NORTHLAND FURS AT EDMONTON
 First Consignment of Season Brought From Pelican Rapids by Four Burly Huskies—Dogs Are Not Fatigued.

EDMONTON, Alberta, Thursday, April 11.—The appearance of a dog-train of furs on Edmonton's main thoroughfare this morning was a picturesque sight, reminiscent of the frontier days, and one only to be seen here at intervals now.
 The four burly huskies in the train showed signs of fatigue after their long journey of 300 miles from Pelican Rapids on the Athabasca, accomplished in the last five days, with intervals of rest. Their driver and owner, a square-jawed, capable-looking Indian named Alexander Dezerlaris, preferred to bring his furs and dogs directly to Edmonton, instead of leaving his dogs at Athabasca Landing, where the average trader does.

"In the Long Run, Nothing Pays So Well as Good Faith Towards the Public"
 This is the theory and essence of the Sherman, Clay & Co. plan. Good faith toward the public is the cornerstone of our piano business. It includes the handling of the best pianos, at the lowest prices and at one price to all alike; it means that you can depend upon what we tell you about a piano.

THE SAFEST PLACE TO BUY A PIANO

NOW'S THE TIME FOR PIANO BUYING!
 PRICES THE LOWEST EVER IN PRINT—TERMS THE EASIEST EVER KNOWN—AND THE PIANOS THE VERY FINEST AND MOST FAMOUS MAKES
D. S. JOHNSTON CO.
 No relief in sight as yet. Just when we see a little daylight ahead, along come seventeen more carloads of pianos yesterday. "Unload them at once" demand the railroads, but where to put them all is the question.
 In the lot which arrived yesterday are a number of the finest and most costly pianos ever shipped to the West—the very latest creations from the largest Eastern factories, among them such world famous makes as the Schumann, popular since 1846; the artistic Cable-Nelsons, quite a few of the dainty Clarendons, and several special "Art Style" Pease pianos.
 We must find homes for all of them quickly. The store is jammed to the doors, and we'll have to admit it is a little inconvenient and annoying to crowd among the many pianos and select an instrument. But the immense saving you can now effect will amply repay you for the inconvenience. Why, just think of it, today you can secure the very choicest of strictly brand new pianos in elegant walnut or mottled mahogany or fancy oak cases, reliable New York makes, for only \$168, \$129 and as low as \$117. The regular \$225 and \$250 styles now only \$182, \$157 and \$146. Regular \$450 and \$475 values now go for \$268, \$253, etc., and several exceptionally fancy ones for \$272, \$314 and \$327.
 Remember, every instrument is accompanied by the strongest worded guarantee given by any mercantile institution. An absolute "money back" warranty if instrument, after delivery, is not exactly as represented and satisfactory in every respect. The House of Johnston, the Pioneer reliable reputation for fair and honest dealings, and we will not make a statement which cannot be backed up absolutely.
 If you want to acquire a brand new high-grade piano—one that will not last for two, three or five years, but for a lifetime—get it below the established wholesale or jobbing figures, or at an average saving of \$125 to \$225 below the regular lowest retail value of the instrument—if this is an object to you—we say, come, see, and judge them for yourself. You cannot afford to wait too long—better come this afternoon, when the store is not so crowded. But you had better come today—sure. Bear in mind you can virtually take your own time to pay.
