17 Jap planes while flying with the American Volunteer Group in China, she was sentenced yesterday to serve four months in the county jail.

In passing sentence, United States District Judge Lloyd L. Black commented he would have given her the maximum sentence of six months if he thought it would "cure her of prevaricating."

The four-month sentence, he said, was given merely "as a warning to others."

Standing erectly before the Court, clad in flying togs, which were decorated with military insignia at the time of her arrest, Mrs. Zione, charged with the illegal wearing of military insignia, told Judge Black she wore the equipment "as a token of my engagement—that's all there is to it."

The judge then inquired into her present marital status. Mrs. Zione said she was married, but planned to obtain a divorce.

"So your engagement preceded your divorce?" Judge Black asked. Mrs. Zione replied affirmatively, but added she came to Seattle to establish "six months' residence" so she could file for a divorce—and later marry a marine, whose insignia she wore.

May 28—anniversary of the surrender—was marked by Belgian press comment which openly called the defeat a tragedy. Writing in the Nouveau Journal of Brussels, Paul Werrie said:
