

WORK RESUMED AT BOHN PLANT

DETROIT, June 5.—(AP)—The main plant of the Bohn Aluminum & Brass Corporation was in full production today as a complete force returned to work after a series of labor incidents closed the plant yesterday afternoon. The company employs 2,500 workers and is a key war plant making material for military aircraft.

There was no immediate explanation of reasons why the men returned to work but a company official said a full day shift was on duty, as well as almost two-thirds of the workers on a mid-night shift.

A company spokesman said that employees on the afternoon shift yesterday had begun to quit work soon after 4 o'clock and that within two hours all employees had departed. The seven other plants were not affected.

Officials of the United Automobile Workers, Congress of Industrial Organizations affiliate, with whom the corporation has a contract, were not immediately available for a formal statement, but at the East Side local office of the union it was said there was no strike. The union has made a pledge against strikes in war plants.

Man Is Dismissed
Simon D. DenUyl, company secretary-treasurer, said work was stopped a half hour last Monday when an employee pulled a switch. The switch puller was dismissed, DenUyl said.

Again on Wednesday, work ceased for an hour, DenUyl said. That night, he said, a plant committeeman and a union steward elected a foreman and another workman who had testified before a joint labor-management committee about the switch-pulling.

"We dismissed the committeeman and steward Thursday and immediately notified the international officers of the union, according to the contract, to arrange a hearing on their cases," DenUyl said. "The plant was down from 10:30 a. m. to 12:45 p. m. and the men then went back to work."

Union Takes Action
"Shortly after 4 p. m. it was agreed that the union committee of the plant and the company would select an umpire to decide whether the men should stay fired. Five minutes after that meeting with the international officers, some of the ring leaders of the trouble called out the employees."

Company and union have negotiated since May 5 on a new contract. DenUyl said they were agreed on all points except union demands for a closed shop and dues check-off and a \$1-a-day wage increase as well as a minimum \$1-an-hour wage for men and 90 cents for women. The present scale varies.

The present contract was drawn up subsequent to a strike by the union last summer.

Rights of Jap Citizen to Be Tested in Court

SAN FRANCISCO, June 5.—(AP)—The first court test of citizenship rights of Japanese-Americans probably will be provided by the case of Fred Toyosaburo Korematsu, 24-year-old Oakland-born Japanese, accused of violating curfew regulations and failing to evacuate a restricted area.

Korematsu, who is held by federal authorities for grand jury action, will be provided legal assistance by the Civil Liberties Union.

Ernest Besig, Northern California director of the Civil Liberties Union, said his group also had decided to offer assistance to two other Bay District Japanese, and was handling similar cases in Los Angeles and Seattle, but he declared the Korematsu case probably would be used as test litigation.

Pinza Released In Enemy-Alien Case

NEW YORK, June 5.—(AP)—Ezio Pinza, Italian-born Metropolitan Opera basso who was arrested March 12 as an enemy alien, has been released by the Department of Justice and may sing on a government-sponsored radio program soon, it was learned last night.

The 50-year-old singer, said by the Federal Bureau of Investigation to have been friendly once with Benito Mussolini, was freed a week ago.

Pinza said he would devote as much time as possible to "helping the United States and the Allies win this war." His wife said he has taken out his first citizenship papers.

An automatic fire alarm for use in airplanes fires a blank rifle cartridge when overheated, the explosion lighting a signal on a plane's instrument panel and sounding an electric bell.

DAILY BRIDGE

By ELY GILBERTSON

Presumptive Bidding
There is one type of opponent against whom it is highly profitable to bid a doubtful slam. This type, accepting the slam bidder's judgment, takes it for granted that the slam contract will be fulfilled and, thrown into a panic at such a dire prospect, rushes forward with a sacrifice bid. In today's hand, North's overall of the opponents' slam bid was sacrificial indeed.

East-Dealer.

WEST: ♠ 10 9 8 3, ♥ 4 3, ♦ 7, ♣ J 8 6 5 3

EAST: ♠ A 5 2, ♥ A Q J 10 6 5, ♦ A J 5, ♣ 10

SOUTH: ♠ K J 6 4, ♥ 7 2, ♦ K 8 4, ♣ A Q 2

The bidding:
East South West North
1 heart 1 spade 2 diamonds Pass
2 hearts Pass Pass 6 spades
Double Pass Pass

I scarcely need say that South did not do well in his six-spade contract. Indeed, he was defeated no fewer than seven tricks for a penalty of 1,500 points.

Even this huge penalty would have been a bargain except for one little thing, and that was that East never could have fulfilled the six heart contract.

The inconsistency of North's bidding must be apparent. He had not considered his hand good enough for a single spade raise over the two diamonds, yet, when the opponents went to a slam, gave what amounted to five raises.

In so doing, he felt that he was forestalling an adverse slam that would give the opponents 1,430 points. But what made him so sure that said slam would be cold? The mere fact that East had bid it and that South had not doubled was scarcely conclusive. South might feel he had a reasonable chance to defeat the slam and yet would not feel called upon to double.

Had South known that his diamond king was over, instead of under, the diamond ace, he would have doubled, but, lacking that information, a double would have been highly speculative. And, besides, how could South tell that a partner who had given no raise up to date would suddenly take it into his head to bid six-odd?

The moral is that it sometimes pays to pass and let the opponents play their slam contracts.

DISPUTE ENDED AT WAR PLANT

MUSKOGON, Mich., June 5.—(AP)—Production of pistons and piston rings for war-machine engines resumed today at the Scaled Power Corporation after settlement of a dispute over employment of a cost and production checker.

Noel P. Fox, state labor mediator, announced the day-old differences had been settled by compromises from management and employee representatives. He did not make known the details.

Approximately 1,000 men ceased work yesterday when a woman checker took up a station on the aluminum piston line. The plant is making pistons and piston rings for a number of concerns building engines for the Army and Navy air forces.

The United Automobile Workers refused to accept the presence of the checker, and Roy Pettit, local president, said the management refused to permit them to work until they accepted. It was no strike, he said. The union recently severed connections with the American Federation of Labor, of which it was an affiliate, and voted to join the Congress of Industrial Organizations, with which formal affiliation is pending.

Neil A. Moore, vice president and general manager, said the woman checker was employed to "check production costs and was not being used for speed-up purposes."

Soon after production had ceased Secretary of the Navy Knox appealed to employees to see that shipments of the war materials were continued, and the employees' bargaining committee gave him a guarantee for this.

Nazi Offensive On Russ Near, London Believes

By WILLIAM H. STONEMAN
Chicago Daily News Foreign Service

LONDON, June 5.—German preparations for the long and highly-advertised offensive against Russia now are believed to be nearing completion after the temporary delay and confusion caused by the Russian offensive at Kharkov.

Experts, who once expected the Germans to get started about May 15, now consider mid-June as the likely date, and expect the Germans to do something about Sevastopol at the outset.

It still is firmly believed by competent persons in London that Japan will attack the Russian maritime provinces if the Germans make good headway with their offensive on Russia's western front. Such a development would put a great extra strain on the Russian army and air force and, from the viewpoint of the Allies in general, would be less desirable than an attempted Jap stroke elsewhere where formidable forces are collected to meet them.

There appears to be no doubt about Hitler's determination to make an all-out effort against the Russians this summer, and this would automatically involve a number of giant assaults upon Leningrad and Moscow, two mighty prizes the German armies just failed to win last year.

Absolutely authentic information direct from Germany makes it clear that the supply position and British bombing raids, together with the definite promise of a great Anglo-American bombing campaign later on, have put German morale into such a state that some great success will be needed to buoy it up before next winter.

Mad' Dog Weeps; And Who Wouldn't?

HAGERSTOWN, Md., June 5.—(AP)—Called to a nearby farm last night to destroy a dog which presumably had gone mad, Deputy Kenneth Stangle took careful aim and fired. The dog just stood there—and cried.

So did a woman and her daughter standing near by. Even Stangle shed a few tears.

Then Stangle discovered he had fired a tear-gas shell. Wiping away the tears he disposed of the dog with a real bullet.

Somervell Assures A. E. F. Equipment

WITH THE AMERICAN EXPEDITIONARY FORCES IN NORTH-EAST IRELAND, June 5.—(AP)—Lieut. Gen. Brechon Somervell, United States Army supply chief, declared today that "we can fully equip any troops we can send abroad." He said there had been no delay in moving equipment to the British Isles.

"It looks like the job is being handled creditably," Somervell said after visiting United States establishments in Northern Ireland with ranking American officers.

"The command seems to have vim and dash and is ready to do a job."

3,062,000 to Register

WASHINGTON, June 5.—Selective service registration June 30 of youths 18 and 19 years old and of 20-year-olds not already registered will add 3,062,000 to the registered man-power pool, the Census Bureau estimated yesterday.

The population of Finland is approximately 4,000,000 people.

Raid Enraged Him

PHILADELPHIA, June 5.—An unidentified man, his face red with rage, stamped six blocks down Chestnut Street, buying newspapers headlining the Japanese raid on Dutch Harbor and tearing them into shreds. Police said he was within his rights.

By the Fourth Century, Rome had 28 libraries.

Railroad Manager Dies

DETROIT, June 5.—(AP)—John A. Clancey, 58 years old, general manager of the Grand Trunk Western Railroad Company and president of the Detroit & Toledo Shore Line Railroad Company, died of a heart attack yesterday.

Houses on the Island of Malta are mostly of stone.

Yo! Ho! Ho! For a summer of fun

What Ho! My Hearties, look what we've smuggled from a band of rollicking pirates to make your Summer an adventure! . . . Billowing sailcloth separates to go with a sun-bronzed skin! Gleaming bullion-gold, fiery robber-red and bright brigand blue in swaggering play clothes . . . waiting to be captured by bright young things at The Bon Marche!

HERE'S THE BOOTY!

shades of Captain Kidd! Tri-colored ballerina skirt in sizes 10 to 16. 2.50

peasant blouse for a merry maid! Sizes from 7 to 16. Pirate colors. 2.25

a treasure of a tailored shirt! In solid (pirate) colors, 7 to 16. Priced at 1.95

robber-red, brigand blue, and bullion-gold ballerina skirt, 7 to 14. Only 2.25

stowed away under the skirt, shorts for feminine privacy! 7 to 16. 1.95

Girls' Shop, Fashion Center, Third Floor

PRIZE LOOT

"flower"
Sturdy, for a pirate's life is an active one! . . . anklet with elastic cuff and a daintily embroidered instep. Natural, pink, red, white, navy, blue. 59c
In sizes 9 to 10 1/2.

"slack town"
Recklessly merry baubles plundered from our Ankle Fair . . . lightweight lisle slack sock with straight-up cuff. Red, navy, yellow, ecru or blue. 59c
Sizes from 9 to 11. Ankle Fair, Street Floor

Awning-striped Stroller, just 1.95

Multi-color vamp Stroller, just 2.75

Cross-strap Stroller, gay trim, at 2.95

Woven-vamp, stripe Stroller 2.45

Dutch Boy Kedette, color trim, 2.95

Kedette step-in, elastic gore, 2.95

WITH A CAREFREE LIFE

go Strollers and Kedettes

Light on their feet as a pirate of old are the kids who wear these playshoe "treasures." Bold, brave colors to go with gaudy pirate shades . . . carefree comfort leaves any young buccancer set for a Summer of fun and adventure! They're styled for grown-ups, too.
